FINANCIAL DEPARTMENT.

No. 585.

FROM

R. S. ELLIS, ESQ., C. B.,

Chief Secretary to the Government of Fort Saint George,

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA,

FINANCIAL DEPARTMENT.

SIR,

I am directed, in reply to the letter from the Secretary to the Government of India, dated 13th September last, No. 2524, to transmit, for the information of the Governor General in Council, Statements prepared by the Accountant General and by the Inspector General of Police, containing the information required on the subject of Medical Establishments in connection with the Police of this Presidency. Statement *A* shows the strength of the Police Force at the stations mentioned in the Statement which accompanied my letter, No. 351, dated 31st July last. The Medical Establishments maintained at these stations, other than for purely Police purposes, are indicated in this Statement.

2. In explanation of the entry of only a menial attendant at some of the stations in the List which accompanied letter, No. 351, 31st July, I am to observe that at these stations the Medical Establishment is maintained for other Departments than the Police, and the menial attendant is attached to the special ward occupied by the Police. It has been found desirable to keep the Police separate from the other patients in the Civil Dispensaries into which in this Presidency in-patients are received. These Dispensaries are rendered as much as possible self-supporting, and it was found that the admission of the Police into the general wards of Dispensaries had the effect of keeping out civil patients, and diminished the support given by the community to these Establishments. Under these circumstances, separate wards are assigned to the Police ; and the entry of a menial attendant, which has attracted attention, refers to the menial attached to these special Police Wards. Apart from the consideration due to the prosperity of the Civil Dispensaries, there are advantages in this complete separation of the Police from other patients, both as regards discipline and maintaining exact information as to the sanitary condition of the Police Force, which would be lost if the Police were merged in the civil patients in the Dispensaries.

3. With reference to paragraph 3 of the letter under reply, I am to state that advantage is taken of any existing medical aid at out-stations for all the Police of the neighbourhood. Owing to the great size of districts in this Presidency, averaging 7000 or 8000 square miles, it is impossible to collect the sick of the Police of an entire district at the head-quarter station without a very serious loss of time and money.

4. The information required in paragraph 4 is contained in the enclosed Statement *B*. The Hospital Establishments kept up at Chicacole, Combaconum, Munnargoody, Negapatam, Vizianagram, Cocanada, Ellore, and Cumbum have not been included as Police charges for which Municipalities at these places are liable, because by far the larger number of the Police resorting to these Establishments are men of the General Police from stations in the adjacent country, and not Police specially allotted to these towns, and, as such, paid out of municipal funds.

I have the honor to be,
Sir,
Your most obedient Servant,

FORT SAINT GEORGE,
31*st December* 1867.

Chief Secretary.

A.

STATEMENT showing the strength of the Police Force and the Medical Establishment attached to Departments, other than the Police, kept up at the following stations named in the list submitted by this Office, with letter dated 31st July 1867, No. 351.

FORT SAINT GEORGE,
31*st December* 1867.

R. S. ELLIS,
Chief Secretary.

From the Accountant General, Madras, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 28th October 1867, No. 246.

Post Audit Department.

With reference to the Proceedings of Government, No. 437, dated 27th ultimo, I have the honor to forward, herewith, two statements of the Medical Establishment maintained in the Mofussil for Police and other purposes, and to state that the information available on the Registers of this Department does not enable me to show the strength of the Police Force at the stations named in the Statement forwarded on the 11th July last. I have, however, desired the Inspector General of Police, to whom I am furnishing copies of these Statements, to supply the requisite information on this point.

MEMORANDUM showing the Medical Establishment attached to Departments, other than the Police, kept up at the following stations named in the list submitted by this office, dated 11th July 1867.

ACCOUNTANT GENERAL'S OFFICE,
FORT SAINT GEORGE,
13*th November* 1867.

(Signed) F. LUSHINGTON,
Accountant General.

Forwarded to the Chief Secretary to Government in continuation of the Statement furnished by this office, dated 11th July 1867.

From the Inspector General of Police, to the Chief Secretary to Government, Fort Saint George; dated Madras, 26th November 1867, No. 2159.

Account Department.

Referring to G. O., No. 437, dated 27th September, Financial Department, I have the honor to submit the information called for by the Government of India.

2. No. 1 Statement shows the Hospital Establishment at head quarters of districts; No. 2 that at stations not the head quarters of districts. The latter consist chiefly of Hospital menial attendants employed in the Police Ward only at places where a Dresser or other Medical Officer is at present attached to some other department, but at the same time in charge of the Police Ward. In both Statements is shown collectively the number of men at the station itself, and also at stations in the surrounding taluqs, the sick of which must be brought to such station for the medical aid there available.

