No. 52. ORDER THEREON, 27th June 1871, No. 250.

His Excellency the Governor in Council observes that, in addition to the expenditure on works shown in the Budget issued with the above Proceedings, the Government of India, in fixing the contribution for Public Works Establishments due by this Presidency, will have to take into consideration the expenditure, by Officers of the Department, on communications and miscellaneous public improvement, from the local funds aided by the lump grants* which are to be made for the purpose from Provincial Funds.

* Rupees 6,30,000.

2. This expenditure (though it cannot be exactly stated until the Local Fund Budgets are received) is estimated at Rupees 30,86,630; and, on account of it, it is computed that Rupees 7,01,670 (inclusive of the cost of Petty Establishment, Local Funds, Public Works Department, amounting to Rupees 1,17,980) will be paid from Local Funds for Public Works Establishments.

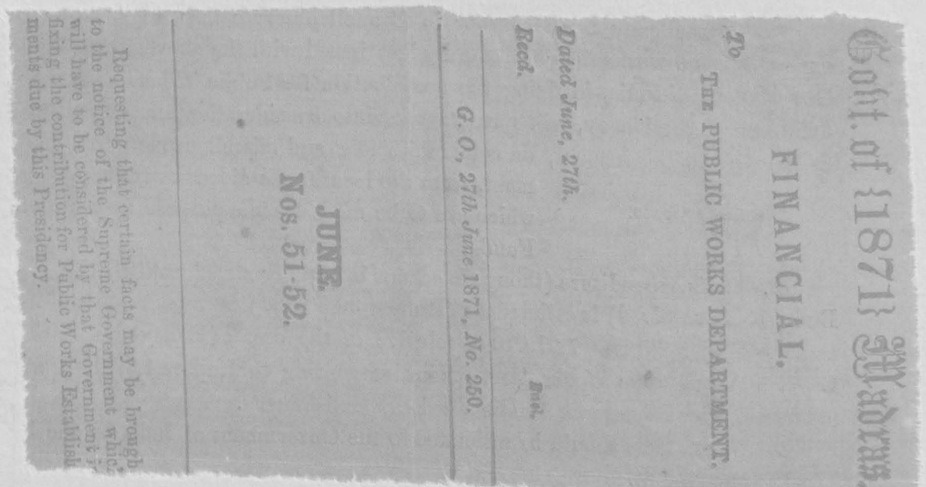

3. These facts should be intimated to the Government of India by the Public Works Department.

JUNE.

Nos. 51-52.

Requesting that certain facts may be brought to the notice of the Supreme Government which will have to be considered by that Government in fixing the contribution for Public Works Establishments due by this Presidency.

No. 337. Read the following letter from the Secretary to the Government of India, Public Works Department, (Account—General,) to the Secretary to the Government of Madras, Public Works Department, dated Simla, 20th May 1871, No. 341-A.-G :—

I AM directed to acknowledge the receipt of your letter, No. 948, dated 31st March 1871, and, in reply, to request that the Provincial Budget-estimates for 1871-72 may be submitted as early as possible, as for want of it the Government of India is unable to arrive at a decision in respect to the contribution which should be given by Provincial Funds for Public Works Establishments for all India, (*vide* Financial Department Resolution, No. 3,334, dated 14th December 1870).

2. I am to point out that, if any doubts exist as to the total funds available, the necessities of the case can be met by first submitting a budget for the amount which is known to be available for Public Works, and afterwards preparing any supplementary budgets that be found necessary, on further funds becoming available and being considered susceptible of being spent with advantage. No inconvenience can arise from following this course since any unexpended balance of Provincial Budget credits is available for the following year.

3. I am to add that the Government of India make this suggestion, as it is absolutely necessary in order to ensure financial regularity that the Provincial Budget should be prepared as soon as possible, so as to prevent expenditure being incurred from Provincial Funds without a regular budget grant or a formal appropriation of budget credits.

4. If it is possible to allow funds to be spent, it is also possible as well as necessary to financial regularity to assign proper limit to this expenditure.

No. 338. ORDER THEREON, 19th June 1871, No. 1,651.

ACCOUNT, No. 23.

ADVERTING to the Proceedings of Government of the 28th March 1871, No. 913, and G. O., No. 1,511, dated 3rd June 1871, His Excellency the Governor in Council resolves to issue the budget of works proposed for execution by officers of the Public Works Department during the current official year from Educational and Port Funds and from the grant for Provincial Services for works classed under "Civil Buildings," "Communications," and "Miscellaneous Public Improvement."

2. The sums made available from each of these sources and the distribution of those amounts under the various budget heads are detailed in the following statement :—

Fund.	NEW WORKS.						REPAIRS.				Establishment.	Tools and Plant.	Grand Total.

3. As regards the major works under "Provincial" for which funds are provided in the outgoing budget, the Government desire it to be distinctly understood that, in the absence of special permission, no expenditure can be incurred on any such work until the estimate has been sanctioned or the required supplemental estimate has received the approval of competent authority. This restriction will be regarded as applicable to all Local Fund Works which are now brought forward for the first time, and upon which no expenditure has previously been incurred.

4. A list of the minor works which have been provided for from Port Funds will be issued as an Appendix to the budget, and to admit of Superintending Engineers sanctioning the execution of such works estimated at less than Rupees 500 each, and requiring to be carried out from Provincial Funds, His Excellency the Governor in Council resolves to make the following allotments :—
