No. 84. From the Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George ; dated Fort Saint George, 25th June 1867, No. 247.

In reply to your reference (dated 17th current) on a telegram from the Right Honorable the Secretary of State for India, I have the honor to report that, after full inquiry, I am inclined to believe that some months must elapse before the manuscript, prepared by Native Surgeon Moideen Sheriff, can be printed.

2. Mr. Morgan, the Superintendent of the Government Press, reports that much difficulty has been experienced in getting the requisite type cast, and this is not yet effected.

3. The manuscript extends over about 600 pages, and from the various kinds of type required, on almost every page, the printing will necessarily be very slowly accomplished.
