Read the following papers:—

No. 23. From the President of the Municipal Commission, Kurnool, to the Chief Secretary to Government, Fort St. George, dated Kurnool, 21st March 1872, No. 9.

With reference to G. O., dated 15th February 1872, No. 196, I have the honour to forward copy of a letter from the Vice-President of the Cumbum Municipality, giving special reasons regarding the establishment of a school at Cumbum.

2. I fully concur with Mr. Turner, and submit the application for the favourable consideration of Government.

From E. TURNER, Esq., Vice-President of the Municipal Commission, Cumbum, to the President of the Municipal Commission, Kurnool, dated Cumbum, 9th March 1872, No. 18.

I am in receipt of G. O., No. 196, dated 15th February 1872. In this Order it is stated that "The Government are averse to permit, except for special reasons, the expenditure of municipal funds on other than elementary education."

I propose to show (1) that Government always contemplated the desirability of establishing an Anglo-Vernacular School at Cumbum; (2) that they have stated their desire to sanction the appropriation of a portion of the municipal fund to the maintenance of such a school as is desired by the people.

2. For many years there was an Anglo-Vernacular School in Cumbum with a certificated teacher on a salary of Rupees 30, half of which (Rupees 15) was secured by a grant-in-aid from Government. Owing to the culpable neglect and bad conduct of the master in charge the school was obliged to be closed. This was not on account of any mismanagement of the Committee, nor from failure of funds, but simply from the fact that it was found impossible to obtain the services of a respectable and competent teacher on a salary of Rupees 30. When the school was closed the school-house belonging to the Committee was sold for Rupees 200. This sum is now in the Savings' Bank in the name of the Cumbum School Committee. In his letter, No. 111, dated 8th July 1869, Mr. McCarthy shows how extremely anxious the inhabitants of Cumbum were at that time for an Anglo-Vernacular School. Rupees 337-4-0 for erecting a school-house, and Rupees 31-12-0 per month for maintenance, were promised towards the establishment of a school. In his letter, No. 2860, dated 13th November 1869, Mr. Powell writes, in respect to the educational requirements of the Kurnool District, "All that need be done at present is to establish a Government Anglo-Venacular School" at Nundial and Cumbum, &c., &c.; and in the same letter, "I am of opinion that the people of Cumbum should be recommended to set on foot a grant-in-aid school in the beginning of 1870-71, when ordinary grants for teachers, servants, contingencies, and rent may be assigned to the institution." In the Order of Government passed on this letter of Mr. Powell it is stated, "Mr. Powell is authorized to include the building grant proposed (for the school at Cumbum) in the list of such grants he has been directed to propose in view to the sanction of the Government of India, &c." In the Order of Government, No. 849, dated 16th June 1871, on the letter of the President, forwarding the revised estimates of the Municipality, it is stated, "Provided that the Commissioners do not neglect primary instruction, the Government would be glad to sanction the appropriation of a portion of the municipal funds to the maintenance of such a school as is desired by the people."

3. It appears from the foregoing that the Government have always contemplated the desirability of establishing an Anglo-Vernacular School at Cumbum, and that they have stated their willingness to sanction the appropriation of a portion of the municipal funds to the maintenance of such a school, provided that elementary education be not neglected. Accordingly, in their Proceedings of the 27th November 1871, the Municipal Commissioners of Cumbum unanimously

resolved that an Anglo-Vernacular School should be opened in Cumbum on January 1st, 1872. Mr. Boyle, the Inspector of Schools, was present at the meeting, and promised that, if the school seemed fairly started at his next visit, he would perhaps recommend a salary grant-in-aid. The school was opened on the 15th January, and may now be considered in good working order; a house has been rented and books and furniture bought. Mr. Boyle inspected the school on the 22nd February 1872, and, I believe, found its progress satisfactory. A salary grant-in-aid was sanctioned by the Educational Department.

4. At a meeting of the Commissioners assembled this day, on the Order of Government, No. 196, being read out, the Commissioners and others who were present unanimously expressed a wish that Government would be pleased to sanction the school as now established.

They are sure that the school will give far more impetus to the spread of vernacular education in Cumbum and the neighbourhood than any other plan. In fact they go so far as to say that its good effects in this direction are already noticeable. It must tend to raise the standard of teaching in the pyal schools, and create emulation and a desire to learn among the boys in those schools.

