No. 95. Read the following letter from W. M. CADELL, Esq., Officiating President of the Municipal Commission, Mannargudi, to the Chief Secretary to Government, Fort St. George, dated Vallam, 29th January 1872, No. 16:—

With reference to the Order of Government, dated the 26th October 1871, No. 1646, I have the honour to submit, in the prescribed forms, the estimates of receipts and disbursements of the Mannargudi Municipality for the year ending 31st March 1873.

2. The receipts of this Municipality are estimated at Rupees 22,730.

3. The chief item of the proposed expenditure is Rupees 8,060 on the water supply, and with reference to this I beg to state that I have this day submitted the report called for by Government in their Order of the 13th June 1871, paragraph 5; from this it will be seen that a sum of Rupees 16,600 was still required at the date of Captain Oakes' examination to complete the work, and this independent of any claims for compensation or for such bridges as may be eventually required over the new channel. The Order of Government transferring to the Commissioners the Dispensary at Mannargudi has just been received. The Commissioners have put down in the present budget a sum of Rupees 1,956 as contribution payable out of Local Funds on account of the Dispensary, though a larger sum, viz., Rupees 3,500, is entered in Local Fund Budget of the Tanjore Circle. The latter sum was, however, entered provisionally and subject to revision. In the present Budget it will also be seen Rupees 200 have been put down as maintenance allowance payable to the Local Fund Board of the Negapatam Circle on account of the Branch Dispensary at Tritrapundi.

No. 96. ORDER THEREON, 28th May 1872, No. 683.

The receipts of the Municipality of Mannargudi in 1872-73 are estimated at Rupees 22,730 as detailed in the margin. The details of the receipts from taxation, Rupees 13,700, do not call for remark. The Municipality take credit for a contribution of Rupees 1,960 from Local Funds. The Budget of the Tanjore Circle provides Rupees 3,500. Even assuming that the whole of the Native Surgeon's pay be debited to the Dispensary, the charges not covered by fixed income are Rupees 4,310 (the Tritrapundi allowance being deducted both from receipts and charges), and considering the widespread benefit which the institution confers, the contribution from Local Funds now entered is certainly not excessive. The question is left for farther discussion. As regards the payment to the Negapatam Local Fund for the Tritrapundi branch, the Government suggest the advisability of dividing the capital, a portion yielding interest equal to the nominal payment for the Branch Dispensary being made over to the Local Board

2. The grant for Public Works is Rupees 10,414, of which 7,960 are allotted for the water supply scheme. In a recent order, the Government referred Captain Oakes' special report upon the project for the opinion of the Municipal Commissioners. The past expenditure on the project was then said to have been Rupees 7,119, but from Statement II.-A it appears that the past expenditure to the end of 1871-72 is Rupees 13,040. The Government regret to find from this that the Commissioners have been pushing on expenditure on the scheme and (as Rupees 7,155 have been spent on masonry works, which specially require professional skill in design) probably spending on questionable projects more municipal money, without waiting for the result of the reference for professional investigation. Work should immediately be stopped pending the final orders of Government, and Mr. Cadell will request the Range Officer to report whether the further expenditure by the Commissioners is in accordance with Captain Oakes' plans. It is amply evident from the present budget that the scheme is an enormous drain on the municipal resources. For the up-keep of communications only Rupees 1,000 or including road coolies only 1,600 are allotted; for education only 900, and for conservancy only Rupees 2,320. It is thus evident that these primarily important objects of municipal management are being sacrificed to enable the Commissioners to prosecute a scheme of doubtful feasibility and precarious benefit. Pending reply to G. O., 29th April 1872, No. 586, the allotment in the present budget is undisturbed.

3. The educational provision consists of 900 Rupees for salary grants. A portion of this, the Government cannot say how much, is probably intended for the Mission Girls' School; but it is absolutely necessary that some provision should be made for results' grants and for contribution for inspection. And if the whole of the Rupees 900 is really for salary grants legitimately chargeable to the Municipal Fund, it will be necessary to make further educational provision by curtailing the grant for the water project, supposits prosecution to be allowed. The President will report the details of the provision for salary grants.

4. Among the Dispensary charges under Establishment there is an item of Rupees 180 for "Native Police Allowance." The Government desire to be informed what this is. The other proing visions in the budget do not call for remark, and, subject to the reports above called for, it is provisionally passed. The usual notification authorizing the levy of the taxes will be published.

NOTIFICATION.

Under the provisions of Section 38, Act III. of 1871 (the Towns' Improvement Act), the Governor in Council authorizes the Municipal Commissioners for the Town of Mannargudi, in the Tanjore District, to levy, during the year beginning 1st April 1872 and ending 31st March 1873—

Budget Estimate of Municipal Fund Trammargudi for 1872-73
Copies 3 for
Laid before Council on 1872

Even assuming that the whole of the Sakri Surgeon's pay be debited to the Dispensary, the charges not covered by fixed income are Rs 4,310 (the Trikra-pundi allowance being deducted both from receipts & charges) and considering the wide spread benefit which the institution confers the contribution from local funds now entered is certainly not excessive. The question is left for further discussion.

As regards the payment to the Kegupulam local fund for the Trichapundi branch the Government suggest the advisability of dividing the

Capital

Capital, a portion yielding interest equal to the nominal payment for the branch dispensary being made over to the local board.

2. The grant for public works is Rs 10,414 of which 7960 are allotted for the water supply scheme. In a recent order, the Govt referred Captain Oakes' special report upon the proposition of the Municipal Commissioners. The past expenditure on the project was then said to have been Rs 7119 but from statement II-A it appears that the past expenditure to the end of 1871-2 is Rs 13040. The Government regret to find from this that the Commissioners

have been pushing on
expenditure on the schemes
& (as Rs 7155 have been
spent on masonry works,
which especially require
professional skill in designs)
spending on questionable projects
probably ~~needing~~ more
municipal money without
waiting for the result
of the reference for pro-
-fessional investigation. Work should im-
-mediately be stopped
pending the final
orders of Govt; & Mr
Cadell will request the
Range officer to report
whether the further
expenditure by the
Commrs is in accord-
-ance with Captain
Oakes' plans. It is
amply evident from
the present Budget
that the scheme is
an enormous drain
on the municipal
resources. For the
upkeep of communications
only Rs 1000 or including
road Coolies only 1600
are allotted, for educa-
-tion only 900. and for
Conservancy only Rs 2320.
It is thus evident that
these primarily important
-tant objects of muni-
-cipal management are
being sacrificed to
enable the Commissrs
to prosecute a scheme
of doubtful feasibility
and precarious benefit.
Pending reply to G.O.
29th April 1872 No 586,
the allotment in the
present Budget is
undisturbed.

5 The educational provi-
-sion consists of 900 Rs
for salary grants. a
portion of this, the

Govt cannot say how much, is probably intended for the Mission girls' school, but it is absolutely necessary that some provision should be made for Taluks' grants and for Contribution for inspection. And if the whole of the Rs 900 is really for salary grants legitimately chargeable to the Municipal funds, it will be necessary to make further educational provision by curtailing the grant for the water project, supposing its prosecution to be allowed. The President will report the details of the provision for salary grants.
