Adoni Municipality

1871-72

Finance. G.O. 1857 (S.C)

20-9-1872.

Book No. 137-138 — 5/6

Proceedings of the Madras Government, Financial Department,
20th September 1872.

No. 137. Read the following letter from the President of the Municipal
Commission, Bellary, to the Ch ecretary to Government, Fort St.
George, dated Bellary, 19th Augu 872, No. 72:—

I have the honour to submit my repo the working of the Municipality of
Adoni during 1871-72. The usual stat ats, the Vice-President's report in
original, and the Auditor's report accompa

2. Under the authority conveyed in graph 20 of the Proceedings of the
Madras Government, dated 1st July 187, ublic Department, the Municipal
Commissioners of Adoni elected V. Dorasw Iyer to be their Vice-President.

3. In the same Proceedings the estim for the year under report of receipts
and charges of the above Municipality wer ssed with the exception of the item
under "Education."

4. The Commissioners estimated th eceipts of the Municipality for the
year at 15,550 Rupees, but the actuals re Rupees 16,734-11-8; the excess of
Rupees 1,184-11-8 being partly attributable the actual balance brought forward
from the last official year being more than double the amount estimated, and to
other small increments in some of the other items of receipts.

5. In others, such as rates on houses and tax on arts, the actuals varied
greatly from the estimated receipts. In the former case the increase is said to be
due partly to an incorrect estimate in calculating the receipts under that item, and
partly to the increase in the number of buildings brought under taxation. In the
latter the realizations were much below the estimate, arising from the tax-payers
being assessed at lower rates, under Schedule B, than they would otherwise have
been, in consequence of many individuals being also liable to the Imperial Income-
tax. The decrease under taxes on vehicles is due to the evasion of the tax, by the
latter being kept beyond municipal limits. The receipts under fines are composed
chiefly of penalties for not taking out licen and for breaches of the municipal
bye-laws.

6. The total charges incurred by Municipality amounted to Rupees
15,442-3-5 against Rupees 15,550, the budg provision.

7. The grant for Public Works amo ted to Rupees 8,379, and the charges
therefrom aggregated Rupees 7,985-11-6; of this latter sum Rupees 4,595-1-0 (of
which Rupees 2,400 was paid as compensation) was expended on Communications,
exceeding the budget allotment of Rupees 3,479 by Rupees 926-1-0; this was met
from the provision under "Sanitary" and "Miscellaneous." The necessity for
thus supplementing the grant arose from the want felt for a metalled road adequate
to the growing importance of the town. The road is 833 yards in length, and
contains three masonry tunnels.

8. From an allotment of Rupees 4,60 the sum of Rupees 3,044-13-4 has
been disbursed under "Sanitary" and "Miscellaneous." This consists of a double-
rowed latrine constructed for males, the old mud-walled one not being generally
resorted to for want of privacy.

9. The Government, as pointed out in paragraph 3 of this report, did not
sanction the allotment for educational purposes, but left the matter to be disposed
of in communication with the Educational Officers of the district; accordingly the
old pial schools were, as suggested by the Deputy Inspector, converted into

municipal institutions. Two hundred and sixty children attend them, and are taught Telugu and Canarese. As the nsfer occurred in December, only two-thirds of the grant have been utilized.

10. The Civil Dispensary at ni was, by a notification published in the District Gazette dated 8th June 18 formally transferred to that Municipality. I beg to annex a brief account of the orking of the institution during the calendar year 1871.

11. The total number of pati ts relieved was 2410, of whom 2353 were Natives. The relief administered is a very great extent confined to out-door patients, as none but the poorest ob se to receive in-door relief. The prevalent disease was fever. There were a fev ases also of small-pox, &c.

12. The receipts of the dispe ry, including the previous year's balance, amount to Rupees 5,306-6-1, and the bursements to Rupees 1,139-11-7, leaving a balance of Rupees 4,166-10-6. Of t sum Rupees 2,000 are invested in Government Securities.

13. The result system of vaccination is now pursued in the Municipality, and 544 successful cases are reporter in 690 operations.

14. The conservancy of the town is carried out by a staff of sweepers employed by the Municipality. Their services are made also available for private latrines, and for this are paid from private voluntary contributions. The sweepings, &c., are buried outside of the town. A further staff of twelve sweepers with carts, &c., is maintained for sweeping the town. The total cost of the conservancy establishment, including an Inspector and three Maistries, amounts to Rupees 1,985-11-3 per annum.

15. Under Grant IV. there is a small saving owing to a less number of lights than that proposed being found necessary, the total cost being Rupees 105-14-0.

16. The cost of supervision an management, including office establishment, amounts to Rupees 1,627-8-6.

17. The statement called for b Government in their Order of 4th May last, No. 627, will be found with the oth accompaniments of this report.

18. With the exception of a w of the wealthier members of the community, upon whom taxation falls newhat heavily, the benefits resulting from a Municipality appear to be appreciated. The improvements effected by the Commissioners in the way of widening the hitherto narrow lanes, planting of avenues, &c., have given the town a much improved appearance. Much still remains to be done, which will doubtless eventually be carried out with the hearty cooperation of the Commissioners. Some measures are also on foot to preserve the drinking-water supply from contamination, and the other steps now adopted with regard to conservancy, already noticed in this report, will conduce doubtless to the health of the town.

19. The Commissioners think, though I cannot agree with them, that the levy of tolls does, to a certain extent, restrict trade, and instances are not wanting where every means are adopted for evading the impost; but it works hardly when the ryot returning with a load of straw for his cattle has to pay as much as a well-laden cart. No instances have come to light of malpractices in the collection of the impost.

20. The list of Municipal Commissioners, called for in the Acting Under Secretary's Official Memorandum, No. 207, dated 31st ultimo, is enclosed.

From V. DORASWAMY IYER, Vice-President of the Municipal Commission, Adoni, to the Acting Collector and ex-officio President of the Municipal Commission, Adoni, dated Adoni, 25th April 1872, No. 113.

I have the honour to submit my annual report of the Municipality for 1871-72.

2. The enclosed statements explain the items of receipts and disbursements for eleven months of the year.

3. The year commenced with a balance of Rupees 2,092-2-3.

4. There were no arrear taxes to be levied in t rear.

5. The increase of Rupees 400 on the estimat house-tax is partly due to incorrectness in framing the budget, and partly to the increase in t mber of buildings brought under taxation. The fall of nearly a thousand Rupees under 3*b* is c ptable to Commissioners being threatened with a loud outcry of the tax-payers, who were char loubly on their income to Government and municipal accounts at a time when their commerce much depressed, and to the consequent necessity the Commissioners were driven to to assess them on lower classes of Schedule B, Act III. of 1871.

