Proceedings of the Madras Government, Financial Department,

25th August 1873.

No. 168. Read the following Proceedings of the Board of Revenue, dated 1st August 1873, No. 4818 (Miscellaneous) :—

Read Proceedings of the Madras Government, Financial Department, dated 11th July 1873, No. 971, regarding certain allotments made for public works and educational purposes from the amount of opening balance for the current year in excess of the estimate and from the closing balance.

The Board resolve to inquire whether there is any intention of continuing the educational grants to Circles for new schools in future years, because, if not, the Local Fund Boards must calculate, before establishing the schools, whether they will be able to bear the charge themselves next year. It would be obviously inexpedient to set up a school this year only to abolish it next year.

No. 169. ORDER THEREON, 25th August 1873, No. 1201.

The Governor in Council is not at present prepared to say that the particular grants in question will be renewed next year, but in any case in which it is clearly shown that the Local Fund Budget is not in a condition next year to bear the expense of the new schools to be started with these special grants, and that the schools themselves are really required, the Government will repeat the grant.

2. The Board will have observed that the Government trust to be able to devote a considerable amount in future to the aid of elementary education.
