Proceedings of the Madras Government, Financial Department,
21st August 1872.

No. 131. Read the following Proceedings of Government, Public Works Department, dated 12th August 1872, No. 1918:—

His Excellency the Governor in Council has had under consideration the subject of opening out communication with the lines of railway now under construction in this Presidency. In many cases engineering considerations have been sacrificed and additional outlay incurred with the object of serving certain supposed commercial centres, and it is clear that the subsidiary roads should be projected and taken in hand simultaneously with the line of railway they are intended to serve.

2. His Excellency, therefore, resolves to call upon the President of the Local Fund Board of each district concerned, in communication with the Superintending Engineers, to forward, with as little delay as possible, for the information of Government, a report accompanied by a sketch illustrative of the measures that have been taken or may be proposed for opening out communication with the several proposed railway stations.

(True Extract.)