The small decrease in 3*c* is accounted for by the cultivators keeping their live stock outside the Municipality to avoid taxation.

The receipts under 3*g* are fines solely levied on men keeping cart and animals without license and breakers of bye-laws.

Other items call for no remark, the receipts bei nearly equal to the estimates.

6. Statement II.-A gives the details of expenditure on New Works. Grant I.-A in Statement II. has exceeded the estimate by about Rupees 1,000, which the Commissioners were obliged to lay out, as will be presently explained from the allotment le under this grant to construction of a chuttrum. They thought of erecting one for public accommodation in Rupees 2,000 and spending half that amount during the year. But a detailed est mate convinced them that a suitable building to accommodate all classes of travellers should c st far more than they anticipated. They, therefore, confined themselves to meeting the urgent wants of the town, viz., proper roads adequate to the growing commercial importance of the town, and they found themselves unable to complete the road they have laid without supplementing the gr nt. A sum of Rupees 2,400, however, out of the expenditure was paid as compensation to the o rs of houses and lands taken up for the road by private agreement. A first-class metalled ro of 883 yards was laid, and three masonry tunnels were constructed.

Grant Ic.—A masonry double-rowed latrine with twenty compartments on each side of the partition wall was constructed for the use of male with pavements of flagstone and seats, and provided with drainage masonry channels for flushing out with water. A latrine on this principle was adopted to suit the feelings of the people who had scruples to use the old mud-walled latrine for want of privacy.

7. Grant II.—Two schools were opened in different parts of the town to suit the convenience of the children attending them. These were old pial schools, and, as suggested by the Deputy Inspector of Schools, converted into municipal on s with the staff of teachers. These are attended by 260 children, who are taught Canarese a d Telugu. The schools being taken over by the Municipality in December last, the disbursement has fallen short of the estimate; the Commissioners have not inspected the schools during the year, and are, therefore, unable to report on their state. I believe this forms a portion of the Deputy Inspector's duty, if the Commissioners are expected to bear their share of the cost of supervision of schools.

8. Grant III.—As directed in your docket, No. 3, dated 3rd January last, I have paid for hospital establishment for ten months, up to February last, at Rupees 45 per mensem.

Statement I.-A is left blank as the dispensary was not then made over to the Commissioners.

As directed in G. O., No. 440, dated 8th September 1871, I beg to give a brief account of the working of the institution during the calendar year 1871.

The number of European and Native out-patients receiving medical aid were fifty-two and 2,333, respectively. The in-patients treated in the dispensary were fifty Natives; none but pauper patients choose to submit to in-door treatment, which accounts for the very small number. Fever was the prevailing disease of the year. The registered mortality from this cause was 290. Fifty-five deaths are recorded of small-pox, which made but temporary visitation. Diseases of the eye, ear, stomach, bowels and skin, and rheumatic affections, seemed to have appeared more or less among the town population. The Municipal Vaccinator, paid latterly on result system, vaccinated during the official year 590 cases, whereof 544 were declared successful.

The receipts of the dispensary, including the previous year's balance, are Rupees 5,306-6-1. Payments are Rupees 1,139-11-7, which leave a balance on the 31st December of Rupees 4,166-10-6, Rupees 2,000 of which are invested in Government paper, the remainder is lodged in the Government Savings' Bank, as would appear from the enclosed detailed statement of finance furnished to you by the Hospital Assistant.

Major Head 4.—Among the works conducing to public health may be mentioned the employment, by Commissioners, of a number of totties to clean daily all the private latrines attached to houses. The pay of these men are disbursed from collection of a voluntary rate on the privies varying from 4 Annas to 2 Annas per mensem. The Commissioners lend, at their own cost, a cart to carry the contents of these latrines for burial at the appointed places, while those of the public latrines are removed by separate staff of totties and cart. A further staff of twelve sweepers, carts, and buffaloes are employed to daily clean the streets and remove the sweepings outside the town. The Commissioners undertook the management of private privies on the earnest representation of the inhabitants of their inability to command the services of private totties except on exorbitant wages, and the unsatisfactory results attendant even on submitting to their whimsical demands By the Commissioners' interference beneficial results have arisen. The totties were made to deposit a month's pay to ensure punctual performance of their work. The fear of forfeiting the deposits works with immense satisfaction to the tax-payers concerned.

Grant IV.—There is a saving in the estimate for lighting. This is on account of the number of lights kept up being less than were proposed at the time of framing the estimate.

Sub.—Three hundred Casuarina trees were planted along the roadsides, which, together with the plantations of the past year, are in excellent condition.

9. Under the head "Advances Recoverable" is included the advance of Rupees 186-6-0 made to private totties, noticed in paragraph 8, under head 4, pending collection of the privy rates, in which Municipal bill collectors are employed.

10. The accounts of the year have been audited by Dresser Jeeyaraswamy, whose certificate I beg to enclose. The unaccounted items pointed out by him have since been duly brought to account.

11. I beg to bring to your notice that the Commissioners were zealous in their cooperation with me. The exertions of Holmchund Lauli in particular and of Seeniah were most marked in aiding me to carry out the works of improvement in general.

From the Auditor of the Municipal Accounts, Adoni, to the Vice-President of the Municipal Commission, Adoni, dated Adoni, 18th April 1872.

With reference to the docket, No. 37, dated 27th ultimo, from the President of the Municipal Commission, Adoni, to your address, appointing me as an Auditor of accounts of your Commission for the year 1871-72, I have the honour to inform you that I have gone carefully through all the accounts for the year, viz., 1871-72, and found them carefully prepared and regularly kept; every item of charge is supported by its proper voucher with the exception of two items not brought to account up to this date, which are as follow:—

An item of Rupees 6-5-4, being the sum overdrawn from the treasury on account of the pay of the establishment for June last.

Proceedings of the Madras Government, Financial Department,
20th September 1872.

Another item of Rupee 1, the amount of fine imposed by Sub-Magistrate under the Municipal Act on 1st July last. These were pointed out to the Superintendent to be brought now to account.

