Not to be folded or roughly handled

Proceedings of the Madras Government, Financial Department,
11th December 1869.

No. 35. Read the following letter from the Meteorological Superintendent, to the Chief Secretary to Government, Fort Saint George, dated Madras Observatory, 6th December 1869.

Herewith I have the honour to return my revised estimates for 1870-71, for the Presidency Meteorological Department, framed with the utmost regard to economy and the efficiency of my office. Preparations for starting all the remaining stations except Rangoon have been so far advanced that I hoped and intended to have had all going before January 1st. Severe domestic affliction has alone prevented me from doing so at a much earlier date. Instruments have been got ready, and sheds prepared and despatched by the Public Works Department to all the stations, and two additional native hands have been under training since September, as acting Assistants in the Madras Observatory, under expectation and promise of appointments as Meteorological Observers. I trust the Government will, therefore, regard the preparations already made as too far advanced for suppression at least as far as regards the two very important stations of Wellington and Kamptee, and I have accordingly reduced the establishment to the number of Observers actually drawing pay before the submission of my estimates in October last.

No. 36. ORDER THEREON, 11th December 1869, No. 604.

The Governor in Council resolves, under the circumstances stated by the Meteorological Superintendent in the foregoing letter, to authorize the completion of the new stations at Wellington and Kamptee.

2. The revised Budget Estimate for 1870-71, amounting to Rupees 15,920, or Rupees 3360 less than the estimate for the current year, is passed.

(True Extract.)

Chief Secretary.

To the Meteorological Superintendent.
,, Accountant-General, with the estimate.

Sir

Herewith I have the honor to return my revised Estimates for 1870-71. for the Presidency Meteorological Department framed with the utmost regard to economy and the efficiency of my Office. Preparations for starting all the remaining Stations except Rangoon have been so far advanced that I hoped and intended to have had all going before January 1st. Severe domestic affliction has alone prevented me from doing so at a much earlier date. Instruments have been got ready and sheds prepared and despatched by the Public Works Department to all the Stations, and two additional native hands have been under training since September, as acting assistants in the Madras Observatory, under expectation and promise of appointments as Meteorological Observers. I trust the Government will therefore regard the preparations already made as too far advanced for suppression at least so far as regards the two very important Stations of Wellington and Nampitee, and I have accordingly reduced the Establishment to the number of Observers actually drawing pay before the submission of my Estimates in October last.

I have the honor to be
Sir
Your most obedient Servant
H R Pogson
