Proceedings of the Madras Government, Financial Department,
16*th June* 1866.

No. 22. Read the following letter from the Acting Mint Master, to the Acting Chief Secretary to Government, Fort Saint George ; dated 14th June 1866, No. 38.

As the stock of English pig iron is exhausted, I have the honor to request that you will be so good as to send an emergent requisition to the Home Authorities, to send out, by the earliest opportunity, the quantity indented for in January last, to prevent the work in the Foundry from ceasing. The iron should be all of the best quality to mix with old shot and shell. At the same time, if possible, I should wish about one thousand of the Fire-bricks, which have also been applied for in the above indent, to be sent out for the Cupola Furnace. The diameter inside should be for 18″ and 24″ Furnaces.

No. 23. ORDER THEREON, 16th June 1866, No. 230.

Ordered that a copy of the foregoing letter be forwarded to the Right Honorable the Secretary of State for India, with a request that the Mint Master's application may be complied with at the earliest opportunity.
