No. 269. Read the following letter from the President of the Municipal Commission, Salem, to the Chief Secretary to Government, Fort St. George, dated Salem, 18th October 1872, No. 119:—

I have the honour to request that Government will be pleased to accord their sanction to a slight alteration in the southern boundary limits of this Municipality.

2. The proposed limit in the south will be "from the Cuddalore Toll Gate to a pillar south of the slaughter ground at Kitchipolium, thence to Arnachellum's Choultry on the Trichinopoly road, thence along and including the Trichinopoly road, and that branching from it westward, as far as its intersection with the road connecting Shevapett with the main Trichinopoly road, and thence, including the village of Annadannaputty, in a straight line to Bench Mark, No. $29\frac{6}{11}$, on the southern bank of the river."

3. I have also to request that for the word "bridge" in the first line of the western boundary the word Bench Mark, No. $29\frac{6}{11}$, may be substituted.

4. The object the Commissioners have in view in proposing the first alteration is to exclude from the limits a few acres of cultivated land projecting at a very acute angle beyond the general direction of the municipal boundary, and which would never have been included had a proper plan of the town, such as the Commissioners have since had made, been in existence at the time the original southern boundary was determined.

No. 270. ORDER THEREON, 28th October 1872, No. 1473.

The Government sanction the proposed modification of the boundaries of the Salem Municipality. The following Notification will be published in the *Fort St. George Gazette*:—