5. I hope, therefore, Government will sanction the school. Government long ago admitted the desirability of having an Anglo-Vernacular School at Cumbum. The question has only been one of funds. If it does not appear desirable that the Municipality assisted by a grant-in-aid from the Educational Department should entirely support the school, it appears to me probable that the Local Fund Board of Kurnool would be willing to aid towards its maintenance. At the same time the Commissioners state that they have no intention of sacrificing any of the duties laid upon them by the Act to the up-keep of this school, and they have no intention to neglect primary education. Cumbum, however, is a small compact town, and, in the opinion of the Commissioners, the funds are amply sufficient to provide for all the purposes of the Act after making provision for the maintenance of this school.

6. I should explain that the sum proposed to be expended by the Municipality on secondary education amounts in point of fact only to Rupees 15 per month or Rupees 180 per annum. Government have sanctioned an elementary school with a teacher on a salary of Rupees 20 per month; very nearly the same amount would have to be expended on the hire of school-room and contingencies as at present, so that the only real difference is that, in addition to a Vernacular Schoolmaster on a salary of Rupees 15, the Municipality have engaged an English Schoolmaster on a salary of Rupees 40 per month, and half of this salary (Rupees 20) will be secured by a salary grant-in-aid, supposing Government sanction the establishment of the school.

7. There are at present seventy boys attending the school; all are paying the established fees.

No. 24. From the Director of Public Instruction, to the Secretary to Government, Fort St. George, dated Madras, 27th March 1872, No. 610.

I have the honour to submit a letter from Mr. Boyle, Acting Inspector of Schools for the 2nd Division, bearing date the 21st instant, and to recommend strongly that the Municipality of Cumbum be permitted to make the Anglo-Vernacular School at that town a Union School.

From J. A. BOYLE, Esq, Acting Inspector of Schools, 2nd Division, to the Director of Public Instruction, dated Khadri, 21st March 1872, No. 316.

I beg that you will allow me to call the attention of Government to their Order (No. 196 of February 15th) bearing upon the recent foundation of an Anglo-Vernacular School at Cumbum.

2. The Order was passed upon a Proceedings of the Municipal Commissioners of that town, in which the foundation of an English School, or rather the resuscitation of a defunct school, was unanimously agreed upon. I may add that my visit to Cumbum was made in consequence of an intimation from the Vice-President, Mr. Turner, that a strong desire was felt by the townspeople to

found such a school, and this desire found expression in the meeting at which the Proceedings was adopted.

3. The Order of Government, if I may be allowed to criticise it, rather states a general principle than conveys a specific direction. It affirms that the Government object to the allotment of municipal funds to the support of education other than elementary; but it does not go on to state the conclusion that, therefore, the funds of the Cumbum Municipality are not to be devoted to the recently-founded Anglo-Vernacular School. Indeed a hint is conveyed that, if "special reasons" for an exception to the above rule exist in this case, the objection may be withdrawn. I hope to be able to convince Government that such special reasons do exist in the case of Cumbum.

4. In the autumn of 1869 you visited Kurnool to see what steps could be taken to advance education in that district. Among the towns which were proposed to and adopted by you as fit centres for Anglo-Vernacular Schools Cumbum was one; but you pointed out the difficulty that would attend the establishment of a school in that town, and the "uncertainty of its continuance" under Native management.

5. Upon your letter, 13th November 1869, Government passed an order authorizing the allotment of a grant for a school building in the ensuing year. But no further steps were taken to found a school and as no school was established, the money of course was not required for a school building. Cumbum remained without a school until my visit in November last, when I was authorized to obtain a master from Madras, and in January the school was opened. When I again visited Cumbum last month, I found the school so full that I was obliged to thin the numbers by selection; and there now appears to be no doubt that the school under proper management will not only live but be a success.

6. And if "special reasons" are required to justify the maintenance of this school from municipal funds, I venture to think that the circumstances of Cumbum afford very strong arguments in favour of such an exception. Cumbum is the only important centre of population in the whole of that long strip of wild country which forms the eastern portion of the Kurnool District. It is the seat of various offices, the Head Assistant Collector's, the District Munsif's, the Tahsildar's, and, consequently, the home of many officials who require a good education for their sons, while, if I may judge from the scholars now attending the school, the various classes of the town population are equally ready to profit by the advantages of English teaching.

7. Efforts have before this been made to keep up, under Native management, a school of the class now established, but they invariably failed, because the organization required to secure success seems to be lacking to an independent body of Native managers; and also because no decent schoolmaster would go to Cumbum, the backwoods of the Madras Presidency, except on an engagement in a Government School. I have no doubt that the normal student whom I secured for the place considers himself entitled to, though he does not receive, double the ordinary rates of salary.

