No. 177. Read the following letter from the Acting President of the Municipal Commission, Bellary, to the Chief Secretary to Government, Fort St. George, dated Bellary, 10th August 1872, No. 69:—

With reference to the latter part of paragraph 2 of the Proceedings of Government, Financial Department, No. 686, dated 28th May 1872, I have the honour to submit a supplemental budget, framed by the Commissioners of the Municipality of Gooty, of receipts and charges under the trades-tax, which they now propose to levy in the current year.

2. The letter from the Vice-President is enclosed in original.

3. With regard to the fresh grant required for educational purposes, I beg to quote an extract from a letter from the Vice-President to my address, dated 24th June last:—

"2. In the Budget Estimate of receipts and disbursements for the year 1871-72 a sum of Rupees 396 was allotted by this Commission to establish a school costing (exclusive of fees) Rupees 72 per mensem, and Government were requested to provide an equivalent of this allotment. In paragraph 18 of their Proceedings, dated 1st July 1871, the Government refused to comply with this request, and directed the Commissioners not to attempt to establish anything but a primary school.

"3. There is no allusion to these Proceedings of Government in any of the Proceedings of this Commission; but in the Proceedings, dated 16th July 1871, I find that it was resolved to write to the Inspector of Schools to see if he can procure a schoolmaster who can teach English on a salary of Rupees 25. A letter was accordingly written and replied to by the Inspector of Schools, and on the 30th October 1871 the Commissioners resolved that, for the present, the school establishment consist of one Master on Rupees 30, and one on Rupees 15, and a peon on Rupees 7. Such a school was established in the month of November, and is now in existence.

"4. You will, of course, observe that this school was established in contravention of the expressed opinion of Government. I am, however, informed that the wish of the inhabitants was so strong in favour of an Anglo-Vernacular School, that the Commission decided on spending the Rupees 396 which had been sanctioned on the establishment of the school, trusting to obtaining the sanction of Government in the next budget for its maintenance.

"6. * * * * the Budget Estimate for 1872-73 consequently allotted 870 Rupees for the maintenance of the school, with an additional master, and at the rate contemplated in the estimate for 1871-72.

"7. On this the Government have commented in their Order referred to in the Proceedings of the 10th instant. They have, as might have been presumed, simply referred to their former orders on the subject, and cut down the allotment accordingly to Rupees 370.

"8. It is much to be regretted that the rash step was taken by the Commission of establishing the school without the sanction of Government being obtained; but I think it would be a great pity that the scheme, once set on foot and hitherto fairly successful, should be abandoned without a struggle."

4. Under these circumstances, I feel obliged to forward the matter for the consideration of Government, although I myself think that only primary education should be provided for by the Municipality.

5. There is no doubt that at Gooty (only for the last two or three years the head-quarters of the Sub-Collector) there is a great want of an Anglo-Vernacular School, and if it could be established independently of the Municipality, which is a poor one, great benefit would follow.

6. It will be observed that, in this supplemental budget, provision has now been made for vaccination, and an increased provision made for sanitation and lighting.

No. 178. ORDER THEREON, 26th August 1872, No. 1137.

The Governor in Council authorizes the Municipal Commissioners of Gooty to levy, during the year 1872-73, a tax on professions at the rates specified in Schedule B. of Act III. of 1871, in addition to the taxes authorized in G. O., dated 28th May 1872, No. 686.

2. The Commissioners estimate the revenue from this tax at Rupees 1,045, and propose to expend it in the following manner :—

	Rs.
On Schools	300
Vaccination Establishment	185
Cleansing of tanks	100
Lighting	400
Watering trees	60
Total ...	1,045

3. The above allotment for schools, together with that sanctioned for a similar purpose in G. O., dated 28th May 1872, No. 686, or Rupees 670 in all, is proposed by the Commissioners to be devoted to the maintenance of the Anglo-Vernacular School established by them in November 1871. When the establishment of this school was originally proposed, Government in their Order, dated 1st July 1871, No. 952, observed that the Commissioners should not attempt to provide for more than elementary education, and that they might, if they wished, open a primary school under their own management. Notwithstanding this, the Commissioners established an Anglo-Vernacular School, which appears at present to be in a very flourishing condition.

4. Under the circumstances, the Governor in Council will not withhold his sanction to the appropriation of Rupees 670 from the funds of the Municipality for the maintenance of this school, as proposed by the Commissioners.

5. His Excellency in Council sanctions the other items of expenditure provided for in the supplemental estimates now submitted.

No. 23. 877 72 Ghooty Mul. Comm. Office
6th August 1872

To,

The President
Ghooty Mul. Comm.
Bellary.

Sir,

In reply to your docket No. 79. dated 29th of June 1872. I have the honor to submit for Sanction a Supplemental Budget of Receipts and Expenditure from the municipal funds of the Town of Ghooty for the official Year 1872-73.

2, The Government in their Proceedings Financial Department dated 28th May 1872 No. 686. Para 2, intimated, that we should Consider the propriety of levying the trades-tax, we have therefore made an estimate for Collection under that head, of Rs. 1045. which will meet the Supplemental estimate of Charges.

3. Regarding the Sum of Rs. 300, for Educational purposes I must observe that it is most important that it should be Sanctioned.

The Government in their Proceedings above alluded to, Para 3, Suggest that the Commissioners "may if they wish open one primary School under their own management, and "that" for this purpose Rs. 370. will suffice"

An

An anglo-vernacular School which was Established in November last is now in a flourishing Condition, and requires at the lowest estimate Rs. 670. for its up-Keep, namely Rs. 612. for Establishment, and the balance of Rs. 58 for Contingencies-

There are now about 80 boys attending the School, and the Institution is increasing in popularity, and it would a great pity to check its progress-

An Estimate of Rs. 185. has been allotted for Vaccination Charges, Rs. 100. for Sanitation, Rs. 400. for Lighting Charges, and Rs. 60. for watering trees-

Regarding this last charge of Rs. 60. I may observe that it is a portion of the charge of Rs. 140, shewn in Grant XX of the original Budget out of which Sum we proposed to water streets, water trees, and impound cattle. The item was struck off by Government, and we now propose to apply for Sanction to spend Rs. 60, in watering a Mango topes in the Town

I have the honor to be
