***Not to be folded or roughly handled***

*Proceedings of the Madras Government, Financial Department,*
*30th September* 1873.

Read the following papers:—

No. 210. From W. S. FOSTER, Esq., President of the Local Fund Boards, Godavery District, to the Hon. W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated Cocanada, 29th August 1873, No. 2.

In June last the Cocanada Local Fund Board, on the motion of the District Engineer, resolved that it was necessary to appoint additional Overseers to superintend the Local Fund works, and also to increase their travelling allowance.

2. This resolution was shortly afterwards followed by a similar resolution of the Ellore Circle Board.

3. After this, the District Engineer asked me to allow the extra Overseers to be appointed pending sanction of Government. This I did not feel inclined to do, but I sent a telegram to the Board of Revenue asking if they would allow me to do so. This telegram, I have since found out, miscarried. However, at the Local Fund Meeting in August, I informed the Local Fund Board what I had done, and informed them I had received no reply to my telegram; they thereupon passed the following resolution:—

"The Local Fund Board, Cocanada Circle, request the President will be good enough to submit their resolution of the 10th June 1873, for an increase to the number of Overseers, for the immediate consideration and orders of Government. A very large number of estimates have been sanctioned, and the funds of the district are amply sufficient to provide it with excellent roads in a few years; but experience has shown that, with the limited establishment now sanctioned for each range, no sufficient progress can be made, and as it is of the first importance every endeavour should be made to utilize the funds available in each year as much as possible, the Board are most desirous to strengthen the establishment at once. The usual course of reference through the Board of Revenue creates so much delay that a working season is lost before the funds can be used. The Local Fund Board trust the Government will, under the peculiar circumstances of the case, be pleased to consider the matter at once, and sanction their resolution for immediate adoption."

Resolution of 10th of June 1873—

"Paragraph 2. On the motion of the District Engineer the Local Fund Board propose that, as a temporary measure, one Overseer more be appointed in the Rajahmundry Range, and one in the Eastern Delta Range.

"Paragraph 5. Resolved that the Government be requested to sanction an increase of Rupees 15 to the travelling allowance of the Local Fund Overseers."

4. I have now received the Proceedings of the Board of Revenue, dated August 6th, 1873, No. 4933, in which they say they cannot endorse the Circle Board's proposal to raise the travelling allowance of the Overseers, and on the point of increasing the number of Overseers they desire a report about the Imperial Fund Overseers whether they do look over the Local Fund works. On this point I forward a letter* from the District Engineer, in which he says that the Imperial Fund Overseers are already overworked with the work they have to get

* 16th August 1873, No. 1565.

done from Imperial Funds, and that it is impossible for them to look after the road work as well.

5. I would, therefore, ask Government to allow the Local Fund Boards to employ additional Overseers, and to raise the rates of their travelling allowance.

6. In the Cocanada Circle there are three Local Fund Overseers; now no work can go on properly without constant inspection by the Overseers; the road and tank works to be done in the year may be put down at present at about thirty-four, twenty-four different road works, and ten sanitary and miscellaneous. The road repairs extend over 250 miles, and the new roads we may take as sixty or seventy miles. I am thoroughly convinced that this work cannot be inspected properly by three Overseers.

7. If, then, the Local Fund Board wish to press on the different works, they must go on without proper inspection, which amounts to saying they must be done, so that they will all fall to ruin, and require to be entirely renewed in a very few years. It is not really extra expense that is required; the establishment (small as it is) sanctioned by Government had reference to the yearly income of the Local Fund Board; we wish to be spending the balance of the Road Fund, and we, therefore, wish to spend a part of it in taking care that the rest is properly utilized.

8. It is a matter of great importance that we should utilize the funds at our disposal; and, while I am urging the necessity for this, I cannot help pointing out to Government that the present is a case which shows that there may be inconvenience in sending on so many small things for sanction, and I would ask Government to reconsider their Order, dated 24th July 1873, Financial Department, No. 1053.

9. I am sure that Government will see that delay must occur when the Board of Revenue have not time to read till the 6th of August a letter sent by me on the 14th of June.

