Not to be folded or roughly handled

No. 110. Read the following letter from the President of the Local Fund Board, Coimbatore, to the Officiating Chief Secretary to Government, Fort St. George, dated Coimbatore, 14th November 1872, No. 6:—

I have the honour again to bring to the notice of Government the inconvenience to local traffic arising from the destruction of the Noyel Bridge last year, between Coimbatore and the southern roads of the district.

Vide letters printed with G. O., Financial Department, No. 907, of 19th July 1872.

2. To prevent the heavy pull to bullocks descending and ascending the river banks, a raised road dam was constructed by the Municipal Commissioners of Coimbatore; but, on a fresh of six or seven feet of water coming down the river lately, this road dam, erected at an expense of Rupees 590, has been partly carried away. In fact, it would be economy of money and of animal power to reconstruct the former bridge, say, in a cheap way, by a timber truss erection, costing about Rupees 6,000.

3. By a traffic return I have taken for a month past, I find that about 360 carts per diem cross the river, three-fourths of which are entirely local traffic, unconnected with the railway.

4. Were either local or municipal funds available there need not be any delay in restoring this important bridge, second to none in the district as a communication between the north and south of it and at right angles to the railway line.

5. I trust that the Government, in the Financial Department, will be pleased to make a Provincial grant of, say, Rupees 6,000, as per Department of Public Works Estimate, which will enable the important southern traffic to be restored to its former condition.

No. 111. ORDER THEREON, 27th November 1872, No. 1569.
Recorded with reference to G. O., dated 13th November 1872, No. 1513.
