Order. 7th January 1868 No. 8.

On the 2nd November last the Government forwarded to the Board of Revenue and the Accountant General for their remarks an important letter from the Secretary to the Government of India in the Financial Department calling for the opinion of this Government on certain proposals submitted by the Rt Honble Mr Naper for localizing a portion of the Revenues and Charges at present treated as Imperial.

In the letter in question the Government were requested to reply with as little delay as

as possible in order that in the event of the Government of India and the Secretary of State approving of the adoption of the proposals now put forward effect should be given to them in the coming financial year. Upwards of two months have elapsed since the papers were transmitted to the Board and the Accountant General and although the attention of these functionaries has more than once been directed to the subject the Government are still without the information requisite to enable them to submit their opinion on the points noticed in Mr Macrae's Memorandum. His Excellency the Governor in Council apprehends that the delay which has occurred in the disposal of this matter may be productive of great inconvenience and he directs that the Board and the Accountant General will give their immediate

immediate attention to the subject to the exclusion of all other business not of an essentially emergent character. The Government will expect to receive the replies of both officers not later than the 13th instant.
