Proceedings of the Madras Government, Financial Department,
11th October 1872.

Read the following papers :—

No. 153. From the Master Attendant, Madras, to the Chief Secretary to Government, Fort St. George, dated Madras, 26th September 1872, No. 5308.

Administrative Department.

I have the honour to bring the following items in connexion with the Marine Budget for 1873-74 (which is now in course of preparation) before the Government for consideration and early orders thereon.

2. G. O., No. 209, of date 21st August last, in the Marine Department, communicated to me the Proceedings of Government, Public Works Department, No. 1915, of date 12th idem, sanctioning the construction of a floating light vessel for Cocanada, and directing me to make provision for the same in the Marine Budget for 1873-74.

3. This I have accordingly done with the following result:—

	RS.
Estimated Port Fund receipts for the year 1873-74...	1,60,000
Estimated expenditure on establishment and contingencies, including a sum of 45,775 Rupees for a floating light vessel, apparatus, and establishment, debitable to the Port Fund	1,55,806
Balance available for Public Works Port Fund Budget.	4,194

It is apparent by this statement that this sum is totally inadequate to meet the wants of the several outports, and I would, therefore, suggest that the cost of so expensive a work as the light vessel be met in equal proportions from the General Port Fund and Imperial Revenues. If, however, the Government decide otherwise, then I shall be obliged to abstain from making any provision in the Budget for works of improvement at Cocanada, Cochin, Mangalore, and Negapatam.

4. I would take this opportunity of remarking that the Superintending Engineer, 7th Division, has set down in his estimate, forwarded through the Collector of Malabar, no less a sum than 2,00,000 Rupees for Cochin Harbour improvements, groynes, &c. This sum, of course, it will be utterly impracticable to provide for in the Marine Budget; but I would respectfully state that, in my opinion, works of this nature, being protective works for the town of Cochin, are from their nature debitable to Imperial Revenues. The Government have already, in G. O., No. 60, dated 21st March 1872, Marine Department, pronounced a similar opinion on the Tranquebar groynes, which were directed to be executed from the Public Works Department Budget.

No. 154. From the Master Attendant, Madras, to the Chief Secretary to Government, Fort St. George, dated Madras, 30th September 1872, No. 5387.

Administrative Department.

I have the honour to forward the undermentioned Budget statements for the Official year 1873-74 :—

Estimate of Receipts.
Do. of Disbursements.

2. The estimates of Local Funds receipts and disbursements and of charges light-houses are held in abeyance pending the orders of Government on this ce letter No. 5308, of 26th instant.

No. 155. ORDER THEREON, 11th October 1872, No. 1402.

The Governor in Council concurs in the opinion that the Cochin Harbour orks must be viewed as an Imperial undertaking and that the necessary provision or the expenditure must be made in the Public Works Budget. The Master ttendant will with this view forward to Government the estimate which he has eceived.

2. The Governor in Council is also of opinion that the first charge for the ight vessel and apparatus to be stationed off **Cocanada** should not be debited against Port Funds. The Master Attendant will, therefore, include the amount in the Marine Imperial Budget, which will be returned for revision.

To

The Honourable R. S. Ellis &c &c
Chief Secretary to Government
Marine Department
Fort Saint George

Sir

I have the honour to bring the following items in connection with the Marine Budget for 1873/74 (which is now in course of preparation) before the Government for consideration and early orders thereon:

2 G. O. No 209 of date 21st August last, in the Marine Department, communicated to me the Proceedings of Government,

Public

Public Works Department, No. 1915, of date 12th idem, sanctioning the construction of a floating light vessel for Coconada, and directing me to make provision for the same in the Marine Budget for 1873/74.

3 This I have accordingly done with the following result.

Estimated Port Fund Receipts for the year 1873/74. ——— Rupees 1,60,000

Estimated expenditure on Establishment and Contingencies, including a sum of 45775 Rupees for a floating Light vessel, apparatus, and establishment, debitable to the Port Fund. ——— " ——— 155806

Balance available for Public Works Port Fund Budget ——— " ——— 4194.

It is apparent by this statement that this sum is totally inadequate to meet the wants of the several out-ports, and I would therefore suggest that the cost of so expensive a work as the Light Vessel be met in equal proportions from the General Port Fund and Imperial Revenues. If, however, the Government decide otherwise, then I shall be obliged to abstain from making any provision in the Budget for works of improvement at Coconada, Cochin, Mangalore and Negapatam

4 I would take this opportunity of remarking that the Superintending Engineer, 7th Division, has set down in his Estimate, forwarded through the Collector of Malabar, no less a sum than 2,00,000 Rupees for Cochin

Cochin Harbour improvements
groynes &c.a. This sum of course it
will be utterly impracticable to
provide for in the Marine Budget;
but I would respectfully state
that in my opinion works of this
nature, being protective works for
the town of Cochin, are from their
nature debitable to Imperial
Revenues. The Government have
already in G. O. No. 60, dated 21st
March 1872, Marine Department,
pronounced a similar opinion on
the Tranquebar Groynes, which
were directed to be executed from
the Public Works Department
Budget.

No. 5308
Re Cochin Harbour

Sir

I have the honor to state that by including the cost of a light vessel for Coromandel and the Budget may be little remain of the Port Fund receipts to provide for ordinary Works in the P. W. Budget and recommends that the charge should be borne in equal proportions by Port Funds & General Revenue. I append also that the cost of engineer to Cochin Harbour be made debitable to imperial Revenues.

I &c

in Council is also of opinion that the first charge for the Light Vessel and appurtenances be defrayed out of Port Dues and the debt incurred against Port Funds. The Master Attendant with the Treasurer include the amount in the Marine Imperial Budget which with the returned forms
