No. 742, Financial Department, sanctioning the estimates for the year 1871-72, the Government observed that the allotment was a proper one, but directed the President to ascertain, in communication with the Commissioners, the sum which the Local Fund Board ought to contribute towards the maintenance of the Dispensary. The matter is still under consideration, and in the meantime Rupees 180 have been entered in the present estimates also.

6. In Statement II. it will be seen that Rupees 1,356 have been allotted to the head of Education. The contribution payable to the Local Fund Boards on account of the Educational Inspectorate remains to be settled in communication with the other Municipal Commissions in this district and the Local Fund Committees, but it is believed that the sum above given will cover all charges connected with education.

7. Rupees 1,000 have been allotted to the Dispensary.

P.S.—The Order of Government sanctioning the transfer of the Dispensary at Mayaveram to the Commissioners has just been received.

No. 92. ORDER THEREON, 28th May 1872, No. 681.

The estimated receipts of the Municipality of Mayaveram are exhibited in the margin, amounting to 15,719 Rupees. The President explains the falling off in the estimate of receipts from taxes. Some rates of license fees, but not all those now mentioned, were sanctioned in G. O., 29th July 1867, No. 918. The President will inform the Commissioners that the new rates should be rendered more definite. It cannot be right to allow fees ranging from one to 100 Rupees at the discretion of the Commissioners. A revised scheme of rates should be submitted for the sanction of Government. The President is informed that half the surplus pound funds may be made over to the Municipality. The Dispensary has no income beyond the contribution from the Local Fund, Rupees 180. The municipal grant should not have been shown as a receipt in Statement I.-A, but a deficit balance of Rupees 820, to be made good from Municipal funds, should have been carried forward. The institution was a branch of the Tranquebar Dispensary which has a considerable endowment; and now that it is entirely separate, it is a question whether the capital ought not to be divided. The opinion of the Commissioners and of the Negapatam Local Board is desired on the point.

Rupees 1,360 are assigned for municipal schools—how many or of what class is not stated,—and nothing for results' grants, or educational inspection. The Government request that, in the annual report, full details be given of the Commissioner's operations and intentions in respect of education in the town. The sum of Rupees 180 will now be entered under results' grants. The allotment for the dispensary, judging from past returns, is ample. If from the absence of income, the whole cost of the institution devolves on Local and Municipal funds, the local contribution ought to be more than Rupees 180. The Government doubt whether the registration of births and deaths, for which no special grant is made, can be properly carried on by the general establishment. A special establishment was, it is observed, provided in 1871-72.

3. The other items in the budget call for no remark and it is sanctioned. The usual notification will be issued.