Balance on the 30th April 1871 was Rupees 2,092-2-3, receipts during the year from all sources amounted to Rupees 14,642-9-5, making a total of Rupees 16,734-11-8; expenditure amounted to Rupees 15,076-10-6, leaving a balance on the last day of March 1872 of Rupees 1,658-1-2, of which the following are the particulars, viz.:—

		Rs.	A.	P.
In Taluq Treasury		1,292	8	3
Collections in the hands of the Commissioners not remitted to Treasury on the 31st March 1872 ...		97	13	2
Advance made to private totties		186	6	0
Do.	for oil for lighting	65	0	0
Do.	Vaccinator	11	0	0
Do.	petty contractor...	4	0	0
In the hands of the Superintendent for contingent expenses		1	5	9
	Total ...	1,658	1	2

No. 138. Order thereon, 20th September 1872, No. 1257.

The marginal statement is an abstract of the receipts and expenditure of the Adoni Municipality as shown in Statements I. and II. accompanying the annual report. The President should, however, explain why the balance brought forward is only shown as Rupees 2,092-2-3, while in G. O., dated 12th January 1872, No. 50, it is entered at Rupees 2,419-7-0, and why the cost of municipal establishment is shown as Rupees 1,677-8-6 in Statement II., and as Rupees 1,927-8-6 in Statement II.-B.

The charges for Police arrears and cost of census would have appeared more correctly under Grant IV. than under Grant V., but with these exceptions the returns submitted appear to have been properly prepared, and the Auditor certifies to the general correctness of the municipal accounts. The special return called for in G. O., dated 4th May 1872, No. 627, has not been received. The President will expedite its despatch.

Receipts		
Current—		
Rates on houses		88
Tax on arts		4,160
Tax on vehicles		4,042
Registration of carts		1,679
Tolls		598
Fees		3,350
Fines		271
		144
		14,314
Arrears—		
State contribution		570
Police refund		402
Miscellaneous		56
Balance brought forward		2,092
	Total ...	16,734
Expenditure.		
Public Works—

Other items		242
Education		181
Dispensaries		450
Vaccination		177
Registration of births and deaths		119
Conservancy		2,814
Lighting		768
Miscellaneous		698
Supervision and management		1,808
Advances recoverable		306
		15,442
	Balance ...	1,292
	Total ...	16,734

2. The total receipts with the opening balance amounted to Rupees 16,734, and the expenditure to Rupees 15,442, leaving a balance on hand of Rupees 1,292. The total demand amounted to Rupees 11,150, of which Rupees 10,993 were collected, Rupees 386 remitted, and Rupees 54 written off as irrecoverable. The uncollected balance at the end of the year was thus only Rupees 17.

3. The outlay under New Works amounted to Rupees 7,550, which seems to have been judiciously expended, chiefly on roads and latrines. The expenditure on repairs was small, and, unless the item of Rupees 56-15-4 for repairing a Police Station was an arrear charge, the Government do not understand how the Municipality were called upon to undertake the work. The old pial schools have been converted into municipal institutions, and are attended by 260 children. A sum of Rupees 181 has been expended on their up-keep.

4. The dispensary was only transferred by notification after the close of the year, hence the accounts have not been incorporated with those of the Municipality. The institution afforded relief during the year to fifty in-patients and 2410 out-patients. Conservancy was thoroughly attended to, Rupees 2,814 having been expended under that head. The Government are glad to observe that, at the desire of the people themselves, the work of cleansing private latrines has been undertaken by the municipal establishment. The additional cost is said to be defrayed from private subscriptions, but, though the item "private scavenging" is shown in the accounts, no receipts appear for 1871-72. Probably the system only came into working after the close of the year.

5. Vaccination, registration of births and deaths, lighting, watering the streets, and other miscellaneous objects of the Act have not been neglected. Altogether the Government consider that the Municipality worked very satisfactorily throughout the year.

6. With reference to G. O., dated 4th May 1872, No. 627, the President reports that the Commissioners think that the benefits resulting from the Municipality are generally appreciated by the community, but are of opinion that the levy of tolls does, to a certain extent, restrict trade. In this latter point the President does not agree with the Commissioners, but he remarks that the toll "works hardly when the ryot *returning* with a load of straw for his cattle has to pay as much as a well-laden cart."

7. The Government do not see how the case can well arise, for if the ryot is a resident within municipal limits his cart would be registered and exempt from toll under Section 78, and if resident beyond the limits he is not likely to come into the town to procure straw for his cattle.

8. In any case the remedy is in the Commissioners' hands, for under Section 38 it is open to them to recommend exemption in particular cases when they deem it expedient.

Proceedings of the Madras Government, Financial Department,

20th September 1872.

No. 137. Read the following letter from the President of the Municipal Commission, Bellary, to the Chief Secretary to Government, Fort St. George, dated Bellary, 19th August 1872, No. 72:—

I have the honour to submit my report on the working of the Municipality of Adoni during 1871-72. The usual statements, the Vice-President's report in original, and the Auditor's report accompany.

2. Under the authority conveyed in paragraph 20 of the Proceedings of the Madras Government, dated 1st July 1871, Public Department, the Municipal Commissioners of Adoni elected V. Doraswamy Iyer to be their Vice-President.

3. In the same Proceedings the estimates for the year under report of receipts and charges of the above Municipality were passed with the exception of the item under "Education."

4. The Commissioners estimated the receipts of the Municipality for the year at 15,550 Rupees, but the actuals realized Rupees 16,734-11-8; the excess of Rupees 1,184-11-8 being partly attributable to the actual balance brought forward from the last official year being more than double the amount estimated, and to other small increments in some of the other items of receipts.

5. In others, such as rates on houses and tax on arts, the actuals varied greatly from the estimated receipts. In the former case the increase is said to be due partly to an incorrect estimate in calculating the receipts under that item, and partly to the increase in the number of buildings brought under taxation. In the latter the realizations were much below the estimate, arising from the tax-payers being assessed at lower rates, under Schedule B, than they would otherwise have been, in consequence of many individuals being also liable to the Imperial Income-tax. The decrease under taxes on vehicles is due to the evasion of the tax, by the latter being kept beyond municipal limits. The receipts under fines are composed chiefly of penalties for not taking out licenses and for breaches of the municipal bye-laws.

6. The total charges incurred by the Municipality amounted to Rupees 15,442-3-5 against Rupees 15,550, the budget provision.