3. The separate medical establishment for the Police was sanctioned by the Government of India in G. G. O., No. 1995, dated 14th April 1864; and in respect to the necessity for separate wards for Police I beg to refer to G. O., No. 1012, dated 27th June 1862.

4. Referring to paragraph 3 of the Government Order, I beg to state that advantage is taken in this Presidency of any existing medical aid at out-stations for all the Police of the neighbourhood. The District Force is scattered in detached stations over our large districts, averaging 7000 or 8000 square miles each, and it were simply impossible to collect the sick of the entire District Force at the head-quarter station, from which many stations are 50 to 100 miles distant, without very heavy cost in money and public time; the nearest medical aid is therefore availed of. The sound and humane policy of this system is obvious, and the charge comparatively very trifling.

5. The Hospital Establishments of Chicacole, &c., named in paragraph 5 of letter of Government of India, have not been included in the amount payable by the Municipality because by far the larger number of the men who look to the Hospital Ward at these places for medical aid are men of the General Police attached to stations throughout the adjacent country, who, were the Muni-

cipality charged for the Hospital, would be refused admittance into the town ward, or have to pay far more for accommodation than now falls to the charge of the State. I beg that the present system may be allowed to remain undisturbed.

6. As the subject is now being placed before Government in this complete form, I have added an estimate for the medical establishment still required at several large stations; and I trust that no difficulty will be found in complying with so reasonable a claim. Experience has shown that in this Presidency, as in other countries, active Police work is exceedingly severe on the life and health of the men. The average death rate of the Force in 1866 was upwards of 20 per 1000—in Vizagapatam upwards of 40 per 1000—while in the Native Army it is 9 per 1000. The above death-rate even does not represent the true death-rate. Some resign in bad health and die in their villages without appearing in the returns. In 1866, 42·5 per cent. of the whole Force were treated in the Hospital Wards of the Police; in several Hill Districts nearly the whole Force went through the Hospitals at some period of the year; nor does this large percentage represent the whole of the sick. It is impossible to transport the sick from distant stations, and these do not appear in these Hospital returns. I am, therefore, most anxious, in the interest of the State Service, to complete as far as possible the due appliances for the sick.

POST AUDIT DEPARTMENT. No. 216

Fort Saint George,
Accountant General's Office,
28 October 1867.

FROM THE ~~ACTING DEPUTY~~ ACCOUNTANT GENERAL, MADRAS.

TO THE Chief Secretary to Government
Fort Saint George.

SIR,

With reference to the Proceedings of Government No. 437 dated 27th ultimo, I have the honor to forward herewith two Statements of the Medical Establishment maintained in the Hospital for Police and other purposes, and to state that the information available on the Registers of this Department does not enable me to show the strength of the Police force at the Stations named in the Statement forwarded on the 11th July last. I have, however, desired the Inspector General of Police, to whom I am furnishing Copies of these Statements, to supply the requisite information on this point.

I have the honor to be
Sir,
Your most obedient servant,

E. Robinson
Accountant General.

Capt. Sutherland

Chief Office of Inspector General of Police,

MADRAS, 7th December 1867

174

My Dear Sir,

Maliapooram was the Head Quarter of the old Maliah Police corps.

It is now a small rural Police Station with (7) seven men. It is six miles from Manjery and the sick from Maliapooram will go to Manjerry for treatment.

Yours faithfully

L Ramachendra

Mr R Upshon
Registrar Public Wks Deptt

Sect. Departt
No 2159.

Chief Office of the Inspr Genl of Police
Madras 26th November 1867.

From W. Robinson Esquire C.S.I.
Inspector General of Police

To The Honble R.S. Ellis C.B.
Chief Secretary to Government
Fort Saint George

Sir,

Referring to G.O. No 437 dated 27th September I.D, I have the honor to submit the information called for by the Government of India.

2. Number 1 statement shews the Hospital Establishment at Head Quarters of Districts, No 2 that at Stations not the Head Quarters of Districts. The latter consist chiefly of Hospital Menial attendants employed in the Police Wards only, at places where a Dresser or other Medical officer is at present attached to some other Department, but at the same time in Charge of the Police ward.

In

In both Statements is shewn collectively the number of men at the station itself and also at outstation in the surrounding Talugs, the sick of which must be brought to such station for the Medical aid there available.

