Not to be folded or roughly handled

Proceedings of the Madras Government, Financial Department,
26th October 1869.

No. 61. Read the following letter from the Government Astronomer and Meteorological Superintendent, to the Acting Secretary to Government, Fort Saint George, dated Madras Observatory, 11th October 1869.

Herewith I have the honour to submit my Budget Estimate for the Presidency Meteorological Department, for the official year ending 31st March 1871.

2. I have not thought it necessary to make any special provision for printing the Meteorological proceedings, as I presume that the sum set apart for that purpose in the Observatory Budget Estimate, viz., Rupees 6000, out of Section 25, Miscellaneous, will be available either for the Astronomical or Meteorological Department.

No. 62. ORDER THEREON, 26th October 1869, No. 500.

With the foregoing letter the Meteorological Superintendent submits the Budget Estimate of that department for 1870-71, amounting to Rupees 20,280.

2. It is observed that the estimate for the current year was for Rupees 19,280, and that the actuals for 1868-69 did not exceed Rupees 12,801, or Rupees 7479 below the amount now budgeted for.

3. The Government are of opinion that if no new Meteorological Stations have been established during the current year, it is desirable, in the present state of the finances, to limit the expenditure in 1870-71 to the stations which have been already established, and to frame the estimate accordingly.

4. The estimate will, therefore, be returned to the Superintendent for revision, and he will be informed that the Government are not prepared to admit a larger assignment for contingent expenses than Rupees 2000, the amount passed in the estimate for the present year.