7. The grant for Public Works amounted to Rupees 8,379, and the charges therefrom aggregated Rupees 7,985-11-6; of this latter sum Rupees 4,505-1-0 (of which Rupees 2,400 was paid as compensation) was expended on Communications, exceeding the budget allotment of Rupees 3,579 by Rupees 926-1-0; this was met from the provision under "Sanitary" and "Miscellaneous." The necessity for thus supplementing the grant arose from the want felt for a metalled road adequate to the growing importance of the town. The road is 833 yards in length, and contains three masonry tunnels.

8. From an allotment of Rupees 4,600 the sum of Rupees 3,044-13-4 has been disbursed under "Sanitary" and "Miscellaneous." This consists of a double-rowed latrine constructed for males, the old mud-walled one not being generally resorted to for want of privacy.

9. The Government, as pointed out in paragraph 3 of this report, did not sanction the allotment for educational purposes, but left the matter to be disposed of in communication with the Educational Officers of the district; accordingly the old pial schools were, as suggested by the Deputy Inspector, converted into

municipal institutions. Two hundred and sixty children attend them, and are taught Telugu and Canarese. As the transfer occurred in December, only two-thirds of the grant have been utilized.

10. The Civil Dispensary at Adoni was, by a notification published in the District Gazette dated 8th June 1872, formally transferred to that Municipality. I beg to annex a brief account of the working of the institution during the calendar year 1871.

11. The total number of patients relieved was 2410, of whom 2358 were Natives. The relief administered is to a very great extent confined to out-door patients, as none but the poorest choose to receive in-door relief. The prevalent disease was fever. There were a few cases also of small-pox, &c.

12. The receipts of the dispensary, including the previous year's balance, amount to Rupees 5,306-6-1, and the disbursements to Rupees 1,139-11-7, leaving a balance of Rupees 4,166-10-6. Of this sum Rupees 2,000 are invested in Government Securities.

13. The result system of vaccination is now pursued in the Municipality, and 544 successful cases are reported in 590 operations.

14. The conservancy of the town is carried out by a staff of sweepers employed by the Municipality. Their services are made also available for private latrines, and for this are paid from private voluntary contributions. The sweepings, &c., are buried outside of the town. A further staff of twelve sweepers with carts, &c., is maintained for sweeping the town. The total cost of the conservancy establishment, including an Inspector and three Maistries, amounts to Rupees 1,985-11-8 per annum.

15. Under Grant IV. there is a small saving owing to a less number of lights than that proposed being found necessary, the total cost being Rupees 105-14-0.

16. The cost of supervision and management, including office establishment, amounts to Rupees 1,627-8-6.

17. The statement called for by Government in their Order of 4th May last, No. 627, will be found with the other accompaniments of this report.

18. With the exception of a few of the wealthier members of the community, upon whom taxation falls somewhat heavily, the benefits resulting from a Municipality appear to be appreciated. The improvements effected by the Commissioners in the way of widening the hitherto narrow lanes, planting of avenues, &c., have given the town a much improved appearance. Much still remains to be done, which will doubtless eventually be carried out with the hearty cooperation of the Commissioners. Some measures are also on foot to preserve the drinking-water supply from contamination, and the other steps now adopted with regard to conservancy, already noticed in this report, will conduce doubtless to the health of the town.

19. The Commissioners think, though I cannot agree with them, that the levy of tolls does, to a certain extent, restrict trade, and instances are not wanting where every means are adopted for evading the impost; but it works hardly when the ryot returning with a load of straw for his cattle has to pay as much as a well-laden cart. No instances have come to light of malpractices in the collection of the impost.

Proceedings of the Madras Government, Financial Department,
20th September 1872.

20. The list of Municipal Commissioners, called for in the Acting Under Secretary's Official Memorandum, No. 207, dated 31st ultimo, is enclosed.

From V. DORASWAMY IYER, Vice-President of the Municipal Commission, Adoni, to the Acting Collector and ex-officio President of the Municipal Commission, Adoni, dated Adoni, 25th April 1872, No. 113.

I have the honour to submit my annual report of the Municipality for 1871-72.

2. The enclosed statements explain the items of receipts and disbursements for eleven months of the year.

3. The year commenced with a balance of Rupees 2,092-2-3.

4. There were no arrear taxes to be levied in the year.

5. The increase of Rupees 400 on the estimate of house-tax is partly due to incorrectness in framing the budget, and partly to the increase in the number of buildings brought under taxation. The fall of nearly a thousand Rupees under 3*b* is attributable to Commissioners being threatened with a loud outcry of the tax-payers, who were charged doubly on their income to Government and municipal accounts at a time when their commerce was much depressed, and to the consequent necessity the Commissioners were driven to to assess them on lower classes of Schedule B, Act III. of 1871.

The small decrease in 3*c* is accounted for by the cultivators keeping their live stock outside the Municipality to avoid taxation.

The receipts under 3*g* are fines solely levied on men keeping cart and animals without license and breakers of bye-laws.

Other items call for no remark, the receipts being nearly equal to the estimates.

6. Statement II.-A gives the details of expenditure on New Works. Grant I.-A in Statement II. has exceeded the estimate by about Rupees 1,000, which the Commissioners were obliged to lay out, as will be presently explained from the allotment 1*c* under this grant to construction of a chuttrum. They thought of erecting one for public accommodation in Rupees 2,000 and spending half that amount during the year. But a detailed estimate convinced them that a suitable building to accommodate all classes of travellers should cost far more than they anticipated. They, therefore, confined themselves to meeting the urgent wants of the town, viz., proper roads adequate to the growing commercial importance of the town, and they found themselves unable to complete the road they have laid without supplementing the grant. A sum of Rupees 2,400, however, out of the expenditure was paid as compensation to the owners of houses and lands taken up for the road by private agreement. A first-class metalled road of 883 yards was laid, and three masonry tunnels were constructed.

Grant 1*c*.—A masonry double-rowed latrine with twenty compartments on each side of the partition wall was constructed for the use of males with pavements of flagstone and seats, and provided with drainage masonry channels for flushing out with water. A latrine on this principle was adopted to suit the feelings of the people who had scruples to use the old mud-walled latrine for want of privacy.