10. I might mention that perhaps Government may be able to allow some more Overseers from the amount given by the Local Fund Boards to the Provincial or Imperial Funds for supervision.

11. The estimated expenditure is as follows for the whole district:—

| | RS. |
|---|---|
| Imperial ... ... ... ... ... ... ... ... ... ... | 6,22,710 |
| Provincial ... ... ... ... ... ... ... ... ... | 57,550 |
| Local Fund ... ... ... ... ... ... ... ... ... | 2,90,220 |
| Total salaries of District Engineer, Engineers, Supervisors, Overseers, and the office establishments, but not including travelling allowance and military allowances ... ... ... ... ... ... ... ... ... | 81,744 |
| Cost of general supervision in the Local Fund Budget ... | 66,080 |
| Remainder to be paid from Imperial and Provincial Funds. | 15,664 |

So I think Government might give us a few more Overseers out of the amount contributed for general supervision.

*Proceedings of the Madras Government, Financial Department,*
*30th September* 1873.

Proceedings of the Board of Revenue, dated 6th August 1873, No. 4933 (Miscellaneous).

Read letters from the President, Local Fund Boards, Godavery District, dated 14th June and 15th July 1873, Nos. 43, 44, and 59.

In the first of the foregoing letters, the Cocanada Circle Board request that the sanction of Government may be obtained to raise the Local Fund Overseers' travelling allowance from Rupees 15 to Rupees 30 a-month, because the present rate is hardly sufficient for road expenses.

2. In the second letter the Cocanada Circle Board, at the instance of the District Engineer, propose to entertain, as a temporary measure, two additional Overseers, as it is found quite impossible to proceed with the numerous sanctioned Local Fund works.

3. In the third letter, the Ellore Circle Board propose that three additional Overseers may be appointed to push on with the Local Fund works, and that the travelling allowance to the Overseers may be increased from Rupees 15 to Rupees 30 a-month.

4. There are at present five Overseers and twelve Maistries employed in the district as follows:—

| | | |
|---|---|---|
| Cocanada Circle ... | 3 Overseers. | 6 Maistries. |
| Ellore ,, ... | 2 Overseers. | 6 Maistries. |

5. In the original scheme sanctioned by Government there were two Maistries allowed for each Local Fund Overseer, but in the Ellore Circle the number of Maistries is in excess by two, whose entertainment was sanctioned in G.O., Financial Department, 26th August 1872, No. 1132, in consideration of the importance of the several roads then in execution in the circle.

G.O., dated 21st April 1868, No. 1050, Rev. Dept.

6. The present application is for five more Overseers—two for the Cocanada Circle, and three for the Ellore Circle. This multiplication of the number of Overseers leads the Board to suppose that the Taluq Overseers who have had charge of imperial roads are to be relieved of this portion of their duty, which, it is believed, is contrary to the intention of Government. The President will, in communication with the District Engineer, report on this point.

7. The Board cannot endorse the Circle Board's proposal to raise the travelling allowance of Local Fund Overseers, as the present rate was fixed after mature and deliberate consideration, as will be seen from paragraphs 4 and 5 of the Board's Proceedings, dated the 27th April 1869, No. 2840. The Board are still of opinion that 8 Annas a-day, or 15 Rupees a-month, ought to be sufficient to maintain a horse, and this will enable an Overseer to move daily or frequently to greater distances than he can travel on foot.

Circulated with Board's Proceedings, dated 10th August 1869, No. 5870.

(True Extract.)

(Signed) J. GROSE,
*Secretary.*

From Lieutenant-Colonel J. F. FISCHER, R.E., District Engineer, Godavery District, to W. S. FOSTER, Esq., President of the Local Fund Boards, Godavery District, dated Dowlaishweram, 16th August 1873, No. 1565.

