Proceedings of the Madras Government, Financial Department, 25th March 1865.

No. 39. Read the following letter from Lieutenant Colonel J. CARPENDALE, R. E., Mint Master, to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Fort Saint George ; dated Mint 16th March 1865, No. 373.

The death of Mr. G. R. Clarke, Pattern Maker, and who since Mr. Scott's departure to England, in April last, has been also in charge of the Foundry, necessitates some arrangement being made for the charge of these Departments.

2. If it were probable that the work of the Foundry would continue to be of the same nature and extent as of late years, I would recommend that a first class Pattern Maker should be obtained from England, to replace Mr. Clarke ; but as the new Foundry, about to be erected at Chepauk, will withdraw a large part, and that the most difficult, of the patterns and castings now made at the Mint, I am of opinion that the existing Establishment will be found capable of affording all necessary superintendence ; but as this will throw more labor and responsibility on certain Superintendents, I trust that Government will favorably consider their cases, and sanction the additions to their salary which I beg to recommend, and propose shall be made a Contingent charge, as it is not a permanent addition to salaries, but liable to revision after a fair trial.

3. By the Order of Government, as per margin, Mr. Clarke was granted an addition to his salary of Rupees 111 per mensem, for charge of the Foundry, and Mr. Periera, an apprentice, an addition of Rupees 55, as Mr. Clarke's Assistant, both charges being drawn in the Contingent Abstract.

No. 47, 18th January 1864.

4. I now propose, for the sanction of Government, that Mr. Periera shall remain on the same rate of salary, in direct charge of the men in the Foundry ; that Mr. J. Schwenke, Superintendent of Artificers, shall get an addition to his salary of Rupees 40 a month, for the extra duty of charge of the Pattern Maker's shop ; that Yamacharry, Head filer, who is also well skilled in brass moulding and casting, and who is of great assistance in executing large orders for waist plates for the army, and bosses for Artillery harness, may receive an addition of Rupees 20 ; and that Mr. A. Bowie, the Superintendent of Machinery, shall be granted an addition of Rupees 50 a month, as remuneration for his extra responsibility in exercising general superintendence over both the Pattern Maker's shop and the Foundry, which superintendence he has for a considerable time of late afforded, in consequence of the late Mr. Clarke's absence from sickness, and without which I do not think the other arrangements that I propose would be likely to answer.

No. 40. ORDER THEREON, 25th March 1865, No. 169.

His Excellency the Governor in Council is pleased to sanction the arrangements recommended by the Mint Master, for conducting the duties of the Iron Foundry and Pattern Maker's Departments ; the proposed addition to the salaries of the servants named in the margin, on account of the increased labor and responsibility that will be thrown upon them, will be drawn in the Contingent abstract.

Mr. J. Schwenke, Supt. of Artificers	Rs.	40	per mensem.