7. Grant II.—Two schools were opened in different parts of the town to suit the convenience of the children attending them. These were old pial schools, and, as suggested by the Deputy Inspector of Schools, converted into municipal ones with the staff of teachers. These are attended by 260 children, who are taught Canarese and Telugu. The schools being taken over by the Municipality in December last, the disbursement has fallen short of the estimate; the Commissioners have not inspected the schools during the year, and are, therefore, unable to report on their state. I believe this forms a portion of the Deputy Inspector's duty, if the Commissioners are expected to bear their share of the cost of supervision of schools.

8. Grant III.—As directed in your docket, No. 3, dated 3rd January last, I have paid for hospital establishment for ten months, up to February last, at Rupees 45 per mensem.

Statement I.-A is left blank as the dispensary was not then made over to the Commissioners.

As directed in G. O., No. 440, dated 8th September 1871, I beg to give a brief account of the working of the institution during the calendar year 1871.

The number of European and Native out-patients receiving medical aid were fifty-two and 2358, respectively. The in-patients treated in the dispensary were fifty Natives; none but pauper patients choose to submit to in-door treatment, which accounts for the very small number. Fever was the prevailing disease of the year. The registered mortality from this cause was 290. Fifty-five deaths are recorded of small-pox, which made but temporary visitation. Diseases of the eye, ear, stomach, bowels and skin, and rheumatic affections, seemed to have appeared more or less among the town population. The Municipal Vaccinator, paid latterly on result system, vaccinated during the official year 590 cases, whereof 544 were declared successful.

The receipts of the dispensary, including the previous year's balance, are Rupees 5,306-6-1. Payments are Rupees 1,139-11-7, which leave a balance on the 31st December of Rupees 4,166-10-6; Rupees 2,000 of which are invested in Government paper, the remainder is lodged in the Government Savings' Bank, as would appear from the enclosed detailed statement of finance furnished to you by the Hospital Assistant.

MAJOR HEAD 4.—Among the works conducing to public health may be mentioned the employment, by Commissioners, of a number of toties to clean daily all the private latrines attached to houses. The pay of these men are disbursed from collection of a voluntary rate on the privies varying from 4 Annas to 2 Annas per mensem. The Commissioners lend, at their own cost, a cart to carry the contents of these latrines for burial at the appointed places, while those of the public latrines are removed by separate staff of toties and cart. A further staff of twelve sweepers, carts, and buffaloes are employed to daily clean the streets and remove the sweepings outside the town. The Commissioners undertook the management of private privies on the earnest representation of the inhabitants of their inability to command the services of private toties except on exorbitant wages, and the unsatisfactory results attendant even on submitting to their whimsical demands. By the Commissioners' interference beneficial results have arisen. The toties were made to deposit a month's pay to ensure punctual performance of their work. The fear of forfeiting the deposits works with immense satisfaction to the tax-payers concerned.

GRANT IV.—There is a saving in the estimate for lighting. This is on account of the number of lights kept up being less than were proposed at the time of framing the estimate.

Sub.—Three hundred Casuarina trees were planted along the roadsides, which, together with the plantations of the past year, are in excellent condition.

9. Under the head "Advances Recoverable" is included the advance of Rupees 186-6-0 made to private toties, noticed in paragraph 8, major head 4, pending collection of the privy rates, in which Municipal bill collectors are employed.

10. The accounts of the year have been audited by Dresser Jeeyaraswamy, whose certificate I beg to enclose. The unaccounted items pointed out by him have since been duly brought to account.

11. I beg to bring to your notice that the Commissioners were zealous in their cooperation with me. The exertions of Holmchund Laull in particular and of Seeniah were most marked in aiding me to carry out the works of improvement in general.

From the Auditor of the Municipal Accounts, Adoni, to the Vice-President of the Municipal Commission, Adoni, dated Adoni, 19th April 1872.

With reference to the docket, No. 37, dated 27th ultimo, from the President of the Municipal Commission, Adoni, to your address, appointing me as an Auditor of accounts of your Commission for the year 1871-72, I have the honour to inform you that I have gone carefully through all the accounts for the year, viz., 1871-72, and found them carefully prepared and regularly kept; every item of charge is supported by its proper voucher with the exception of two items not brought to account up to this date, which are as follow:—

An item of Rupees 5-5-4, being the sum overdrawn from the treasury on account of the pay of the establishment for June last.

Proceedings of the Madras Government, Financial Department,
20th September 1872.

Another item of Rupee 1, the amount of fine imposed by Sub-Magistrate under the Municipal Act on 1st July last. These were pointed out to the Superintendent to be brought now to account.

Balance on the 30th April 1871 was Rupees 2,092-2-3, receipts during the year from all sources amounted to Rupees 14,642-9-5, making a total of Rupees 16,734-11-1; expenditure amounted to Rupees 15,076-10-6, leaving a balance on the last day of March 1872 of Rupees 1,658-1-2, of which the following are the particulars, viz.:—

	Rs.	A.	P.
In Taluq Treasury	1,292	8	3
Collections in the hands of the Commissioners not remitted to Treasury on the 31st March 1872 ...	97	13	2
Advance made to private toties	186	6	0
Do. for oil for lighting	65	0	0
Do. Vaccinator	11	0	0
Do. petty contractor...	4	0	0
In the hands of the Superintendent for contingent expenses	1	5	9
Total ...	1,658	1	2

No. 138. ORDER THEREON, 20th September 1872, No. 1257.

The marginal statement is an abstract of the receipts and expenditure of the Adoni Municipality as shown in Statements I. and II. accompanying the annual report. The President should, however, explain why the balance brought forward is only shown as Rupees 2,092-2-3, while in G. O., dated 12th January 1872, No. 50, it is entered at Rupees 2,419-7-0, and why the cost of municipal establishment is shown as Rupees 1,677-8-6 in Statement II., and as Rupees 1,627-8-6 in Statement II.-B. The charges for Police arrears and cost of census would have appeared more correctly under Grant IV. than under Grant V., but with these exceptions the returns submitted appear to have been properly prepared, and the Auditor certifies to the general correctness of the municipal accounts. The special return called for in G. O., dated 4th May 1872, No. 627, has not been received. The President will expedite its despatch.

