Read Estimates of the Municipal Commission, Erode, dated 9th January 1872.

No. 282. ORDER THEREON, 26th April 1872, No. 566.

The President of the Municipal Commission, Erode, should not have submitted the estimates for 1872-73 without a covering letter reviewing the proposals made.

2. The receipts amount to Rupees 4,900, as detailed in the margin, and the expenditure to Rupees 4,250. The Commissioners have allotted Rupees 160 for results' grants, but nothing for contribution to the Local Board for inspection. The Government have no information as to the adequacy of the grant. Rupees 720 are allotted under Dispensaries, but the whole amount is intended for the salary of a medical subordinate. In the review of the Budget for 1871-72 the Government struck out the provision for a medical subordinate, and in G. O., 10th October 1871, No. 1531, they decided that a medical officer was not required for Erode at present, but intimated that the establishment of a Dispensary would come under consideration on the formation of the Municipality. The Government do not object to the establishment of such an institution, but think that a Hospital Assistant on less salary than Rupees 60 per mensem would be competent for the charge. A sum of Rupees 1,000 will be entered and will suffice for the payment of a Hospital Assistant of lower grade (who will probably be employed only for a portion of the year), for the rent of temporary accommodation, and the supply of medicines necessary to start the Dispensary. If the proposal is approved by the Commissioners, the President will report the intended arrangements when the supply of a Hospital Assistant will be authorized. The Government observe that no provision is made for vaccination. The Commissioners should either employ a vaccinator of their own, or, if there is not sufficient work for one, obtain, by the payment of a contribution, the aid of the Local Fund Vaccinators working in the neighbourhood.
