No. 75. Read the following letter from the President of the Municipal Commission, Srirungum, to the Under Secretary to Government, Fort St. George, dated Srirungum, 21st February 1872, No. 1:—

With reference to the Government Order, No. 1646, dated 28th October last, I have the honour to forward Statements I, I.-A, II, II.-A, II.-B, Estimates of this Municipality for the year 1872-73.

No. 76. ORDER THEREON, 22nd May 1872, No. 667.

The estimated receipts of the Municipal Commissioners of Srirungum, for the year 1872-73, amount to Rupees 8,780.

2. The taxes are expected to yield Rupees 8,100. Of this amount Rupees 1,200, or about one-fifth of the current demand, are derived from arrears, indicating that the collections in 1871-72 have been slack. Credit is taken for a contribution of Rupees 600 from Local Funds for roads. The Local Budget does not provide for this contribution. The Government presume that it is a payment from the maintenance grant for the road between the two bridges. In future, assignments of this kind should be separately shown in the Local Budget. The Government are unable to say whether the amount is allotted for the road in question in the statement of expenditure. From the description of the works for which allotments are made, it would appear not. The whole of the local grant should be applied to the purpose for which it was made. The note to Statement I. alleges that license fees are levied at the rates sanctioned in G. O., 16th January 1867, No. 66. This referred to Trichinopoly, and the special sanction of Government for the same rates in Srirungum is required and is hereby given. The President will submit the bye-laws adopted for the sanction of Government.

3. Considerable sums are allotted for Public Works chiefly sanitary and nothing for education. The Government admit that at the starting of the Municipality and until the requisite latrines, &c., are built, this may be necessary; but the Commissioners should not entirely neglect education. The Government believe (*vide* G. O., 13th October 1871, No. 554) that there will be demands on the Municipal Funds for results' grants; and if there are, the charge must be provided for by a curtailment of the Public Works Grant. No provision is made for registration of births and deaths. A municipal organization for this purpose should be set on foot at once. The expenditure is summed up in the margin.
