Proceedings of the Madras Government, Financial Department, 4th December 1869.

No. 8. Read the following letter from the Sanitary Commissioner for Madras, to the Accountant-General, Madras, dated Madras, 22nd September 1869, No. 3055.

I have the honour to forward the accompanying Budget, in duplicate, of this Office for the year 1870-71.

2. The difference between the amount budgetted for and that estimated for 1869-70 is due principally to the abolition of the Secretaryship under the Resolution of the Government of India, communicated to me by the Madras Government in their Order, No. 953, dated 13th July 1869, in the Public Department, and to the consequent re-organization of my Office Establishment, sanctioned under the Orders of this Government, in the Public Department, No. 1084, dated 3rd August 1869.

3. It is to be observed, however, that the amount shown in the estimate does not represent the full amount required for my Department for the ensuing year. Under G. O., No. 1226, dated 1st September 1869, I am directed to include, in my Budget Estimate for 1870-71, the expenses attendant upon the collection of vital statistics in the Presidency of Madras. This I have not done as I found it impracticable, on such short notice, to ascertain what the probable expenses would be without a reference, which I have made, to the several Departments alluded to in the order of Government.

4. But as the receipt of the replies from these Departments would delay the submission of my Budget, which should be forwarded before the expiration of this month, I have omitted that item from it. On my ascertaining from the Officers addressed what the probable expenses will be, I shall submit a supplemental estimate for the same.

No. 9. ORDER THEREON, 4th December 1869, No. 588.

The Sanitary Commissioner submits, with his letter above recorded, the Budget Estimate of his Department, for 1870-71, amounting to Rupees 34,902. He also submits a supplemental estimate for Rupees 700, which provides for the collection of Cholera Statistics.

2. The estimate* for 1870-71 is, it is observed, Rupees 13,248 less than the estimate† for 1868-69, chiefly owing to the omission of the salary of the Secretary to the Sanitary Commission.

* Rupees 35,602.
† Rupees 48,850.

3. The decrease, however, would have been greater had it not been found necessary, on the abolition of the office of Secretary, slightly to increase the strength of the Office Establishment. The sanction of the Government of India having been granted for this increase, in their Proceedings in the Financial Department, dated the 12th October 1869, No. 4037, the scale of establishment entered by the Sanitary Commissioner in the Budget Estimate is admitted.

4. The allowance of Rupees 700 for the collection of Cholera Statistics is necessary, and is also admitted in the estimate.

5. The amount passed for the Sanitary Department, for 1870-71, is Rupees 35,602.