3. The separate Medical Establishment for the Police was sanctioned by the Government of India in G. G. O. №1995, dated 14th April 1864 - And in respect to the necessity for separate wards for Police, I beg to refer to G. O. №1012 dated 27th June 1862.

4. Referring to para 3 of the Government Order, I beg to state that advantage is taken in this Presidency of any existing Medical aid at Outstations for all the Police of the neighbourhood. The District Force is scattered in detached stations over our large Districts - averaging 7,000 or 8,000 square miles each - and it were simply impossible to collect the sick of the entire District Force at the Head Quarter station - from which many stations are 50 to 100 miles distant - without very heavy cost in money and public time; the nearest Medical aid is therefore availed of. The sound and humane policy of this system is obvious and the charge comparatively very trifling.

5. The Hospital Establishments of Chicacole &c named in para 5 of letter of Government of India, have not been included in the amount payable by Municipality because by far the larger number of the men who look to the Hospital ward at these places for Medical aid, are men of the General Police attached to stations throughout the adjacent Country; who, were the Municipality charged for the Hospital, would be refused admittance into the Town ward or have to pay far more for accommodation than now falls to the charge of the state. I beg that the present system may be allowed to remain undisturbed.

6. As the subject is now being placed before Government in this complete form, I have added an Estimate for the Medical Establishment still required at several large stations; and I trust that no difficulty will be found in complying with so reasonable a claim. Experience has shewn that in this Presidency as in other Countries, active Police work is exceedingly severe on the life and health of the men. The average death rate of the Force in 1866 was upwards of 20 per 1,000 - in Vizagapatam upwards of 40 per 1000 -

while

while in the Native Army it is 9 per 1000. The above death rate even does not represent the true death rate. Some resign in bad health and die in their villages without appearing in the returns. In 1866, 42·5 per cent of the whole Force were treated in the Hospital wards of the Police - in several Hill Districts nearly the whole Force went through the Hospitals at some period of the year; nor does this large per centage represent the whole of the sick. It is impossible to transport the sick from distant stations and these do not appear in these Hospital returns. I am therefore most anxious in the interest of the State service, to complete as far as possible the due appliances for the sick.

I have the honor to be
Sir,
Your Most Obed.t Servt

R Robinson
Inspector General of Police.

Chief Office of the Insp.r Gen.l of Police
Madras 26th Nov.r 1867

H R Cotton
Inspector General of Police

Circular
Dr. a letter from the Bishop
of Adelaide to the Chief
Secy. to Govt. Port Lincoln Comp.
dated 21st Nov. 1859

Rec.d 31st Dec.r 1859 Ln. 496

Statements of expenditure
& statistical returns asked

Police purposes are indicated in this Statement.

2 In explanation of the entry of only a menial attendant at some of the Stations in the List which accompanied letter No. 351 - 31st July, I am to observe that at these stations the Medical establishment is maintained for other departments than the Police, and the menial attendant is attached to the Special ward occupied by the Police. It has been found desirable to keep the Police separate from the other patients in the Civil Dispensaries into which, in this Presidency, in-patients are received. These Dispensaries are rendered as much as possible self-supporting, and it was found that the admission of the Police into the General wards of the Dispensaries had the effect of keeping out Civil patients, and diminished the support given by the Community, to these Establishments. Under these circumstances separate wards are assigned to the Police and the entry of a menial attendant which has attracted attention refers to the menial attached to these Special Police Wards. Apart from the consideration due to the prosperity of the Civil Dispensaries, there are advantages in this complete separation of the Police from other patients both as regards discipline and maintaining exact information as to the sanitary condition of the Police force, which would be lost if the Police were merged in the Civil patients in the Dispensaries

3. With reference to para 3 of the letter under reply, I am to state that advantage is taken in this Presidency of any existing Medical aid at out stations for all the Police of the neighbourhood. Owing to the great size of Districts in this Presidency averaging 7000

or

or 8000 square miles, it is impossible to collect the pick of the Police of an entire District at the Head Quarter Station without a very serious loss of time and money

4. The information required in para 4 is contained in the enclosed Statement B. The Hospital establishments kept up at Chicacole, Combaconum, Mannargoody, Negapatam, Vizianagram, Cocanada, Ellore, and Trumbum, have not been included as Police charges for which Municipalities at these places are liable, because by far the larger number of the Police resorting to these establishments are men of the General Police from Stations in the adjacent Country, and not Police specially allotted to these Towns and as such paid out of Municipal Funds
