No. 33. Read the following letter from the Deputy Inspector-General of Ordnance and Magazines, in charge of the Ordnance Office, to the Secretary to Government, Military Department, dated Fort St. George, 18th July 1872, No. 113-G:—

Ordnance Department.

With reference to Order of Government* I have the honour to state that the late Officiating President of the Madras Municipal Commission, in letter† to the Commissary of Ordnance, Fort St. George, informed that officer as follows, "With regard to removing rubbish from and cleaning the roads, I have given instructions to place a sufficient number of dust-bins at intervals, and to have a conservancy cart sent along them morning and evening."

* No. 394, dated 3rd April 1872.

† S. No. 525, dated 23rd April 1872.

2. In a subsequent communication‡ from the present Officiating President to the address of the Commissary of Ordnance, Grand Arsenal, as per extract entered in the margin, that officer states that the cost of the bins will have to be borne by the State.

‡ S. No. 1011, dated 5th July 1872.

"With regard to the dust-bins I have to inform you that it will be necessary to place (18) eighteen at sufficient intervals along the Ordnance Lines at a cost of Rupees 180, which will have to be borne by Government."

3. The road which passes along the Ordnance Lines is a public thoroughfare, and, as assessment is levied by the Municipal authorities on account of the buildings forming the Ordnance Lines, I submit that they are bound to supply the "dust-bins" and conservancy carts to the lines as is done in respect to streets where householders reside.

4. With regard to the removal of night soil, I beg to state that the facilities afforded to private householders consist in scavengers being permitted to empty the soil into the carts as they pass through the streets. I consider that this facility should in like manner be allowed to the scavengers employed by the Warrant and Non-Commissioned Officers who occupy the Ordnance Lines.

5. The President has offered to have the work of the conservancy of the latrines in the Ordnance Lines done at a charge of Rupees 30 per mensem; but as this is thirty per cent. above what is now paid for the same purpose by the Warrant and Non-Commissioned Officers out of their own means, it does not appear desirable to accept the offer.

Transferred to the Financial Department for disposal with reference to Proceedings of that Department, No. 394, dated 3rd April 1872.