RECEIPTS.	Rs.
Current—	
Rates on houses	4,100
Tax on arts	4,042
Tax on vehicles	1,679
Registration of carts	528
Tolls	3,860
Fees	271
Fines	144
	14,614

State contribution	570
Police refund	402
Miscellaneous	56
Balance brought forward	2,092
Total ...	16,734
EXPENDITURE.	
Public Works—	
New Works	7,550
Repairs	194
Other items	242
Education	181
Dispensaries	450
Vaccination	171
Registration of births and deaths	110
Conservancy	2,844
Lighting	768
Miscellaneous	603
Supervision and management	1,893
Advances recoverable	386
	15,442
Balance ...	1,292
Total ...	16,734

3. The outlay under New Works amounted to Rupees 7,550, which seems to have been judiciously expended, chiefly on roads and latrines. The expenditure on repairs was small, and, unless the item of Rupees 56-15-4 for repairing a Police Station was an arrear charge, the Government do not unnerstand how the Municipality were called upon to undertake the work. The old pial schools have been converted into municipal institutions, and are attended by 260 children. A sum of Rupees 181 has been expended on their up-keep.

4. The dispensary was only transferred by notification after the close of the year, hence the accounts have not been incorporated with those of the Municipality. The institution afforded relief during the year to fifty in-patients and 2410 out-patients. Conservancy was thoroughly attended to, Rupees 2,844 having been expended under that head. The Government are glad to observe that, at the desire of the people themselves, the work of cleansing private latrines has been undertaken by the municipal establishment. The additional cost is said to be defrayed from private subscriptions, but, though the item "private scavenging" is shown in the accounts, no receipts appear for 1871-72. Probably the system only came into working after the close of the year.

5. Vaccination, registration of births and deaths, lighting, watering the streets, and other miscellaneous objects of the Act have not been neglected. Altogether the Government consider that the Municipality worked very satisfactorily throughout the year.

6. With reference to G. O., dated 4th May 1872, No. 627, the President reports that the Commissioners think that the benefits resulting from the Municipality are generally appreciated by the community, but are of opinion that the levy of tolls does, to a certain extent, restrict trade. In this latter point the President does not agree with the Commissioners, but he remarks that the toll "works hardly when the ryot *returning* with a load of straw for his cattle has to pay as much as a well-laden cart."

7. The Government do not see how the case can well arise, for if the ryot is a resident within municipal limits his cart would be registered and exempt from toll under Section 78, and if resident beyond the limits he is not likely to come into the town to procure straw for his cattle.

8. In any case the remedy is in the Commissioners' hands, for under Section 38 it is open to them to recommend exemption in particular cases when they deem it expedient.

Reviewing the report on the working of the Adoni
Municipality for 1871-72.

No 72

BELLARY COLLECTOR'S OFFICE
Dated 19th August 1872

From

THE COLLECTOR and President
&c. &c. BELLARY.

To

The Chief Secretary to Government
C. Chirakal

Sir

I have the honor to submit my report on the working of the Municipality of Adoni during 1871-72. The usual statements, the Vice President's report & my opinion thereon are annexed.

2. Under the authority conveyed in para 20 of the Proceedings of the Madras Government, Public Department, dated 7th July 1871, the Municipal Commissioners of Adoni elected V. Doraswamy Iyer to be their Vice President.

3. On the same Proceedings the estimates for the year under report of receipts and charges of the Municipality were passed with the exception of the item under "Education".

4 The Commissioners estimated the receipts of the Municipality for the year at 15550 Rupees but the actuals realized Rupees 16334-11-8. The excess of Rupees 1784-11-8 being mostly attributable to the particular

returns balances brought forward from the last
official year being more than double the amounts
estimated, and to other small increments in some
of the other items of receipts.

5. In others, such as Rates on houses, and Tax
on carts, the returns varied greatly from the estimated
receipts. In the former case the increase is said
to be due partly to an incorrect Estimate in cal-
culating the receipts under that item, and partly
to the increase in the number of buildings brought
under taxation. In the latter, the realizations
were much below the estimate, arising from the
tax payers being assessed at lower rates under
Schedule B, than they would otherwise have
been, in consequence of many individuals being
also liable to the Imperial Income tax. The
clearance under taxes on vehicles is due to the
evasion of the tax, by the latter being kept beyond
Municipal limits. The receipts under fines are
confined chiefly of penalties for not taking out
licenses and for breaches of the Municipal en-
actments.

6. The total Charges incurred by the Munici-
pality amounted to Rupees 15,444-3-5 against
Rupees 15,550 the Budget provision.

7. The grants for Public works amounted
to Rupees 8379, and the charges therefrom aggregated
Rupees 7985-11-6; of this latter sum Rupees 4505-4-

(of which Rupees 2400 was paid as compensation) was sup-
-plied on Communications preceding the Budget allot-
-ment of Rupees 3579 by Rupees 926-1-6 this amount
from the provisions under "Sanitary and Miscellaneous".
The necessity for these supplementing the grants arose
from the want felt for a metalled road adequate
to the growing importance of the town. The road
is 833 yards in length & contains 3 masonry tunnels.

8. From an allotment of Rupees 4,000 the sum
of Rupees 3044-13-4 has been disbursed under
"Sanitary" and "miscellaneous". This consists of a
double roomed latrine constructed for males,
the old mud-walled one not being generally
resorted to for want of privacy.

9. The Government as granted out in para 3 of
this report did not sanction the allotments for
Educational purposes, but left the matter to
be disposed of in communication with the
Educational officers of the District; accordingly
the old pinto schools were, as suggested by the
Deputy Inspector, converted into Municipal
institutions 260 children attend them. Vernac-
ular Telugu and Canarese. As the transfer
occurred in December, only $\frac{2}{3}$ds of the grants
have been utilized.

10. The Civil Dispensary at Adoni, was,
by a notification published in the District
Gazette dated 8th June 1872, formally transferred

to that Municipality. I beg to annex a brief account of the working of the Institution during the Calendar year 1871.

11. The total No. of patients relieved was 2410, of whom 2358 were natives. The relief administered is to a very great extent confined to out-door patients: as none but the poorest choose to receive in-door relief. The prevalent disease was Fever. There were a few cases of Small pox.

12. The receipts of the dispensary including the previous years balance amounted to Rs. 5306.6.1 and the disbursements to 1139.11.7 leaving a balance of 4166.10.6. Of this sum Rs. 2000 are invested in Government Securities.

13. The result system of Vaccination is more pursued in the Municipality, and 544 successful cases are reported in 590 operations.

