Proceedings of the Madras Government, Financial Department,
27th March 1868.

No. 87. Read the following letter from the Secretary to the Government of India, to the Chief Secretary to Government, Fort Saint George; dated Fort William, 14th March 1868, No. 1489.

I am directed to acknowledge the receipt of your letter, No. 585, dated 31st December 1867, forwarding Statements explanatory of the charges for Police Hospitals at stations, which are not the head quarters of districts.

2. In my letter, No. 2524, dated 13th September 1867, the expense for a menial attendant as the sole charge for a Police Hospital at some of these stations was noticed. It is explained that at these stations a ward in the Civil Dispensary is set apart for Police, and the menial attendant is required for this ward, the ward itself being maintained in deference to the prejudices of Civil patients who contribute to the support of the dispensaries, and in furtherance of the general principle that the Police should be treated apart from other sick.

3. This explanation is sufficient, with regard to stations where there are Civil Hospitals; but I am to observe that at the places mentioned on the margin there is no Civil Hospital or paid Native Doctor, and as, at those places, the sick Policeman stays doubtless in his own lines, the necessity for a menial attendant is not apparent.

4. The Native Surgeons at Pollachy in the Coimbatore District, and at Munnargoody in the Tanjore District, receive an extra allowance for affording medical aid to Police, the former of Rupees 10 monthly for 97 Police, and the latter of Rupees 15 monthly for 186 Police. Police allowance was given with the old scale of Bengal Civil Medical salaries to Covenanted Medical Officers, or Sub-Assistant Surgeons, in Medical charge of Civil stations, which are the head quarters of districts, not at stations in the interior, as in the instances now under consideration. One reason for the grant was the additional work entailed in the examination of recruits for the Police; this work does not fall upon a Native Surgeon at a Police station in the interior. Another reason was the extra work incidental to the treatment of the Police in a separate hospital. This too, is inapplicable in the instances of Pollachy and Munnargoody, where the sick Police are simply treated in a separate ward of the Civil Dispensary. I am accordingly to inquire why these extra allowances should not cease.

5. I am also to request that, with the permission of His Excellency the Governor in Council, it may be stated why a Dresser should not be substituted for an Assistant Apothecary at Aska, Parvatipur, and Nursapatam.

6. In the statement attached to your letter, No. 351, dated 31st July 1867, the charge shown in the margin was entered for the station of Malliapooram in the Malabar District. It is now observed by the Inspector General of Police that "Malliapooram was the head quarter of the old Maliah Police Corps. It is now a small rural Police station with seven men. It is six miles from Mangery, and the sick from Malliapooram will go to Mangery for treatment." It is presumed that the charge of Rupees 29-8-0 for an hospital establishment for these seven Policemen has ceased.

No. 88. Order thereon, 27th March 1868, No. 173.

Ordered that a copy of this letter be furnished to the Inspector General of Police, in reference to his letter, dated 26th November 1867, No. 2159, with a request that he will afford the requisite explanation on the points adverted to in paragraphs 3 and 6.

2. The Inspector General, Medical Department, to whom a copy of the letter will also be furnished, is requested to favor Government with his views on the questions raised in paragraphs 4 and 5 of this letter.