Adverting to paragraph 6 of the Revenue Board's Proceedings, No. 4933, dated the 6th August 1873, I have the honour to observe that in the Delta Taluqs the Imperial Fund Overseers cannot look after the roads as calculated upon by the Board, for, with the large works now in progress from Loan Funds, they have more to do than they can properly attend to, and this the Chief Engineer for Irrigation has frequently represented to the Government; in the dry taluqs the areas are very large, and the climate very feverish and unhealthy; one Overseer for each range is simply useless, as in the event of his getting sick there is no one to take his place, and it is worse than mischievous to expect Imperial Fund Overseers to be made use for any or all sorts of work when they have too much to do already; the Board appear to consider these men have nothing to do

but to assist Local Fund Overseers when an opportunity occurs, as if there were no such thing as irrigation works to attend to, Civil and Military buildings, Police, Post, and Telegraph Department Works, Port Funds, &c., besides the roads of the district which have been so utterly neglected that the country is little better provided now than it was half a century ago.

2. Our funds are large, and so are the wants of the district for means of proper communications; it is, therefore, true economy and policy to supply the latter as soon as possible, so that the taxation by which the former is raised may be reduced the sooner and the country burdened as little as need be; and this the Government have already directed should be attended to. In order, therefore, to carry out these wishes and instructions of Government, I urged both Boards of this district to pass the resolutions which the Revenue Board now disapprove of, without one thought or any indication whatever as to how the wants of the district are to be best and expeditiously provided for, but they simply endeavour to set aside the deliberate decision of the Local Fund Boards by saying things had better go on as heretofore and no change is advisable in the face of our large cash balances, the inability to utilize these within the year by the scale of establishment now allowed, and the distinct orders of Government that this state of affairs should be attended to by the Local Fund Boards and measures adopted to remedy them.

3. In conclusion, I have only to observe that this is the fifth month of the official year, and we have not yet received the printed Local Fund Budgets, and as it takes the Revenue Board from two to three months to pass on any resolutions of the Local Fund Boards to Government, the machinery for work is about as cumbersome as it well can be, and the people have reason enough to complain that they pay for work during two or three years which could easily be done in one season but for the delays the existing arrangements create.

---

Referred to the Chief Engineer for his remarks.

OOTACAMUND,
*10th September* 1873.

(Signed) W. HUDLESTON,
*Chief Secretary.*

---

No. 350.

No. 211. NOTE.

The Chief Engineer has the honour to state that the extra expenditure involved by the proposal of the Local Fund Boards is so moderate, and the need of extra subordinate assistance so great in the rich but badly-roaded Delta Districts, that he cannot but think the number of Local Fund Overseers should be permanently raised to an equality with that of the Imperial Overseers, viz., ten; single or double horse allowance passed to them at the discretion of the Range Officer under whom they may be working.

2. The cost of five additional Overseers, including single horse allowance, is $5 \times 75 \times 12 =$ Rupees 4,500, and the additional cost of giving all ten Overseers double horse allowance would be $10 \times 15 \times 12 =$ Rupees 1,800, making a total increase of Rupees 6,300 to the present allotment of Rupees 7,860 for Petty Establishment.

OOTACAMUND,

Ontario District Local Funds.—The proposed addition to the strength of the Local Fund Establishment in the Gosfield District, and the discretionary grant of double horse allowance to the Overseers when necessary, sanctioned as an exceptional case, the charge being borne by Local Funds.

No. 2.

Gosfield District
Local Funds Office
Cucumada 29th August 1873

210

From W.S. Foster Esquire
President

To
The Honorable W. Hendrie
Chief Secretary to Government
Fort St George

Sir,

In June last, the Cucumada Local Fund Board, on the Motion of the District Engineer, resolved that it was necessary to appoint Additional Overseers to superintend the Local Fund works, and also to increase their travelling allowance.

