Proceedings of the Madras Government, Financial Department,
1st August 1864.

No. 3. Read the following letter from Lieutenant Colonel J. CARPENDALE, R. E., Mint Master; to the Chief Secretary to Government, Fort Saint George, dated Mint, 28th July 1864, No. 94,

Mr. Hodson, lately a Mechanical Engineer in the Department of Public Works, having applied to me for three old iron guns which were some time ago transferred from the Arsenal to the Mint, I have the honor to request that I may be permitted to let him have them at the price at which they are held on the books.

2. Guns like these were formerly broken in two or three pieces and put into and melted in the large Reverberatory furnace, which has been broken down by Order of Government noted in the margin, and as it is not possible to reduce them to pieces small enough to admit into the Cupola furnace now in use, to be melted and cast into other articles, they are of no use in the Mint.

No. 138 of 13th April 1860.

3. Mr. Hodson states that he requires them as parts of Hydraulic Machinery for pressing Cotton and other material.

No. 4. ORDER THEREON, 1st August 1864, No. 392.

The guns referred to will be sold to Mr. Hodson at the value at which they are set down in the Mint books.

(True Extract.)

Secretary to Government.

To the Mint Master.
