Not to be folded or roughly handled

No. 117. Read the following letter from the President of the Municipal Commissions, Bellary, to the Chief Secretary to Government, Fort St. George, dated Hospett, 27th September 1872, No. 87 :—

I have the honour, at the request of the Commissioners of the Bellary Municipality, to request the sanction of Government to the bye-laws as per margin.

1. "No person shall be permitted to plant prickly-pear within the municipal limits as a hedge or for any other purpose; and the Commissioners shall have power to remove hedges of this description."
2. "No person, being the parent or person in charge of, or in any way responsible for, any child under seven years of age, shall allow negligently or otherwise the said child to wander alone or with other children about any street, or public place, or thoroughfare, close to any vehicles that may be in or upon such public place or thoroughfare."

2. The object of the first is to restrain, if possible, the future growth of prickly-pear.

That of the second is to fix the responsibility upon parents of children who are allowed to wander about the streets unguarded, and who frequently sustain injuries from passing vehicles and animals.

3. At the request of the Commissioners of the Municipality of Adoni the bye-laws, as per margin, are submitted for sanction.

1. "The parents or guardian of every child refusing to allow it to be vaccinated after one week's notice and without sufficient excuse, as well as every adult so refusing to be vaccinated without good cause, shall be liable to a fine of 10 Rupees."
2. "The parent or guardian of every child which commits a nuisance on a public thoroughfare shall be liable to a penalty not exceeding 5 Rupees for each offence."

4. With regard to the first, the Commissioners state that it will be impossible to carry out Dr. Cornish's suggestion that infants should be vaccinated within a year after their birth, if there be not a bye-law making it obligatory on the parents to comply with the requisition; numerous complaints also of stubborn refusal on the part of even adults to submit to the operation have been received. To effect any real good vaccination must, they think, be enforced under a penal law.

With regard to the second, the Commissioners observe that, unless people who allow their children to dirty the lanes and streets are brought under the scope of a bye-law, it will be impossible to maintain proper conservancy.

No. 118. ORDER THEREON, 10th October 1872, No. 1382.

The Governor in Council approves, with a slight modification as noted in the margin, the bye-law proposed for the Bellary Municipality regarding the planting of prickly-pear; and directs that it be published in the *Bellary Gazette* for one month.

"No person shall be permitted to plant prickly-pear within the municipal limits as a hedge or for any other purpose, and the Commissioners shall have power to direct the removal of any prickly-pear planted in contravention of this bye-law, and to recover the costs from the person by whom or by whose orders it was planted.

2. The proposed bye-law regarding vaccination of children is inadmissible. The Government would recommend the adoption of the system in force in the Madras Municipality of making small payments to those offering themselves for vaccination.

Proceedings of the Madras Government, Financial Department,
10th October 1872.

3. The other bye-laws submitted appear to have been framed without adequate consideration. The provisions of the Towns' Improvement Act are ample for the suppression of nuisances of the kind referred to in the second of the bye-laws proposed for Adoni; and the Government are not satisfied that municipal interference is called for with reference to the straying of children on public roads.

From

The President Municipal Commr.
THE COLLECTOR OF
BELLARY.

To

The Chief Secretary to Government
Madras

Sir

I have the honor at the request of the Commissioners of the Bellary Municipality to request the sanction of Government to the bye laws as per margin.

1 "No person shall be permitted to plant Prickly pear within the Municipal limits as a hedge or for any other purpose: and the Commissioners shall have power to remove hedges of this discription"

2. "No person being the parent or person in charge of, or in anyway responsible for any child under seven years of age shall allow negligently or otherwise the said child to wander alone or with other children, about any street or public place or thoroughfare, close to any vehicle that may be in or upon such public place or thoroughfare".

2. The object of the first is to restrain if possible, the future growth of prickly pear.

That of the second is to fix the responsibility upon parents of children, who are allowed to wander about the streets unguarded, and who frequently sustain injuries from passing vehicles and animals.

3. At the request of the Commissioners of the Municipality of Adoni, the Bye Laws

1" The parents or guardians of every child refusing to allow it to be vaccinated after one week's notice and without sufficient expense as well as every adult so refusing to be vaccinated without good cause shall be liable to a fine of ten Rupees".-

2" The parent or guardian of every child which commits a nuisance on a public thoroughfare shall be liable to a penalty not exceeding five Rupees for each offence".-

Suggestion that infants vaccinated within a year after their birth, if these be not a bye-law making it obligatory on the parents to comply with the requisitions; numerous complaints also of stubborn resistance on the part of even adults to submit to the operation have been received. To effect any real good, vaccination must, they think, be enforced under a penal law.-

With regard to the second, the Commissioners observe that unless people, who allow their children to dirty the lanes & streets, are brought under the scope of a bye-law, it will be impossible to maintain proper Conservancy.-

I have the honor to be,
Sir,
Your Most Obedt Humble Servant,
W. Master
Actg Chairman & Chief Officer

as per margin are submitted for sanction.-

4. With regard to the first, the Commissioners state that it will be impossible to carry out Dr. Carmichael's suggestion that infants should be vaccinated within a year after their birth, if these be not a bye-law making it obligatory on the parents to comply with the requisitions; numerous complaints also of stubborn resistance on the part of even adults to submit to the operation have been received. To effect any real good, vaccination must, they think, be enforced under a penal law.-

With regard to the second, the Commissioners observe that unless people, who allow their children to dirty the lanes & streets, are brought under the scope of a bye-law, it will be impossible to maintain proper Conservancy.-