14. The Conservancy of the Town is carried out by a staff of sweepers Employed by the Municipality. Their services are made also available for private Customers, and for this are paid from private voluntary contributions. The sweepings are buried outside of the town. A further staff of 12 sweepers with Carts &c is maintained for sweeping the Town. The total Cost of the Conservancy Establishment including cart hire &c and 3 Road tracts

Amounts to Rupees 1955.12.8 per Annum.

15. Under Grant IV there is a small saving owing to a less number of lights than that proposed being found necessary. The total Cost being Rupees 105.14.0.

16. The Cost of Superintendance & management including office Establishment amounts to Rupees 1627.8.6.

17. The Statements called for by Government in their Order of 2d May last to No 627 will be found with the other accompaniments of this report.

18. With the Exception of a few of the wealthier members of the Community upon whom a taxation falls somewhat heavily, the benefits resulting from a Municipality appear to be appreciated. The improvements effected by the Commissioners in the way of widening the hitherto narrow lanes, planting of avenues &c have given the town a much improved appearance. Much still remains to be done which will doubtless eventually be carried out with the hearty Co-operation of the Commissioners. Some measures are also on foot to preserve the drinking water supply from contamination, and the other steps now adopted with regard to Conservancy already noticed in this report will conduce doubtless to the health of the town.

19. The Commissioners thank, through the Commis-

agree with them that the bay of Colla does to a certain extent restrict trade and our boats are not wanting when every means are adopted for evading the imposts but it works hardly when the poor returning with a load of straw for his cattle has to pay as much as a well laden Cart. Instances have come to my knowledge of the confiscation of the imposts.

20. The duties of Municipal Commissioners called for in the Acting Colonial Secretary's Office Memorandum No. 207 dated 31st October is enclosed.

I have the honor to be,

Sir,

Your most Obedient Servant,

J. Doraisamy Iyer
Vice President Municipal Commission
Adoni

Sir,

With reference to the Enclosed 37 Rolls 27 Collectors from the President of the Municipal Commission Adoni & your address appointing me to examine & account for your Commission for the year 1871-72, I have the honour to inform you that I have gone carefully through all the accounts for the year 1871-72 and found them carefully prepared & agreeable to Regulations, suggestions & charge to enclosed & the proper vouchers with the exception of two items which are to be supplied to account up to date which are as follows.

One item of Rupees 5-5-6 being the sum over drawn from the Treasury on account of the pay of Establishment for June last.

And another item of Rupees 1-- -- the amount of fine imposed by the Magistrate under the Municipal Act in 1st July last. These were found out by the Superintendent who brought same to account.

Balance on the 30th April 1871 was Rupees 2892-2-3
Receipt during the year from all sources amounted to Rs 14642-9-5 making a total of Rupees 16734-11-8
Expenditure amounted to Rupees 15076-10-6 leaving a balance on the last day of March 1872 Rupees 1658-1-2 of which the following are the particulars

Annual Audit for 1891-92

No 113 of 1872.

Municipal office
Colombo 25th April 1872.

Sir,

I Coomaraswamy Esqr
Vice President Colombo Municipal Commission
Colombo

Sir,

I Hon. Mr. Moncton Esquire
Acting Collector Vice Officio President
Colombo Municipal Commission
Bellon

Sir,

I have the honor to herewith my annual
Report of the Municipality for 1871-72.

2d. The enclosed Calculation explains the Excess of Receipts
& Disbursements for 11 months of the year.

3d. The year Commences with a balance of Rs 20,000 — 0 —

4th. There exists no arrears later than those of the year.

5. The increase of Rs 400 on the Estimate of house Rate is
partly due to increased Rates in framing the Budget for
partly to the increase in the number of buildings brought
under Taxation. The fall of nearly a thousand rupees
under 3 b is attributable to Commissioners being Chargeable
with a share only of the Taxpayers who receive Charges
Monthly on their income to Government & Municipality and accounts
at a time when their Commerce was much depressed
and to the Principal necessity the Commissioners were driven
to assess them on Census of Schedule B Act 11 of
1871.

The small decrease in 3c is accounted by the Collectors
keeping their list Cache outside the Municipality
& area of Taxation.

Rate Abstract showing Amount
Accounts for 1871-72.

19/4/72

The Receipts under 3.g. are fines solely levied on men keeping Cart and Animals without licences & breakers of bye laws.

Other items call for no remark the Receipts having nearly equal to the estimate

6. Statement II A gives the details of expenditure on new works. Grant I A in Statement II has exceeded the Estimate by about Rs 1000 which the Commissioners were obliged to lay out as will be presently explained from the allotment I C under this grant is Construction of a Shelter-shed. They thought a meeting was for public accommodation in Rs 2000. and spending only that amount during the year. But a detailed estimate submitted that a suitable building to accomodate all classes of travellers should cost far more than they anticipated. They therefore confined themselves to meeting the urgent wants of the town viz; proper road to the ghat & the growing commercial importance of the town & they found sufficient to complete the road they have but without supplementary grant - A sum of Rs 2609 - - - was received out of the Ferry-shelter was paid as Compensation to the owners of houses & lands taken up for the Road by private agreement - A first Class metalled Road of 883 yards was laid and 3 masonry bunnels were Constructed.

Grant I C - A masonry double roomed Cutcherie with 20 Compartments on each side of the partition wall was Constructed for the use of Mahajans with pavements of flag stone & lead - and provided with drainage masonry Channels for flowing out water - A Cutcherie on this principle was adopted & such the feelings of the people who had scruples to use the old & mud walled Cutcherie for want of privacy.

7. Grant II. Two schools were opened in different parts of the town & with the Convenience of the Children attending them - Those were old pial school and as

are supplied by the Deputy Inspector of Schools Cuttack Municipal one with the Staff of teachers. There are attended by 260 Children who are taught Bengalee & Telugu. The schools having been open by the Municipality in December last, the disbursement has fallen short of the Estimate. The Commissioners have not suspected the schools during the year were therefore unable to Report on their state & decline this forms a portion of the Deficit by Inspector Cuttack, if the Commissioners are expected bear their share of the Cost of superintendence of schools

8. Grant III. As directed in your Letter dated 3 dated 3d January last, Rs 100 was paid for hospital Establishment for 10 months up to February last at Rs 10 per measem.

Statement I B is left blank as the Dispensary was not then made over to the Commissioners.

