Office Assistant No 3631 Revenue Dept
Proceedings of the Board of Revenue
Dated 11th June 1873

From No 909. Read the following
A. MacGregor Esquire
President of Local Fund Board
To J. G. Esquire
Secretary to the Board of Revenue

I have the honor to inform you
the Special Executive Engineer in charge
of Mysore has again brought forward
the subject of a loan to admit of the
new works under construction in that
Taluk being pushed on at once to comple-
tion instead of dragging along their slow
course with small annual allotments.
The Local Fund Boards of the
two Circles have long since recorded
their views in favor of a loan and the
subject has more than once been
placed by me before the Board of Revenue

3. It has been decided to disburse with the Special Executive Engineer's Office from the end of the Official year and from that date Major Kennedy's Commission with Hyund will cease. It is only therefore in the event of a loan being sanctioned that the works on the Tambachery Ghant pier can be completed under his personal superintendence and that great advantage must accrue from the works being completed under the same Officer who has throughout been engaged on them is self evident. For this work the Local Fund Board proposed in their Proceedings dated 18th January 1872 that a loan of one lakh should be raised.

4. Since that date rates especially for iron work have increased but on the other hand the necessary amount has been reduced by alterations and expenditures.

5. The sum which Major Kennedy now requires is 89,000 Rs. of which he anticipates that 60,000 Rs. will be expended in the current year. There are two tolls on this line viz at Kalpatty and at the head of the Ghant, and they realize 6,000 Rs. year which may be taken as ample security for the interest of the loan.

6. As regards North Hyund which is attached to the Tellicherry Circle, there is the Veroi Ghant road on which a sum of Rs 56,840 still requires to be spent. The funds of this Circle are such as to admit of very small allotment being made. That the Ghant itself is in fair order, there are places between the head of the Ghant and Manoutoddy where there are gradients steeper than on any part of the Ghant and it is especially with a view of retracing such portions that expenditure is required. The balance of estimate on this line is Rs 56,700.

7. There is moreover the road from
Koroth regarding which is para 2 of
their order of the 25th April 1873 No. 529
Govt. State they are prepared to sanction
a loan. The road is in fact a branch
of the Veroi Ghan road and the amount
required to construct the line has
been roughly estimated at 40,000 Rs.
A sum of 10,000 Rs. however being suf-
ficient to convert the track into a
fine weather road.

8. The tolls on the Veroi Ghan lines
at the head of the Ghan and at the
Dobee Nullah amount to Rs. 4300

9. For these works a loan of
60,000 Rs. will be required of which
half might be expended in the current
year and the remainder in the ensuing
year.

10. When these two circles were taken
up under the Local Fund, there were
many unfinished roads for which li-
beral allotments had been made
up to within 2 or 3 years when fi-
nancial pressure had necessitated
their reduction.

11. The Wyand Roads in particular
had been regarded as imperial works
springing up in a wild country where abun-
dances of waste land promised a hand-
some indirect return on the outlay.

The three main lines were eventually
opened to cart traffic though in an in-
complete state and the consequence
has been that a large traffic has
sprung up which the roads in their
unmetalled and imperfectly drained
condition are unable to accommodate.

12. Meanwhile a large Revenue in Toll
has come into existence and the great
object now appears to be to take ad-
vantage of the ample security for the
interest of Capital advanced which this
Toll Revenue furnishes and at once
to give the toll payers the best possible
accommodation for their money. It is
needless to point out that improvements
to the roads is actual money in pocket to
those using them, and that the Local Funds

will reap a two fold advantage first
in reduction of annual maintenance
and secondly in a large saving in sub-
sidiary establishment which a prompt
completion of the works will secure.

13. I cannot therefore too strongly
urge the loan scheme on the favorable
consideration of Government and trust
that early orders may be passed to admit
of the Special Executive Engineer making the neces-
sary arrangements for carrying on opera-
tions on the close of the monsoon.

President's Office
Calcutta 6th June 1873 } I have &c.
J. Macgregor
President.

The President should submit
an application for a loan under the
rules laid down in the notifications
published at pages 889 & 314 of the Fort
Saint George Gazette for May 1872 and
March 1873.

It is observed that the Security
offered must be the total Local

fund receipts, not the tolls sur-
plus by the Collector.
