No. 3. Read the following Proceedings of the Government of India in the Financial Department, dated Fort William, 8th November 1870, No. 2941 :—

Leave and Allowances.

RESOLUTION.—The Governor-General in Council is pleased to lay down the following rule for the adjustment of the allowances of all officers in civil employ who perform simultaneously the duties of more than one office :—

An officer performing at the same time the duties of two or more offices, whether he be appointed to them substantively or not, shall draw the highest salary and allowances to which he would be entitled if he held any one of the offices alone. For the remaining office or offices, he shall draw such allowances as the Government to which he is subordinate may fix, not being more than half the amount to which he would have been entitled had he held each office alone.

Provided that the aggregate allowances given under these rules shall not exceed the highest *substantive* salary of any of the offices filled, unless the Government to which the officer is subordinate declares, by a special order, to be communicated to the Supreme Government, that it is absolutely necessary, in the interests of the public service, to entrust to him the duties of all the offices at once, and that, for special reasons, the salary which the officer would otherwise draw under this Resolution is insufficient.

Illustration.—A Covenanted Civil Servant who has a substantive salary of Rupees 1,000 per mensem, without giving over charge of his own office, officiates in another office the salary of which is Rupees 1,600 and in a third office the salary of which is Rupees 2,500 per mensem.

If he held each office alone, he would be entitled to the following allowances in each one:—

	RS.
For his own office	1,000
First office in which he officiated, Rupees 1,000 + ⅔ of 1,600—1,000 = 600 ...	1,400
Second do. ,, 1,000 + ⅔ of 2,500—1,000 = 1,500 ...	2,000

Under the foregoing rule, his maximum allowance for the charge of the three offices would be Rupees 2,000 + Rupees $\frac{1000}{2}$ + Rupees $\frac{1400}{2}$ = Rupees 3,200; but, as the highest substantive salary of any of the three offices is Rupees 2,500, his aggregate allowances must be limited to that sum, unless the Government to which he is subordinate makes the declaration described above, in which case he will receive such allowances, not exceeding Rupees 3,200 per mensem, as the Government may sanction.

—

ORDER.—Ordered that the foregoing Resolution be published in the *Gazette of India* and communicated to the other Departments, the local Governments, the Comptroller-General of Accounts, the Head Commissioner of Paper Currency, the Director-General of the Post Office of India, the Mint Master, Calcutta, the Accountants General, and the Deputy Accountants General in independent charge.
