No. 139. Read the following letter from the President of the Municipal Commission, Srirungum, to the Chief Secretary to Government, Fort St. George, dated Trichinopoly, 14th January 1873, No. 31 :—

The Government having in their Order, No. 1694, dated the 16th ultimo, directed the Inspector-General, Indian Medical Department, to arrange for the appointment of Native-Surgeon Baloo Moodelliar to one of the Collector's establishments, or to propose some other method of fully utilizing his services, Dr. Balfour called on his Deputy, Dr. Johnstone, in charge of this Division, to ascertain whether the Municipal Commissioners of Srirungum will accept Baloo Moodelliar's services; and I informed him, in reply, that the Commissioners will readily accept the offer; that they have already addressed the Government requesting them to allow the dispensary and hospital at Srirungum the benefit of Baloo Moodelliar's supervision gratuitously, and that the Government have in their Order, No. 1446, dated the 23rd October last, promised to consider the request when the question of the distribution of Native Surgeon's pay between Provincial and Local Funds has been finally decided.

2. The Commissioners avail themselves of this opportunity of once more approaching the Government with their earnest solicitation that, under the peculiar circumstances of their dispensary, which have been fully detailed in their Proceedings embodied in G. O., No. 1446, dated 23rd October 1872, the Government will kindly allow the institution the benefit of Baloo Moodelliar's supervision as the public have great confidence in his skill and treatment. The Commissioners are already under great obligation to Government for the valuable surgical instruments and the six months' supply of medicines furnished by the Inspector-General, as directed by Government, free of cost, and the concession now prayed for will prove a great boon and complete the requirements of the institution.

3. The dispensary was opened on the 1st of this month. Baloo Moodelliar has, under orders from the Deputy Inspector-General, Indian Medical Department, been placed in charge of it on account of the feast under progress, and the daily attendance of the sick at the institution is thirty.

No. 140. ORDER THEREON, 22nd January 1873, No. 112.

The President is informed that Dr. Balfour's offer of Native-Surgeon Baloo Moodelliar's services appears to have been made with reference to G. O., dated 16th December 1872, No. 1694. The question of the distribution of charge for medical superintendence between Government and the Municipalities, which is referred to in paragraph 2, G. O., dated 23rd October 1872, No. 1446, is still under consideration, and in the meantime a Native Surgeon can only be appointed to a Municipality in the event of the Commissioners undertaking the payment of the full amount of his salary. In any case the relief in Srirungum by a Government contribution for medical attendance on Government servants could be but small.
