No. 8. Proceedings of Government, dated 7th June 1871, ...

His Excellency the Governor in Council observes that it is of mu... ance that no time should be lost in making the arrangements necessary fo... preparation of the Budgets of the several Local Fund Boards which have be... constituted under Act IV. of 1871. A draft set of Rules framed under the Act has been completed, and, on the receipt of the remarks asked for from the Board of Revenue and other Heads of Departments concerned, will be issued shortly for the guidance of the Local Fund Boards.

2. Meanwhile, as the Government have resolved on the general principles which are to regulate the expenditure of Provincial Funds to be devoted to Communications, and as the amount of such funds, which can be spared for the purpose during 1871-72, is now known, His Excellency in Council is pleased to issue the following orders regarding the apportionment of, and provision for, Public Works expenditure.

3. They are based on a draft Budget, prepared in the Public Works Department, showing in detail the expenditure for which allotment must be made from Provincial and Local Funds for Civil Buildings, Miscellaneous Public Improvement, Communications, Establishments, and Tools and Plant, and on the District Road Fund Budget for the year 1871-72, framed by the Board of Revenue and sanctioned in the Revenue Department. In separate orders, however, the Public Works Department has been informed that the allotment for Civil Buildings will be increased from that proposed, Rupees 5,85,060, to Rupees 6,50,000, partly to provide for certain demands under this head which have since arisen and partly to admit of greater expenditure than was contemplated in the completion of the Taluq Cutcherries and Subsidiary Jails which have been commenced. The proposed allotment for Miscellaneous Public Improvements has been accepted.

4. With regard to Communications, it has been decided that, whenever possible, the duty of proposing, providing for, and controlling the expenditure under this head shall be made over to the Local Fund Boards, to whom lump grants-in-aid of such amount as can from time to time be spared will be assigned from Provincial Funds. The Government anticipate that this change of system will conduce to efficiency and economy by bringing to bear more powerfully upon this branch of the Administration the local knowledge and local interest which are so essential to its success.

5. In accordance with these views, the allotments noted in the margin are the only ones which will be retained as provincial out of those contained in the Public Works Budget for Communications; the rest will be amalgamated with those entered in the Road Fund Budget in a single list,

Roads at the Presidency	20,450
Do. in Jeypore	10,000
Total ...	30,450

partment,

1871.

...ated to the several Presidents for communication to the Local ...ds. Further instructions are given below.

6. The proportion of the cost of Public Works Establishments to be charged to Provincial, Local, and Special Funds* is Rupees 8,80,710, which includes the petty establishment, Public ... Department, provided for in the Budget of the District Road Fund. The total of estimated provincial expenditure is Rupees 7,19,950, and that of local expenditure by the Department, as shown in the statement in paragraph 8, Rupees 30,86,630. Deducting the proportion of the cost of establishment to be charged to Special Funds, Rupees 15,380, the balance divided between Provincial and Local Funds in the ratio of the expenditure, gives Rupees 1,63,660 as a provincial, and Rupees 7,01,670 as gross local charge. The total provision for tools and plant (Public Works Department) in the Budgets is Rupees 73,640. The charges under these heads are thus distributed:—

* Educational Building Fund.
Port Fund.
Cochrane's Canal Fund.

	Establishment.	Tools and Plant.
	Rs.	Rs.
Provincial Funds	1,63,660	30,000
Local Funds, Public Works Department.	7,01,670	42,640
Revenue Department	15,860	3,440
Special Funds	15,380	1,000
Total...	8,96,570	77,080

7. Heretofore the practice has been to debit Local Funds with ten per cent. of the actual outlay on works to cover charges on account of the Public Works Establishment. The aid from these funds towards the objects indicated could not, under those circumstances, be relied upon; and short expenditure on works, as compared with the year's estimate, resulted in a corresponding diminution of the grant for establishments. Reductions of this nature have hitherto been met by an arbitrary curtailment of the grants for imperial works, often of a pressing character, in order to supplement the Budget assignment, from ordinary revenues, for establishments. In order to obviate the inconvenience thus occasioned, His Excellency the Governor in Council is pleased to direct that the sums set apart in the Budgets for Establishments ... Local F... regarded as fixed grants for the year.

8. The transfer of charges for Communications this year from the Provincial to the Local Funds necessitates that a grant on account of establishments and tools and plant should be made from Provincial Funds. This grant will amount to Rupees 2,97,490, and will be distributed in the ratio of the expenditure by the Public Works Department in each district. The sum at present available for lump grants, for Communications from Provincial Funds, is Rupees 6,30,000.

The distribution for Local Funds of the charges and gran... is shown in the following statement:—

Districts.	Total expenditure by Public Works Department (including Public Works Department Contingencies, Road Fund).	Petty Establishment Public Works Department (Road Fund).	Public Works Department, General Establishment.	Public Works Department, General and Road Fund, Tools and Plant.	Expenditure, Revenue Department (Road Fund) including Establishment and Tools and Plant and Contingencies.	Grand Total Expenditure (excluding reserve).	Grants from Provincial Funds.

9. In allotting the lump grants-in-aid from Provincial Funds to the several Districts, the Government have looked, in the first place, to the solvency of the Local Funds, as far as an estimate can be made upon that point, from the data which are before Government, and, in the second, to the amount of the charges for Communications, which, in the list (adverted to in paragraph 5, supra.) of works to be

6. ...ts.

When the Local Fund Rules shall be issued, the Local Fund Boards ...be in possession of full instructions for the preparation for their Budgets under di... of expenditure.

...ust be asked to accept, if possible, the ...ations and ...blic Improvements) which accompanies this. These works form part of the scheme of expenditure decided upon for the year under the administrative arrangements hitherto in force, and grave inconvenience would result from any serious change at this period. The works contained in the list have all been sanctioned either in the Public Works Budget or in that of the Road Fund; and it will be considered in the Public Works Department whether expenditure within the allotments may not at once proceed upon any of these works, to be adjusted hereafter, against the Budget provisions which may finally be adopted in the several Local Fund Circles.

11. On the receipt of these orders, the Collectors of those Districts which have been sub-divided into more Circles than one will proceed, as a preliminary to the formation of the Budgets, to frame, from the District List herewith furnished, separate lists of works showing those appertaining to the several Circles. A separate estimate of income from the cess, at the sanctioned rates and from the other miscellaneous sources, should also at once be prepared for each Circle. The Local Funds will be allowed for the current year to receive, for application to roads and communications, the proceeds of the miscellaneous sources of income calculated on when the Road Fund Budget was prepared. The charges and grant for Public Works Establishments are to be distributed proportionally to the estimated expenditure by Departmental Agency in each Circle; but the grant-in-aid sanctioned for the District must be apportioned primarily, according to the condition of the Circle Funds and their capacity to bear the charges incumbent on them.

12. In some cases, funds allotted in the Public Works Department Budget for the repairs of roads passing through Municipalities in the Mofussil have been made over to the Commissioners under the sanction of Government. Some of these grants are charged to Repairs, Military, and will continue to be so charged. Some, however, are met from the allotment for Communications; and, when this is the case, the Collectors, before making proposals for the apportionment of the ...ll deduct the sums payable to the Municipalities. ...70-71 were as noted in the margin. Also, under G. O., 28th November 1870, No. 2861, Public Works Department, Rupees 850 per annum is to be paid to the Salem Municipality from the commencement of the current year. From the end of 1871-72 these grants from Provincial Funds, applicable to Communications, will be discontinued; and the Municipalities concerned are at liberty to propose to the Local Fund Boards of the adjoining Circles to contribute, under Section 30 of the Local Funds' Act, for the up-keep of the municipal roads.