As directed in Government Order No 1210 dated 8th September 1871 I beg to give a brief account of the working of the Institution during the Calendar year 1871

The number of European & native out patients receiving medical aid were 52 and 2358 respectively. The out patients treated in the Dispensary were 50 by reason of the few patients there was little treatment which accounts for the very small number. Fevers were the prevailing disease of the year. 6 Deaths from cholera were 290 - 55 Deaths are recorded of small pox. Which made both temporary cessation. Diseases of the Eye, Ear, Stomach bowels & skin, and Rheumatic affections were those appear more or less among the town population. The Municipal Vaccinator paid Calcutta on Results system. Vaccinated during the official year 890 Cases Thereof - 5 did were declared Unsuccessful.

The Receipts of the Dispensary including the previous years balance are Rs 5306 - 6 - 1. Payments are Rs 1139 - 11 - 7 which leaves a balance on the 31st

December

December 31st Rs 4166 — 10 — 6. Rs 2000 of which are invested in Government paper, the remainder is lodged in the Government Savings bank as would appear from the enclosed detailed statement of finances specially drawn by the Hospital assistant.

Major head 6. Among the works conducing to public health may be mentioned the employment by Commissioners of a number of coolies to clean daily all the private latrines attached thereto. The pay of these men are deducted from Collection of a voluntary rate on the premises varying from 4 annas to 2 annas per measem. The Commissioners lend at their own cost a cart to carry the contents of these latrines for burial at the appointed places where those of the public latrines are removed by separate staff of coolies & Cart. A further staff of 12 sweepers, carts & staff also are employed to daily

The Commissioners undertook the management of private privies on earnest representation of the inhabitants of their inability to command the services of private coolies except on exorbitant wages and the unsatisfactory results attended recent years on submitting their official demands. By Commissioners intervention, beneficial results have arisen. The cooles were made to deposit a months pay to ensure punctual performance of their work. The fear of forfeiting the deposit works well with immense satisfaction to the tax payers concerned.

Grant IV. There is a saving in the Estimate for lighting. This is on account of number of lights kept up being less than were proposed at the time of framing the Estimate

5. a. b — 300 Casuarina trees were planted along the road sides which together with the [illegible]

of past year are in excellent Condition.

9. Under the head "Advances recoverable" is included the advances of Rs 186—6—0 made to private Police, noticed in para 8 Major head 6, pending Collection of Poll tax, in which Municipal bill Collectors are employed.

10. The Accounts of the year have been audited by Dresser Jeejeebhoy whose certificate I beg to enclose. The unaccounted items pointed by him have since been duly brought to account.

11. I beg to bring to your notice that the Commissioners were zealous in their Co-operation with me. The exertions of Subedars Lall in particular and of Seenaik were most marked in aiding me to carry out the works of improvement in general.

Rs	16,734

Expenditure

The financial statement is an abstract of the receipts and Expenditure of the Municipality as shown in Statements I and II accompanying the Annual report. The President should, however, explain why the balance brought forward is only shown as Rs 2092-2-3 while per P D dated 12th January 1872 No. 50, it is entered at Rs 2,219-7-8, and why the cash

1. Municipal Establishment is shown as Rs 1677-8-6 in Statement II, and as Rs 1627-8-6 in Statement E. II B. The charges for Police Arrears and cost of Census would have appeared more correctly under Head III than under Head V, but with these exceptions the returns submitted appear to have been properly prepared, and the Auditor certifies to the general correctness of the Municipal Accounts. The Special return called for in C.O. dated 4th May 1872, No 327, has not been received. The President will separate the Establishments.

2. The total receipts with the opening balance amounted to

Expenditure Rs

Public Works —

New works — 7,550
Repairs — 193
Water Works — 242
Establishment — 105
Conservancy — 450
Vaccination — 171
Repairs of Butts & Gates — 110
Conservancy — 2,804
Lighting — 768
Miscellaneous — 668
Superintendence & Management — 1898
Advances recovered — 366

15,462
Balance — 1292
Rs 16,754

to Rs 16,754 and the expenditure to Rs 15,462 leaving a balance in hand of Rs 1292. The

~~Taxes~~ Rates Assessed

Rs 450 of which Rs 10 98 were collected, Rs 306 remitted, and Rs 54 written off as irrecoverable. The uncollected balance at the end of the year was Rs 97.

3. The outlay under New Works amounted to Rs 7550 to which sums have been sanctioned by Government on loan and Collection. The expenditure on Repairs to Canals, Roads and Bridges Rs 193 of Rs 37-5-10 for which

a fallen state was ac-
cepted charges the first Do
not understand how the
Municipality were called
upon to undertake the work.
The old Girls School have
been converted into Municipal
Offices and are
attended by 260 children.
A sum of Rs. has been
expended on their repairs.
4. The Necessary Land
only transferred by Collector
Collector after the close of the
year, hence the Accounts
have not been incorporated
with those of the Municipal
Society. The Collections
effected after the
year to be re-credited

Rs 2610 and Salaries &c.
Conservancy was managed by
Committee but Rs 2864 have
been expended under that
head. The Sweepers are paid by
Monthly Wages at the Rate
of Rs 4 per Mensem
The work of cleansing pri-
vate latrines has been un-
dertaken by the Municipality
Municipality. The additional
cash is said to be defrayed
from private subscriptions
though the item "Private
Conservancy" is shown in
the Accounts, no receipts
appear for 1871-72. Expenses
The expenses really came to
something after the close
of the year
Municipality

5th Vaccination. Registration of births and deaths, Lighting, watering the streets, and other Miscellaneous Duties of the Local Boards have been neglected. Altogether the Inspector considers that the Municipality Authorities have worked very laboriously throughout the year.

6. Table referred to in C.O. Circular Letter of 4th May 1892, is for the Inspectors respecting the Vaccination Returns of the Districts under their supervision, and not the Returns furnished by the Local Authorities themselves. The Inspectors are personally responsible for the correctness of these Returns.

Inspr Genl Under Medl Depty.
Sanitary Commissioner.
Director of Public Instruction.
Accountant General.
President of the Local Fund Bellary.
Board of Health.

to a certain extent, retail trade. In this latter respect the President does not agree with the Commissioners.

Remarks that the Local Boards have not yet determined the limits of their municipal limits for the purposes of the Act. Much as a Bill. Under sec. 38. of the Act the Local Boards have to determine the limits, but it is not binding on them to enter into the question of the limits of their municipalities. Under sec. 38. it is open to them to recommend extensions in particular cases when they deem it expedient. J.B.
