Not to be folded or roughly handled

No. 143. Read the following Proceedings of the Board of Revenue, dated 18th January 1873, No. 293 (Miscellaneous):—

Read the following letter from the Acting Collector of Vizagapatam, to the Secretary to the Board of Revenue, dated Vizagapatam, 31st December 1872, No. 1629:—

I have the honour to forward a letter from Colonel Fischer, late Acting Superintending Engineer, 1st Division, on the subject of the Trunk Road. He points out that unless the earth-work made last year with the Famine grant be covered with metal it will be destroyed, and suggests that the unexpended balance of the grant for relief works should be applied for in order to complete the work on this road.

2. I imagine that all unexpended balances of relief grants have long since been carried to other tracts and are no longer available, and there are no Local Funds at present available for the purpose. The work no doubt is a most important one, but I am unable to suggest any sources from which money can be obtained to complete it. A loan seems the only feasible plan. The Nursipatam Local Fund Board are already about to apply for a loan to meet other charges.

3. There is no doubt that if the Trunk Road is to depend for its completion on Local Funds its completion will be indefinitely delayed.

From Lieutenant-Colonel J. F. FISCHER, R. E., Acting Superintending Engineer, 1st Division, to the Acting Collector of Vizagapatam, dated Dowlaishweram, 18th November 1872, No. 2949.

I have the honour to bring to your notice that the earth-work done to the Trunk Road last year as a relief work will be entirely destroyed if left in its present state without a covering of gravel or metalling. The Local Fund Board, Nursipatam Circle, have provided Rupees 6,000 in next year's Budget for this work, but this money is very insufficient for the work, and I beg to suggest that any funds available from last year's grant for relief works be at once applied to complete this very important line of communication. The Local Fund Board were prepared to allot funds from the Reserve if found available; but, as these cannot be available for some time and it is very necessary to put the work in hand without any delay, I trust you will be good enough to obtain sanction for its immediate commencement.

On the 26th of October last.

Submitted for the orders of Government.
