No. 118. Read the following Proceedings of the Board of Revenue, dated 15th September 1871 :—

Read the following letter from the Collector of Nellore, to the Acting Secretary to the Board of Revenue, dated Nellore, 25th July 1871, No. 1419 :—

Adverting to paragraph 2 of the Proceedings of the Board, dated 20th instant (in manuscript without number), I have the honour to return the estimate for metalling the 12th and 13th miles of the Nellore and Kistnapatam road duly countersigned, and to request the Board will get it sanctioned by Government as soon as possible.

2. The road is one of the most important district ones in every respect, and these two miles are particularly sandy and cause considerable obstruction to traffic in their present condition. I will lay the subject before the Local Fund Board when it meets, and there can be no doubt they will approve of the expenditure; but if I were to wait for the formal sanction on the budget, in which this item will, no doubt, be included, the probability is that the money—of which we have already too much likely to lie idle—would not be spent this year. Therefore, I beg the Board, on getting the sanction of Government to the estimate, to authorize the immediate execution of the work in anticipation of the formal budget sanction.

The estimate, amounting to Rupees 8,300, for metalling the 12th and 13th miles of the road from Nellore to Kistnapatam, is submitted for the early sanction of Government.

2. It is made up of the following items :—

	Rs.
1. Earth-work	86
2. Metalling	7,828
3. Turfing	31
4. Superintendence and Sundries	355
Total...	8,300

3. An estimate, amounting to Rupees 25,000, for completing the metalling to the road from the 11th mile to the back-water, was submitted for sanction on the 1st June 1869, but the Government deferred the consideration of the estimate for want of funds.

Vide Order, Public Works Department, dated 14th June 1869, No. 1924.

4. The Collector states that the road is one of the most important communications of the district, and that the particularly sandy condition of the 12th and 13th miles causes considerable obstruction to the traffic.

5. It is observed that the work is provided for in the current year's Local Fund Budget submitted by the Local Fund Board.