8. These facts illustrate the difficulties that beset the Cumbum people in founding a school for themselves, and present such special reasons as will, I hope, induce Government to sanction the maintenance of the existing school from municipal funds. The cost of the school to the Municipality, when reduced by the amount of the grants payable from the Provincial grant, will not exceed Rupees 600 yearly.

No. 25. From the President of the Municipal Commission, Kurnool, to the Chief Secretary to Government, Fort St. George, dated Kurnool, 15th November 1872, No. 28.

In continuation of my letter, No. 9, dated 21st March 1872, I have the honour to forward a letter, with its enclosures, from the Vice-President of the Cumbum Municipality, regarding the establishment of a grants-in-aid school at Cumbum, and request that early orders may be passed on the subject.

From the Vice-President of the Municipal Commission, Cumbum, to the President of the Municipal Commission, Kurnool, dated Cumbum, 19th October 1872, No. 105.

I have the honour to request you will be good enough again to call the attention of Government to my letter, No. 18, dated 9th March 1872. It is now a year ago since Government decided "that they would be glad to sanction the appropriation of a portion of the municipal funds to the maintenance of such a school as is desired by the people." Again, in the last report they say they will take the matter into consideration. From that time to this nothing has been decided. I think nothing can better show how full of vitality the school is than the fact that it has survived this neglect. Pending the Government sanction, the boys have to meet in an unfurnished house, and, as the Head Master says, there is no difference in appearance between it and the commonest pyal school. Nevertheless the boys all pay their fees regularly, and the school is a great success as Mr. Boyle's report will show. It now appears that the Education Department purpose taking away from the school the grants-in-aid given on Mr. Boyle's recommendation, and Government delay to sanction grant from municipal funds. Why is this? Cumbum is 100 miles and more from any Anglo-Vernacular School, it is a town of 8,000 inhabitants, why should it be left out in the cold? Nundial, which has no municipal taxes to pay, gets a grant from the Local Fund Board and a grant-in-aid. Ghooty School gets a grant-in-aid and a grant from the Municipality, and Ghooty is only half the size of Cumbum. I see from the report on Public Instruction Kurnool is said to be apathetic in the matter of education. Cumbum is certainly not apathetic at present, but surely it will be hardly to be wondered at if it becomes so in future. If Kurnool District is the most backward one in the Presidency surely it wants encouragement, not discouragement. I forward a copy of an extract of the Proceedings of Cumbum Municipal Commissioners, dated 3rd October 1872, also copy of Mr. Boyle's report, and request that an early reply may be given to my letter, No. 18, dated 9th March 1872, and that the Director may be instructed to continue the grant-in-aid to Cumbum Anglo-Vernacular School.

EXTRACT from the Proceedings of the Cumbum Municipal Commissioners, dated 3rd October 1872.

Read Memorandum, No. 2086, from the Director of Public Instruction, requesting information "whether Cumbum School is maintained by the Municipality, or is kept up by subscriptions from its supporters." "If the school belongs to the Municipality it will be necessary for the Director to withdraw the grants now issued, as the institution will not be eligible for Government grants." The Commissioners cannot give a definite reply to this question until receipt of an answer to the Vice-President's letter, No. 18, dated 9th March 1872. The Commissioners are, however, unable to understand why the Cumbum School, even if it be maintained by the Municipality, should not be eligible for grants-in-aid. According to Section 29, paragraph 2 of Act III. of 1871, schools may be maintained either "wholly or by means of grants-in-aid," and they believe this privilege has been granted to other Municipalities (Ghooty for instance). If grants-in-aid are allowed to any school kept up by municipal funds, the Commissioners certainly think they should be allowed to the Cumbum School. The school is a complete success, as is proved by the report of Mr. Boyle, dated 15th July 1872. He says "that it is a really popular institution there can be no doubt whatever. It is proved by the crowd of scholars, who would be increased from the neighbourhood if the future existence of the school were secured. Indeed, I have very good authority for saying that it is almost the only one of the local municipal institutions that is not positively distasteful to the tax-payers."

Rather than run any risk of losing the grants-in-aid, the Commissioners (pending receipt of a reply from Government to their letter above quoted) resolve to inform Mr. Fortey that the school will be maintained by private subscriptions, and is, therefore, without any question eligible for Government grants.

