Proceedings of the Madras Government, Financial Department, 4th January 1865.

No. 3. Read the following Extract from the Proceedings of the Government of India, in the Financial Department, dated 28th November 1864, No. 3365.

Read the following documents regarding the rules for regulating the acting pay, or deputation allowance, of Officers, acting in the Engineer and Account Branches of the Public Works Department :—

A letter from the Civil Paymaster, Bombay, No. 2795 of 31st March 1864, and the reply thereto, from the Financial Department, No. 212, dated 17th May 1864, regarding the salary payable to Captain Holland, Under Secretary to Government, in the Public Works Department, Bombay, for the period that he officiated as Auditor of Public Works Accounts, during the absence of Colonel Kendall, on special duty, as a member of the Public Works Account Commission in Calcutta.

An Office Memorandum from the Public Works Department, No. 335*a*-3575, dated 1st August 1864, forwarding the above correspondence, with an office Note, on the allowance admissible to Captain Holland, and on the expediency of introducing a uniform rule for the allowances of Acting Officers in the Engineer and Account Branches of the Public Works Department, in the three Presidencies.

An office Note of the Public Works Department, dated 9th September 1864, regarding the regulation of the allowances of Officers acting in the Engineer Branch of the Public Works Department for others absent on field service.

RESOLUTION.

The Civil Paymaster, Bombay, has passed to Captain Holland his substantive emoluments as Under Secretary, and 20 per cent. on the Civil equivalent of the Military Staff pay of the Auditor of Public Works Accounts.

2. The sum thus given exceeds, by Rupees 40 a month, the amount which Captain Holland could have drawn as Auditor of Public Works Accounts, had he been permanently nominated to the post.

3. Disallowing this excess, the Governor General in Council is pleased to confirm the rest of the Civil Paymaster's audit.

4. On the general question referred by the Public Works Department, His Excellency in Council observes that the admixture of Military Officers and Uncovenanted Civil Engineers, in the Engineer establishment of the Public Works Department, renders it particularly desirable that the deputation allowance of Acting Officers should be regulated on a principle which may be applied uniformly, whether the absentee, in whose room the *locum tenens* is to receive deputation allowance, gets a Staff pay or a consolidated salary.

5. The Military Pay Rule for Acting Staff Officers, which, it is understood, obtains in the Presidencies of Madras and Bombay, cannot meet the case, as that rule was framed for a scheme of Staff salaries, and is not adapted to any system of consolidated salaries for appointments which are tenable by Civil as well as Military Officers.

6. The Bengal Public Works Code Rule, which provides a fixed rate of extra or acting allowance, in addition to substantive pay, for an Acting Superintending Engineer, or an Acting Executive Engineer, without reference to the precise amount forfeited by the absentee, meets the necessities of the present question more nearly, but still imperfectly. The Bengal rule is defective, in that it does not contain any simple, easily worked principle for settling the allowances of officers, other than Acting Superintending Engineers and Acting Executive Engineers. Difficulties have arisen, for example, in settling the allowances of an Acting Chief Engineer, or an Acting Controller of Public Works Accounts—in the latter case, from the circumstance, more especially, of a Military Officer acting for a Civil absentee, or *vice versâ*.

7. The Civil Rule of deputation allowance provides:—

I. That an Officer who does not hold any substantive appointment shall receive 50 per cent. on the consolidated salary of the situation in which he may officiate.

II. That the holder of a substantive appointment, if officiating in another situation, shall draw his substantive emoluments, and, in addition thereto, a deputation allowance computed as per margin, provided that the aggregate shall not exceed the amount which he could draw if confirmed in the lowest grade of the class in which he officiates, if he be detached from his substantive post, or shall not exceed the consolidated salary (for a Civil Officer), or the maximum salary (for a Military Officer) of the higher of the two appointments, if he perform his substantive duties in addition.

20 per cent. on Rupees 2000, and 10 per cent. on all above Rupees 2000, of monthly consolidated salary.

III. The deputation allowance in the two foregoing cases is computed, as regards appointments which are in classes and grades, on the average consolidated pay of the grades in the class in which the Officer acts.

8. The Governor General in Council considers that this Rule may be applied advantageously to the Public Works Department, in all cases of an Officer acting in the Engineer branch, whether in an absolute vacancy, or during the absence of a permanent incumbent on general or privilege leave, special duty, or field service. The deputation allowance to the substitute of an Officer on privilege leave will be paid by the State, under the ordinary Civil Rules; and the rule, under which the first month's acting allowance is not passed to Officers officiating at the station where they are permanently posted, will also be applied to the Public Works Department.

9. In order to this application of the Civil Rules, the deputation allowance should be computed, invariably for Military and Civil Officers alike, on the *Civil consolidated salary*, and should be so computed, conformably with the Civil Rule, on the average of such consolidated pay, when there is more than one grade of Staff pay and of Civil consolidated salary in a class.

10. And in giving deputation allowance at 50 per cent., under Clause I of paragraph 7 of this Resolution, to a Military Officer not holding any substantive appointment, who may officiate in the Public Works Department, the allowance should be issued in addition to Military pay and allowances, up to an amount not exceeding what the Officer could draw were he to be confirmed in the lowest grade of the class in which he may be appointed to officiate.

11. With these adaptations of the Civil Rule to the circumstances of the Engineer branch of the Public Works Department, the Governor General in Council is pleased to authorize the regulation henceforth of the allowance of Acting officers in that branch, in all the Presidencies, by the Civil Rule of deputation allowance.

12. In no case will an Acting Superintending or an Acting Executive Engineer receive less, under the present Resolution, than the amount admissible under the present Bengal Public Works Code Rule; while some Acting Officers will, in cases of infrequent occurrence, receive a little more.

13. On administrative grounds, therefore, there is no objection to the new Rules; while, financially regarded, they will simplify materially the payment and audit of acting allowances.

Ordered that a copy of this Resolution be sent to the Public Works Department, with the original documents received from that Department: also to the several local Governments and Administrations, and to the Civil Paymaster, Bombay.
