Proceedings of the Madras Government, Financial Department,
27th January 1870.

No. 92. Read the following Extract from a Resolution of the Government of India, Financial Department, dated 31st December 1869, No. 3416.

The Accountant-General is reminded that it is a very important part of his duty to warn the Local Government immediately of the first appearance of any excessive *proportionate* outlay under any grant; and when the monthly abstract exhibits such excess, the Government of India expects always to receive a specific assurance that the fact has not escaped the notice of the Accountant-General, and that he has informed and warned the Local Government or the Department concerned if, as in the case of Salt or Forest, the Administration be imperial. Under such circumstances the Supreme Government will always expect to receive explanations from the Local Government or Departmental Officer as the case may be, at a very early date, and without specially asking for them.

Ordered that the above be communicated to the several departments of the Government of India, and to the Local Governments and Administrations, and to the Comptroller-General of Accounts and Local Accountants-General.