(True Extract.)

(Signed) E. TURNER,
Vice-President.

Proceedings of the Madras Government, Financial Department, 2nd December 1872.

From J. A. BOYLE, Esq., Acting Inspector of Schools, 2nd Division, to the Director of Public Instruction, dated Cumbum, 15th July 1872, No. 567.

I beg to submit a report on the Anglo-Vernacular School of Cumbum examined by me on the 13th instant.

2. At the time of inspection there were no less than sixty-two boys present, and the attendance has hardly fallen below that number since the school was opened some six months ago.

3. The highest class is, however, disproportionately small, containing only six scholars, who have as yet hardly reached the standard of the third class in a Zillah School. Their reading and knowledge of English were very respectable, but of the Grammar they know little. The handwriting was generally fair, but only two boys spelled decently. In the Geography of Asia the class did poorly. In Arithmetic the standard was low, as the class had only reached the compound rules, nor were the results very good in them. The reading of Telugu was fair, but not very fluent, and of the Grammar they knew nothing. Making all allowances required for the recent establishment of the school, and the dilatory character of the boys' education before that, I cannot expect very much more result from the Head Master's work with this class than he has realized.

4. In the second class the reading of English was good throughout, and their knowledge of the meanings of words generally so. The writing was backward, but still they were able to write small words well enough. Of Geography they knew nothing, but in the simple rules of Arithmetic the whole class did well. The reading of Telugu was good, and the writing very fair. There were ten boys in this class.

5. The higher division of the first class held twenty-four boys, of whom all could read and write Telugu very fairly, but who had only begun to read English. About half the class did well in the simple rules of Arithmetic. But the class is larger, and many of the boys older than they ought to be. The lower division of the first class has a rabble of twenty-two little boys, who are just beginning to read and write. The school cannot properly hold them, nor the masters properly teach them, but they refuse to stay away; and I doubt whether the master has the strength of mind to keep his school within manageable limits.

6. Considering the difficulties that necessarily attend the teaching and discipline of some sixty boys by two masters in a very narrow space, I think there is every reason to be satisfied with the state of the school and its recent progress. Another assistant master is very much required; but he, with other necessaries, must be deferred until the Government allow the Cumbumites to have a school of their own. That it is a really popular institution there can be no doubt whatever. It is proved by the crowd of scholars, who would be increased from the neighbourhood if the future existence of the school were secured. Indeed, I have very good authority for saying that it is almost the only one of the local municipal institutions that is not positively distasteful to the tax-payers.

No. 26. ORDER THEREON, 2nd December 1872, No. 1606.

As a special case, and in consideration of the repeated and earnest solicitations on the subject, the Governor in Council is pleased to authorize the Cumbum Municipal Commissioners to apply municipal funds towards the maintenance of the established middle-class school in the town on the express understanding that, in their Budget Estimate for the coming year, suitable provision is to be made for purposes of elementary education.

Memo for Orders.

~~of the MADRAS GOVERNMENT~~.

Letter from the President of the Municipal Commissioner Kurnool, dated 21st March 1872 No 9.

Orders are requested on the question submitted in the accompanying letter whether the Cumbum Municipality should be allowed to establish a school of the middle class.

2. It would appear that the former subscription school of the middle class ~~which has been closed~~ has been re-opened by the Municipal Commissioners & that a salary grant of Rs: 20 per mensem has been sanctioned

...

Anglo Vernacular School Cumbum

1

c 3/4/72 No. C. 25-10. R- 1-11

sanctioned. No salary grant in aid is payable, as the principle declared by Govt. in G. O. 17th August 1871 No. 342 that such schools established by local boards will not be aided, applies equally to Municipalities. The Director of Public Instruction should be asked to explain why the grant to the Cumbum school was sanctioned.

3. The school costs Rs 70 per mensem or Rs. 840 per annum. The sum the provision of which for an elementary school was passed by Govt. was in round figures Rs. 33 per mensem. Supposing the salary grant to be disallowed there would remain Rs. 37 per mensem to be made good. Something is received from fees, which are levied at "established" rates

rates, but the amount is not specified.

4. It is submitted that the Commissioners should be allowed to supply Municipal funds to meeting a moiety of the cost of the proposed school provided sufficient provision is made for elementary classes the remaining moiety being made up by fees & subscriptions & the salary grant withdrawn.

5. The "people of Cumbum" who are anxious for the school probably comprise the Govt. Officials & no others.
