No. 73. Read the following letter from the President of the Municipal Commission, Wallajahpett, to the Chief Secretary to Government, Fort St. George, dated Vaithenancuppum, 1st February 1872, No. 5:—

In continuation of my letter of the 24th ultimo, No. 2, I have the honour to submit, herewith, the Budget Estimates of receipts and expenditure of the Municipal Funds of the town of Wallajahpett during the official year 1872-73, prepared in accordance with the forms prescribed in the Proceedings of Government, dated 28th October last, No. 1646.

2. It is proposed by the Commissioners to levy license fees in the following cases from 1872-73. Hitherto a trade-tax has been levied on these trades numbered 1 to 4. This practice does not appear to be in conformity with the requirements of the Act. A tax in the form of license fee as proposed would be more appropriate as these trades are, from their nature, more or less offensive and injurious to the public health.

3. I, therefore, beg to solicit the sanction of Government to levy the proposed fees which the Commissioners consider to be equitable under Section 153 of the "Towns' Improvement Act, 1871."

4. The Vice-President reports that the attendance of members at the periodical meetings is generally very small owing to the absence of the majority of them from the town. The Commissioners, therefore, propose that the following persons should be appointed by Government and added to the present list* of Commissioners:—

* *Vide Fort St. George Gazette*, dated 30th May 1871, page 839.

1. Mr. Supervisor J. H. Stephens, Officer in Executive charge of the Range.
2. Sathu Viraraghava Iyengar, Head Master,
3. Agaramangalam V. Parasurama Iyer, Assistant Master, } Anglo-Vernacular School, Wallajahpett.
4. Hakkin Mannuwia Saib.

No. 74. ORDER THEREON, 22nd May 1872, No. 666.

With the foregoing letter the President of the Municipal Commission, Wallajahpett, submits the Municipal Estimates for 1872-73.

2. The receipts from all sources amount to Rupees 9,300, of which Rupees 8,280 are derived from current taxes.

The rates of license fees on offensive trades, proposed by the Commissioners in the note to Statement I., are moderate and are sanctioned. The Government observe, with reference to the President's remarks, that these licenses are under Section 129, for the premises in which the trade is carried on, and the holders, if they fall within the schedule, are in the opinion of Government also liable to trades' tax. The entry in the note as regards vehicles and animals requires explanation. If it is desired to depart from the schedule maximum rates, specific rates for each item in the schedule must be adopted; and the rates are half-yearly. Differential rates within the maximum are

adopted for carts. The house-tax is imposed at the maximum rate—7½ per cent.—and yet it yields only Rupees 1,200. In 1869-70 at 7 per cent., the demand was Rupees 1,727, and yet the average rate was only half, and the average rental one-third, of the averages in all towns. The house-tax is evidently under-assessed, and the great decrease calls for explanation.

3. The Local Fund Budget takes credit for a contribution for Public Works, Rupees 370. The item does not appear in this budget, unless it is included in the general grant for repairs of roads. Under new works there is a large allotment, Rupees 2,050, for "a concave drain." The Government request the President to report what this means. The other items of expenditure do not call for remark.

4. Subject to the reports called for the estimates are sanctioned, and the usual notification will be issued.

NOTIFICATION.

Under the provisions of Section 38, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council authorizes the Municipal Commissioners for the Town of Wallajahpett, in the North Arcot District, to levy, during the year beginning 1st April 1872 and ending 31st March 1873—

A rate on houses, buildings, and lands, according to the annual value thereof.

A tax upon arts, professions, trades, and callings.

Tolls on carriages, carts, and animals entering the municipal limits at half-schedule rates.

Taxes on carriages, horses, and other animals as described in Schedule C to the above Act annexed.

Fees on the registration of carts.

Proceedings of the Madras Government, Public Department,

30th May 1871.

No. 157. Read the following letter from the Vice-President of the Municipal Commission, Wallajahpett, to the President of the Municipal Commissions in North Arcot, dated Wallajahpett, 21st April 1871, No. 12:—

I have the honour to acknowledge receipt of your letter, No. 34, of the 5th instant, with accompaniment from Government, having reference to the introduction of the Towns' Improvement Act III. of 1871, and to forward, herewith, an Estimate of Receipts and Disbursements duly prepared as therein required.

2. Provision has been made in the estimates for the final adjustment of the State grant-in-aid and charges on account of Police. The taxes for the year not having as yet been fully collected, the Commissioners have been obliged to place an approximate sum in the estimate under this head. Any amount which may be left after the adjustment the Commissioners propose absorbing in the construction of the market-place and in repairing roads for which the full amount has not been allotted.

