Proceedings of the Madras Government, Financial Department, 15th January 1872.

Read the following papers:—

No. 34. Proceedings of the Board of Revenue, dated 15th December 1871.

Read letter from Acting Collector of Chingleput, dated 15th September 1871, No. 443, forwarding proposals for the approval of Government for the formation of the Sydapet School Union.

THESE papers, in which the limits of the Sydapet Union are discussed, will be submitted for the orders of Government.

2. Twenty-seven villages are mentioned. Of these three are more than 2½ miles from the High School and all parties are agreed that they are too far away from the centre of the Union to be included in its limits.

Nundumbaukum.	

3. The remaining twenty-four are all within 2½ miles of the centre, and a proposal that they should all be included in the Union was submitted to the Local Fund Board, but rejected. The Collector gives reasons for rejecting ten* of them in paragraph 8 of his letter. The most important of these are that none of the ten villages were amongst those taxed under Madras Act VI. of 1863, and that they are all "outlying as regards the High School." The other reasons, viz., that they send few boys to the High School and that some possess flourishing Pial Schools, are less cogent. The Pial Schools would be none the worse for being in the Union, and the number of boys requiring the higher education of the High School, or of other schools which may hereafter be included in the Union, will increase.

4. The other fourteen villages include all those which have been rated under Act VI. of 1863, as well as three others situated within their circuit. The Local Fund Board have decided in favour of confining the Union to them. The argument afforded by the mass in favour of this proposal is almost conclusive. The villages are grouped in a compact mass compared to which all the others which have been mentioned are scattered and outlying. There seems to be no objection to the proposal in a financial point of view, and the only doubt is caused by the difficulty of determining how the other thirteen villages are to be included in other Unions.

5. This point may be left for future determination. If it is ultimately found to be necessary, the Sydapet Union may be extended to embrace them. At present it is of great importance that the area to be rated with a house-tax should be determined at once, and the Revenue Board think that the project adopted by the Local Board after the most careful deliberation may be accepted.
