No. 147. Read the following letter from the Officiating President of the Municipal Commission, Tanjore, to the Chief Secretary to Government, Fort St. George, dated Vallam, 29th January 1872, No. 13 :—

With reference to the Order of Government, dated the 28th October 1871, No. 1646, Public Department, I have the honour to submit, in the prescribed forms, the estimates of receipts and disbursement of the Tanjore Municipality for the year ending 31st March 1873.

2. The gross receipts are estimated at Rupees 53,000, against Rupees 59,000, the estimate of the current year. It will be observed that the proceeds expected to be realized from rates and taxes are about the same as in the past year of 11 months only ; it has been, however, found that the tax on trades and professions was overestimated, and this with an expected diminution in the leasing of tolls (which have been let this year at an exceptionally high rate), and a smaller balance at the end of the year, make up the decrease.

3. In their Orders of the 7th July 1871, No. 1002, Government have ruled that the surplus proceeds of pounds, situated within municipal limits, should not be considered a permanent source of income to Municipalities, and should not be made over to them without the special permission of Government. The Commissioners have, however, entered the sum as hitherto, and I trust the Government will be pleased to make the same concession as in the current year.

4. With advertence to paragraph 3 of G. O., 28th October 1871, No. 1646, I beg to state that the only endowed institutions capable of being transferred to the Commissioners are two of the minor chuttrums belonging to the late Rajah of Tanjore; but for reasons which will be hereafter reported through the Board of Revenue at length in reply to the Order of Government, 5th December 1871, No. 742, on the Budget of the Local Funds' Circles, and with reference to the Rajah's Chuttrums generally, it is not considered fitting or expedient to transfer them to the Municipality.

5. Expenditure.—Under the head of New Works the Government will see that the Commissioners have allotted a sum of Rs. 2,000 for the market, and a further sum of Rupees 3,500 for a Municipal Office. In the estimate of the current year a sum of Rupees 7,000 was put down for the former building, but the same has not yet been commenced, and the Commissioners are still waiting the receipt of the plan and estimate from the Executive Engineer of the Range. Immediately this is received the work will be put in hand, and the Commissioners are most anxious to have the building completed as early as possible. As regards the Municipal Office the building at present occupied as such is only rented, and is situated in a very noisy locality. The Commissioners are, therefore, desirous of having a building of their own, and are in treaty for one situated close to the Railway Station, and nearly equi-distant from the Fort and the large suburbs of Carootillangudy and Manambuchavadi.

6. From Statement No. II. it will be seen that Rupees 2,400 have been allotted for expenditure on education under the results' system. The contribution payable to Local Funds on account of Inspectors cannot at present be ascertained with any approximate accuracy, but it is believed the sum now entered will cover all the expenses which may be chargeable to the Municipality.

7. The Commissioners have it also under contemplation to establish a Branch Dispensary with a Pensioned Dresser to superintend the sale and distribution of medicines near the east gate of the Fort at Carootillangudy; for this a sum of Rupees 1,292 has been entered.

No. 148. ORDER THEREON, 29th May 1872, No. 707.

The estimated receipts of the Municipality of Tanjore for 1872-73 amount to Rupees 53,000 as exhibited in the marginal abstract. Rates and taxes yield Rupees 47,700.

2. With reference to paragraph 3 of the President's letter, the Commissioners are informed that, for 1872-73, half the surplus from pound fees will be made over to them. The President does not say whether the sum entered is the whole of the surplus, but the amount is small, and the question cannot make any appreciable difference in the budget.

3. Grant I. contains allotments for some apparently very useful works. The Government note a discrepancy between the entries for establishment in Statements II. and II.-B. It is presumed that the gang of coolies entered in the latter are included in the former in the allotments for repairs of roads. The grant for education, Rupees 2,400, is intended to cover results' grants and whatever charge may be settled as a contribution to Local Funds for inspection. This grant will no doubt be adequate to these purposes; but the Commissioners should endeavour to ascertain the present state of primary instruction in the town, and, by amalgamation or otherwise, to improve the existing indigenous schools, which are doubtless numerous. There is a grant of Rupees 1,290 for a Branch Dispensary. The establishment of such an institution is approved, but the Government desire to be informed under whose training and with what end two "probationers" are entertained. General orders on the subject of medical instruction in connexion with up-country hospitals are about to issue. The conservancy grant shows a considerable increase. The Government notice from Statement II.-B that a Pygust on Rupees 10 is employed to watch the proceedings of the toll renters and to look after the stable and coachyard. The President will report what stable and coach-house is referred to, and whether it belongs to the Municipality.

Sir

With reference to the order of Government dated 26th October 1871 No. 1646 Public Department, I have the honor to submit, in the prescribed forms, the Estimates of receipts and disbursement of the Tanjore Municipality for the year ending 31st March 1873.

2 The gross Receipts are estimated at Rupees 53,000 against Rupees 57,000 the Estimate of the current year. It will be observed that the proceeds expected to be realized from rates and taxes are about the same as in the past year of 11 months only; it has been however found that the tax on trades and professions was over estimated and this with an expected diminution in the leasing of Tolls (which have been let this year at an exceptionally high

high rate) and a smaller balance at the end of the year, make up the decrease —

3 In their order of the 7th July 1871 No. 1002 Government have ruled that the surplus proceeds of Pounds situated within Municipal limits should not be considered a permanent source of income to Municipalities and should not be made over to them without the special permission of Government. The Commissioners have, however, entered the sum as hitherto, and I trust the Government will be pleased to make the same concession as in the current year —

4 With adverence to para 3 of G.O 26th October 1871, No. 1046, I beg to state that the only endowed institutions capable of being transferred to the Commissioners are two of the Minor Chattrams belonging to the late Rajah of Tanjore; but for reasons which will be hereafter reported through the Board of Revenue at length in reply to the order of Government,

5th December 1871 No. 742, on the Budget of the Local Funds Orders and with reference to the Rajahs Chattrams generally, it is not considered fitting or expedient to transfer them to the Municipality —

5 Expenditure Under the head of Fees the Government will see that the Commissioners have allotted a sum of Rupees 2000 for the Market and a further sum of Rupees 3500 for a Municipal office. In the Estimate of the Current year a sum of Rupees 7000 was put down for the former building, but the same has not yet been commenced and the Commissioners are still waiting the receipt of the Plan and Estimate from the Executive Engineer of the Range. Immediately this is received the work will be put in hand and the Commissioners are most anxious to have the building completed as early as possible.

of the surplus, but the amount is small, and the question cannot make any appreciable difference in the budget.

3. Grant I contains allotments for some apparently very useful works. The Govt. note a discrepancy between the entries for establishment in Statements II and II B. It is presumed that the gang of coolies entered in the latter are included in the former in the allotments for repairs of roads. The grant for Education Rs 2400 is intended to cover results grants and whatever charge may be settled as a contribution to local funds for inspection. This grant will no doubt be adequate to those purposes; but the Commissioners should endeavour to ascertain the present state of primary instruction
