Proceedings of the Madras Government, Financial Department,
18*th July* 1873.

No. 138. Proceedings of Government, 18th July 1873, No. 1024.

In pursuance of the course of policy indicated by the Secretary of State and the Government of India in regard to State aid to education, the Governor in Council has resolved, so far as may be possible consistently with vested interests and with any pledges, expressed or implied, which it may be considered incumbent upon the Government to fulfil, to employ for the purposes of elementary instruction some considerable part of the funds now given by the Government to the higher branches of education; and in framing the estimates of Provincial expenditure for the ensuing year 1874-75 measures will be taken for this purpose. The Governor in Council, therefore, requests that the Director of Public Instruction will, after full consideration of the subject, submit a report as to the means which, in his opinion, would be best calculated to effect the object which the Government have in view.

(True Extract.)

Chief Secretary,

To the Director of Public Instruction.

Ex

Invite to the Director of Public Instruction

that in pursuance of the course of policy

indicated by the Sec.ʸ of State and the

Govt. of India, we have resolved, — so far as

may be possible consistent with vested

interests and with any pledges, expressed

or implied, which it may be considered

incumbent upon the Govt. to fulfil, — to

employ for the purpose of elementary

instruction some considerable part of the

funds can given [illegible] for to the higher branches of education; and that we propose, in framing the estimates of provincial expenditure for the ensuing year, to take measures for this purpose

That we therefore request that he will after full consideration of the subject, furnish us with a report on the means which in his opinion would be best calculated to effect the object which the Govt have in view —
