No. 251. ORDER THEREON, 14th July 1873, No. 1,803.

ACCOUNT, No. 12.

THE foregoing letters give cover to District Engineers' statements of their requirements on account of incomplete and other works in 1873-74.

2. Under Provincial, the unappropriated balance of the Reserve is Rupees 61,127, to which Rupees 24,272 held at the disposal of Government in G. O., No. 1,711, dated 2nd July 1873 from the grant for Police Works being added, the amount available for appropriation is Rupees 85,399. This sum is even inadequate to meet demands on account of incomplete works which were in actual progress last year, and it is not, therefore, possible to provide for the commencement of any New Works. The distribution of available funds is exhibited in the appended statement, and the Financial Department will be requested to sanction a grant of Rupees 22,032 required to complete the following works :—

	Rs.
Alterations and additions to the Salem Central Jail	11,240
Do. to the sea-face of the Civil Engineering College	8,880
Debtor's Prison at Madura (In addition to the sum of Rupees 5,962 included in statement)	1,912

3. The sum of Rupees 1,000, provided * in the Provincial Budget for the Lunatic Asylum at Waltair in excess of actual requirements, will be transferred to the Taluq Cutcherry at Yellamanchelly,† the grant for which will now stand at Rupees 4,700.

* Item No. 12.

† Item No. 9.

4. The small balances required to complete the Ambasamoodrum Taluq Cutcherry, and other similar works, will probably be available from savings later in the year, and may be applied for after the accounts of the half-year ending 30th September have been received, if they can be utilized.

5. The Educational and Marine Departments will be requested to provide funds for the completion of the undermentioned works :—

	Rs.
Constructing Government School at Guntoor, sanctioned in G. O., No. 64, dated 8th March 1872, Educational Department	2,235
Repainting the iron-work and tarring wood-work of Calicut Pier, sanctioned in G. O., Marine Department, No. 312, of 30th December 1872...	1,420

6. The amounts applied for on account of Repairs to Civil Buildings in the Ganjam and Tinnevelly Districts should be provided from the sanctioned allotments under that head.

7. Under Military, the demands for incomplete works aggregate Rupees 48,104 which has been allotted, and a further sum of Rupees 10,540 has been granted for a few works which are urgently required, chiefly for provision of quarters for Warrant and Non-Commissioned Officers. These appropriations will leave a balance of Rupees 5,295 at the disposal of Government. Small works under Rupees 500 should be provided for from the district grants for Minor New Works.

8. The District Engineer, Malabar, will under G. O., No. 392, of 5th February 1873, apply to the Inspecting Engineer for Buildings for the additional grant required under Repairs, Military.

9. As the Public Works assignment for Postal buildings will be relieved of the charge of quarters for Travelling Post Office Clerks at Raichore, for which Rupees 5,562 were allotted in G. O., of 18th April 1873, No. 1,125, the sum of Rupees 911, diverted from the Reserve for Telegraph buildings in G. O., of 27th May 1873, No. 1,436, will be re-credited to that head and the charge be debited to the Postal Reserve. The appropriations for Postal buildings made in the appended statement will leave an unappropriated balance of Rupees 3,945 as a Reserve. The sum of Rupees 2,000 at the disposal of Government for Telegraph buildings has been granted in part of the demand of Rupees 8,076 for the Cocanada Telegraph Office, and application for the further amount required to complete that building will have to be made to the Telegraph authorities, if it be found, as the year advances, that no savings are likely to be available from the grant for the Madras Telegraph Office.

10. Under Agricultural, the Government have provided for all demands under "Ordinary". The sum of Rupees 20,000, applied for by the District Engineer, Tanjore, for a reserve of rough stone, does not require a special provision of funds at present as the expenditure is chargeable to "stock."

11. The sum of Rupees 7,365, required under "Extraordinary" for the Kolakaloor Bridge and improvements to Commamore Channel, should have been brought forward for entry in the Budget. It seems undesirable to make a special application to the Government of India for the requisite funds. The District Engineer is authorized to carry out the work to completion in anticipation of savings from other sources to be transferred later in the year. Similarly some of the other works under Ordinary should not have been left to be provided for from the small amount of the Reserve. The special attention of District Engineers is drawn to the necessity of their being in future particularly careful in this respect.

12. The sum of Rupees 474, required for preliminary expenses in connection with the survey of the Agunda, Cauvery, and Coleroon, will be debited to the provision for establishments.

13. District Engineers will be reminded that under the rules no specific allotments are necessary in the case of Major Works when the amounts required to complete them are below Rupees 500. In certain cases larger sums than the unexpended balances of sanctioned estimates have been applied for. Such additional grants cannot be made without revised or supplemental estimates and explanatio of the causes of excess.

F. No. 2299/873.

Bombay Castle, 21st July 1873.

No. 1029.

Sir,

I am directed to forward for the information of Government a copy of the letter noted in the margin, from the Executive Engineer, Thana Division, No. 2, regarding the completion of the Bridge over the Vaitarna river on the Nasik road.

2. I am to request that you will move the Chief Engineer to favour Government with his opinion on the subject of the proposal contained in the last paragraph of the letter from the Executive Engineer.

3. I am also to request that you will move the Chief Engineer to favour Government with a statement of the charges which it is proposed to debit to the Bridge Account, and to state whether the Bridge is complete and ready for traffic.

I have the honor to be,
Sir,
Your most obedient servant,
[illegible]
Secretary to Government.

To the Executive Engineer, Thana Division, No. 2.
To the Superintending Engineer, Thana Circle.
To the Chief Engineer and Inspector of Public Works.
Memorandum No. 1029 dated 21st July 1873.
