Total ...	25,65,898	+ 5,974	25,71,872	26,06,256

To the local estimate for India Rupees 21,884 have been added, with reference to the regular estimate for 1869-70, and Rupees 40,000 for an increased estimate for the Press at Simla.

An addition of Rupees 13,000 has also been made to the estimate for the North-Western Provinces, on account of the Government Press at Allahabad, with reference to a letter from the Accountant-General, North-Western Provinces, No. 23512, dated 17th March 1870.

On the other hand, the estimates for Bengal and Bombay have been reduced by Rupees 20,000 each, the former on account of an over-estimate of Rupees 15,000 in Law Courts, and Rupees 5000 in registration charges ; and the latter on account of peons' clothing, which the Government of Bombay was required, under orders of February 1870, to reduce, on the ground that the indulgence is not allowed to peons in other parts of India. A further retrenchment of Rupees 500 has been made from the Bombay estimate on account of official postage twice included, viz., once by the Comptroller-General, and again by the Accountant-General in his revised estimate.

Ordered that the foregoing Resolution be sent to the several Governments and Administrations, the local Accountants-General, and the Deputy Accountant-General in independent charge.

Ordered, also, that a copy of the Resolution be sent to the Comptroller-General of Accounts, with a request that he will issue a circular prohibiting the charge for printing under any ordinary head, and directing the audit of printing charges like those of stationery. For the present year the entire charges for printing should be shown in the accounts and estimates under this head, under whatever head they may have been entered locally.

Assist. Secy. to the Govt. of India.