3. The expenditure under the head of primary education has been estimated in accordance with a return furnished by the Deputy Inspector of Schools, North Arcot (copy of which is forwarded with the estimate). In this return, the Deputy Inspector has stated that three Telugu Schools are now being paid by Government on the results' system, and that, to complete the educational requirements of this town, two Tamil Schools will have to be established on the salary system at an annual cost of Rupees 180 each. In the estimate now submitted, due provision has been made for the Telugu Schools now in existence, as also for establishing one of the Tamil Schools in question, the other Tamil School being provided for in the estimate for next year.

4. As regards the registration of births and deaths, the Commissioners desire me to state that they are unable *at this stage* to state what detailed arrangements would be essential for the collection of the statistics. In their opinion, the mode of collecting information laid down in the new Act would answer our requirements very well, with the establishment proposed in the estimate.

5. A Vaccinator is already maintained by this Municipality. The Commissioners are of opinion that the Municipal Vaccinator should be allowed to work independently.

6. I beg to forward, herewith, a copy of the bye-laws now in force in this Municipality, and a statement showing the number of persons prosecuted and convicted under each bye-law. The bye-laws which have been found practically most useless I have marked in red ink.

7. I beg also to forward a list of persons whom it is proposed to appoint and re-appoint as Commissioners and a statement of the taxes which it is intended to levy under the new Act.

Submitted to Government with the estimates and statements referred to. The President begs to recommend that Conjeveram Venkatakrishna Moodelliar may be appointed Vice-President of the Municipal Commission of Wallajahpett.

North Arcot,
3rd May 1871.

(Signed) W. S. WHITESIDE,
President of the Muni. Comn., Wallajahpett.

No. 158. ORDER THEREON, 30th May 1871, No. 740.

The estimated receipts of the Municipality of Wallajahpett are Rupees 11,344, of which Rupees 8,344 are to be derived from current sources. The receipts are particularized in the margin. The estimated receipts from each source are less than those budgeted for the current year. It is observed that the Commissioners do not propose to go beyond the old maximum fee of one Rupee for each registration of a cart. The particulars of the estimated collection of arrears should have been given.

2. The expenditure classified in accordance with Section 25 is as marginally shown. The Commissioners have provided, under "Education," for results' grants to three Telugu Schools now in existence and for the establishment of one of the two Tamil Schools which the Deputy Inspector of Schools considers necessary. The establishment, costing Rupees 12 per mensem for the registration of births and deaths, seems small, but it may suffice with the aid of the village officers. The Commissioners propose to erect a market at a cost of Rupees 2,500 during the year.

seed formerly with the Regulations of the Act - I see in the form of license for as proposed would be more oppressive as those Rules are from their nature, more offensive and injurious to the public health.

3 I therefore beg to call the Attention of Government to the proposed fees which the Commissioners consider to be equitable under Section 153 of the Local Improvement Act Feb 1871.

4 The Vice President suggests that the attendance of Members at the periodical meetings is generally very small owing to the distance of the majority of them from the Town - The Commissioners therefore propose that the following persons should be appointed by Government and added to the present list of Commissioners.

Enclosing thereon 22 Recd 13th No. 666.

With the foregoing letter the President of the Municipal Commissioners Washingapett submits the municipal estimates for 1872-73.

2. The receipts from all sources amount to Rs. 9300 of which Rupees 8280 are derived from current taxes.

3. The rates of licence fees on offensive trades proposed by the Commissioners are the

moderate and are determined
The Government observe
with reference to the Pres-
idents remarks, that these
Licenses are under section 69,
for the premises in which
the trades are carried on, and
the holders, if they fall
within the Schedule, are
in the opinion of
also liable to trades Levy -
The only on the note
as regards vehicles and
animals is given explanation.
If it is desired to depart
from the schedule maximum
rates, specific rates
for each item in the schedule
must be adopted, and
the rates are half-yearly -

Differential

Differential duties within
the maximum are adopted
for carts. The house tax
is imposed at the maximum
rate 7½ per cent and yet
it yields only Rupees 1200.
In 1869/70 at 7 per cent, the
demand was Rupees 1727, and
yet the average rate is
only half and the average
rental one-third, of the
average in all towns. The
house tax is evidently
under-assessed and the great
increase could be explanation.

3. The Local fund
budget takes credit for
a contribution for Public
Works, Rupees 370. The item
does not appear in this
budget unless it is included
in

on the general grant for repair of roads. Under new works there is a large allotment Rupees 2030 for "a Concave Drain". The Government request the President to report what this means. The other items of expenditure do not call for remark.

4. Subject to the reports called for the estimates are sanctioned and the usual notification will be issued.
