No. 29. Read the following letter from the Acting President of the Municipal Commission, Madura, to the Chief Secretary to Government, Fort St. George, dated Madura, 28th August 1872, No. 24 :—

With reference to paragraph 2 of the Order of Government in the Financial Department, dated 29th May 1872, No. 705, I have the honour to report that the sum of Rupees 10,000 was entered in the Municipal Budget for improving and constructing drains in different parts of the town. The plans and estimates for these works are still under preparation by the Municipal Overseer under the superintendence of the Superintending Engineer, and have not yet been laid before the Commissioners.

2. The drains in Madura Town have little slope, and their filthy state has been under consideration for many years, but no complete and satisfactory scheme for their improvement has yet been adopted. In the year 1851 a plan was proposed for bringing water into Madura from the Vigay River for drinking purposes and flushing the drains; but, after an expenditure of Rupees 43,734 had been incurred, the work came to a stand-still. An estimate for completing the water project, at a cost of Rupees 16,900, was prepared, in 1870, by the Assistant Engineer in charge of No. 1 Range, and the Commissioners have a surplus in hand for any work of this description, but the cost would greatly exceed this estimate.
