Proceedings of the Madras Government, Financial Department,
20th April 1872.

Read again Proceedings of Government, Financial Department, dated 27th March 1872, No. 383.

No. 253. ORDER THEREON, 20th April 1872, No. 547.

The Government in the above Proceedings sanctioned the plans and estimates for certain road-works in the Rajahmundry Local Fund Circle in regard to which the Superintending Engineer had remarked that Rupees 7,904 had to be contributed from Provincial Funds by Government towards the expense of bridging irrigation channels which intersect the line. The Board of Revenue observe on this point that, under present arrangements, no contribution can be claimed from Provincial Funds, and so far they are right; but the Government are of opinion that in this, and in all similar cases, a contribution is fairly due from Imperial Agricultural Funds to cover the additional expenditure involved in the execution of road-works from Local Funds, by the necessity of bridging irrigation channels and canals which have been carried across pre-existing lines of communication.

2. It will be considered in the Department of Public Works, whether in the present instance any, and what, contribution is due to the Local Fund on the above principle, and orders will be issued accordingly for its disbursement from the ordinary Agricultural grant.

APRIL.
No. 253.

Requesting the Public Works Department to consider whether any, and what, contribution is due to the Local Fund of the Rajahmundry Circle towards the expense of bridging irrigation channels intersecting the road from Dendulur to Jangareddigudem, and to issue orders accordingly for its disbursement from the ordinary Agricultural grant.

Proceedings of the Madras Government, Financial Department, 27th March 1872.

No. 266. Read the following Proceedings of the Board of Revenue, dated 29th January 1872:—

Read the following letter from the Acting President of the Local Fund Boards, Godavery District, to the Acting Secretary to the Board of Revenue, dated Cocanada, 30th November 1871, No. 394:—

I have the honour to submit the enclosed letter of the Vice-President of the Local Fund Board of the Rajahmundry Circle, No. 14, dated 17th November 1871, accompanied by the estimates, &c., noted in the margin, for constructing two roads, one from Dendulur to Jangareddigudem, amounting to Rupees 1,67,000, and the other from Balabadrapuram to Korekonda, amounting to Rupees 36,500, and request that the estimates may be sanctioned.

Road from Dendulur to Jangareddygudem.

One Survey Book.
,, Masonry Plan Book.
,, Abstract Estimate.
,, Specification.
,, Statement of Compensation.
,, copy of Range Officer's letter, 10th August.
,, Superintending Engineer's letter, 6th Sept., No. 1825.

Road from Balabadrapuram to Korekonda.

One Survey Book.
,, Abstract Estimate.
,, Specification.
,, Superintending Engineer's letter, 6th Sept., No. 1828.

2. The Superintending Engineer states that a sum of Rupees 7,904 has to be provided from Provincial Funds by Government for their share of bridging irrigation channels in the case of the first road.

3. The Vice-President mentions, in paragraph 2 of his letter above alluded to, that the Local Fund Board of the Rajahmundry Circle were not able to provide funds for these roads in the coming year's Budget owing to the insufficiency of funds in that circle; but as, owing to the delay which has occurred in sanctioning the estimates for the current year, there will probably be a cash balance at the opening of the coming year considerably in excess of the estimate, I think that if sanctioned an allotment may be made in a supplemental budget for the works in question.

The estimates, amounting in the aggregate to Rupees 2,03,500, together with surveys and plans for the works noted in the margin, are submitted for the sanction of Government.

	Rs.
1. Constructing a road from Dendulur to Jangareddigudem, length 29 miles and 4 furlongs	1,67,000
2. Do. a road from Balabadrapuram to Korekonda, length 19 miles and 5 furlongs ...	36,500
Total ...	2,03,500

2. The component parts of the estimates are as follow:—

Items.	Rs.	Rs.
1. Earthwork	30,234	9,735
2. Gravelling	47,607	13,015
3. Turfing	5,581	2,715
4. Clearing jungle	550	515
5. Milestones	160	.....
6. Masonry works	48,860	5,300
7. Compensation for land...	9,008	5,220
8. Completing trunk road	25,000	.....
Total ...	1,67,000	36,500

3. The necessity for these works is explained in the Superintending Engineer's letters accompanying the estimates, and the Board do not think it necessary to repeat the information here.

4. In the case of the first road, the Superintending Engineer states that a sum of Rupees 7,904 has to be provided from Provincial Funds by Government for their share in bridging irrigation channels, and that no moiety of the cost of masonry works on the second road is to be met from Imperial Funds. The Board observe that, under present arrangements, no contribution can be claimed from Provincial Funds, as the Superintending Engineer seems to suppose.

5. No provision is made for the works in question either in the current or ensuing years budgets, but the Acting President thinks that, if the estimates are sanctioned, it may be possible to allot funds next year.
