The old Colporteur system having cost too much has been abolished, and it is necessary to re-place it by a system which will enable the Local Fund Boards readily to supply with books the numerous Elementary Schools which are now being established throughout the country as well as those which under the result grant system will be under the inspection of Local Fund Inspecting School-masters.

2. Hitherto it has been considered sufficient to have a single depôt for books required in schools of all classes in each district. Now the Board think it will be necessary to have a Local Fund Depôt for elementary books in each taluq. In South Canara, it is proposed to have one at each Union School, but though this is feasible now it will be impossible when the number of Unions is increased as it probably will be soon.

3. The Tahsildars will make arrangements for the custody of the books and compliance with indents. The proposal of the Masulipatam Local Fund Board that the Shroff who is always on the spot should be placed in immediate charge of the books deserves consideration. The Deputy Inspector should prepare annually or half-yearly and submit for the sanction of the Local Fund Board of each circle indents for sufficient books to meet the estimated requirements of Union and Result Grant Schools, and the cost, when paid to the Local District Curator of the Book Depôt, should be debited as a final charge against the General Fund. The books will be distributed to the several taluq depôts under the advice of the Deputy Inspectors with reference to the stock in hand and requirements at each. Accounts of receipts and issues should be kept at each taluq depôt, and checked by the Deputy Inspectors on tour, and all sale proceeds should be credited to the General Fund. Union School-masters should indent on the taluq depôt through the Deputy Inspector; and it will be easy to arrange for the despatch of the books to the Union, either when the pay is drawn monthly or by Village Vetties. Sums realized by the sale of the books must be remitted to the taluq in the same way. As books not elementary are not to be supplied on Local Fund indents (*vide* Curator's Circular, 30th March 1872) special applications must be made to the Local Fund Board, and the books will have to be obtained from the district depôt of the book depôt on payment of the full value.

4. The expenditure reported in Sydapet, viz., Rupees 457-7-9 and in Chingleput Rupees 40-4-6, is sanctioned out of the General Fund. In all Circles

the Presidents are at liberty to expend such sums as may be necessary this year on books, slates, etc., reporting the amount to the Board.

5. The next question is how the books stored in the Taluq Cutcherries are to be supplied to the Results Grants Schools. It is not possible to dispense altogether with so good an agency for circulating books as is afforded by Inspecting School-masters. They must be allowed to take books from the taluq depôts on receipts left with the Shroffs and sell what they can on commission. About the amount of the commission there seems to be considerable difference of opinion. The Chetterpore Board first proposed 5 per cent. and afterwards 15 per cent. to which the Acting Collector objects as too high a rate. In Sydapet and Chingleput and the Board believe in the Circles of South Arcot it is proposed to give 15 per cent., in Vellore and Chittoor 6¼ per cent., in Rajahmundry Rupees 6 per mensem, in Bellary Rupees 4 per mensem, in Nursipatam a permanent advance of Rupees 5 a month for cooly hire. It is desirable that the remuneration should be in proportion to the number of books sold, and 15 per cent. seems to be a proper rate and will cover any expense Inspecting School-masters may be put to in the carriage of books. It is desirable to give liberal commission as an incentive to Inspecting School-masters to disseminate improved books as widely as possible. Inspecting School-masters will of course be required to return uninjured books unsold, and to make good the value, less commission, of any for which they cannot account. They should not be permitted to issue books to Union School-masters.

6. The necessary provision on account of books, etc., will be made in the Local Fund Budgets commencing from those of 1873-74. The sale proceeds of the books should be roughly estimated and shown as a distinct item opposite to "(*a*) Educational" in Statement I.-A. The value of the books, etc., to be purchased for Union Schools should be exhibited under Grant II. by a separate head styled "Purchase of books" under "(*c*) Local Fund Schools." The aggregate value of all books, etc., to be purchased should be provided out of the General Fund. The cost of such books, etc., as may be necessary for the use of the Masters of Union Schools, and are not paid for, must be charged against Union Funds and credited to the General Fund at the same time.

7. These Proceedings will be submitted for the information of Government.