2 This resolution was shortly afterwards followed by a similar resolution of the Ellone Circle Board.

3. After this, the District Engineer asked me to allow the Extra Overseers to be appointed pending Sanction of Government. This I did not feel inclined to do, but I sent a Telegram to the Board of Revenue asking if they would allow me to do so. This Telegram, I have since found out, miscarried. However at the Local Fund meeting in August, I informed the Local Fund Board what I had done, and informed them I had received no reply to my Telegram: they thereupon passed

the following resolution :-

"The Local Fund Board, Cocanada
"Circle, request the President will be
"good enough to submit their Resolution
"of the 10th June 1873 for an increase to
"the number of Overseers for the immediate
"consideration and orders of Government.
"A very large number of Estimates have
"been sanctioned and the funds of the
"District are amply sufficient to provide
"it with Excellent roads in a few years,
"but experience has shown that, with the
"limited establishment now sanctioned
"for each Range, no sufficient progress can
"be made, and as it is of the first importance
"Every endeavour should be made to utilize
"the funds available in each year as much
"as possible, the Board are most desirous
"to strengthen the Establishment at once.
"The usual course of reference through
"the Board of Revenue creates so much
"delay that a working season is lost
"before the funds can be used.-
"The Local Fund Board trust the
"Government will, under the peculiar
"circumstances of the case, be pleased
"to consider the matter at once, and
"sanction their Resolution for immediate adoption".

5. K

Resolution of 10th of June 1873:

Para 2. "On the motion of the District
"Engineer, the Local Fund Board propose
"that, as a temporary measure, one Overseer
"more be appointed in the Rajahmundry
"Range and one in the Eastern Delta Range".

Para 5. "Resolved that the Government
"be requested to sanction an increase of
"Rupees 15 to the travelling allowance of
"the Local Fund Overseers".-

4. I have now received the Proceedings
of the Board of Revenue dated August 6th
1873 No 4933, in which they say they
cannot endorse the Circle Board's proposal
to raise the travelling allowance of the
Overseers, and on the point of increasing
the number of Overseers, they desire a
report about the Imperial Fund Overseers,
whether they do look over the Local Fund works.
On this point, I forward a letter from the
District Engineer, in which he says that
the Imperial Fund Overseers are
already overworked with the work
they have to get done from Imperial
Funds, and that it is impossible for
them to look after the Road work as well.

5. I would therefore ask Government
to allow the Local Fund Boards to employ
additional Overseers, and to raise the

How they will be paid for this service

rates of their travelling allowance.

6. In the Cocanada Circle, there are 3 Local Fund Overseers: now no work can go on properly without constant inspection by the Overseers: the road and tank works to be done in the year may be put down at present at about 34: 24 different road works, and 10 Sanitary and Miscellaneous. The road repairs extend over 250 miles, and the new roads we may take as 60 or 70 miles. I am thoroughly convinced that this work cannot be inspected properly by 3 Overseers.

7. If then the Local Fund Board wishes to press on the different works, they must go on without proper inspection, which amounts to saying they must be done, so that they will all fall to ruin, and require to be entirely renewed in a very few years. It is not really extra Expense that is required: the Establishment (small as it is) sanctioned by Government had reference to the yearly income of the Local Fund Board, but we wish to be spending the balance of the Road Fund, and we therefore wish to spend a part of it in taking care that the rest is properly utilized.

6 X/43

8. It is a matter of great importance that we should utilize the funds at our disposal and while I am urging the necessity for this, I cannot help pointing out to Government that the present is a case which shews that there may be inconvenience in sending on so many small things for sanction, and I would ask Government to re-consider their order dated 24th July 1873 F.D. No 1053

9. I am sure that Government will see that delay must occur, when the Board of Revenue have not time to read till the 6th of August a letter sent by me on the 14th of June.

10. I might mention that perhaps Government may be able to allow some more Overseers from the amount given by the Local Fund Boards to the Provincial or Imperial Funds for supervision.

11. The estimated expenditure is as follows for the whole District.

| | Rupees |
|---|---|
| Imperial | 622700 |
| Provincial | 57550 |
| Local Fund | 290220 |
| | 970480 |
| Total Salaries of District Engineer, Engineers, Supervisors, Overseers and the Office Establishments, but not including travelling allowance and Military allowances | 81744. |
| Cost of General Supervision in the Local Funds Budget | 66080 |
| Remainder to be paid from Imperial & Provincial Funds | 15664 |

So I think Government might give us a few more overseers out of the amount contributed for general supervision.

I have the honour to be
