Not to be folded or roughly handled

No. 35. Read the following letter from the President of the Municipal Commission, Madras, to the Chief Secretary to Government, Fort St. George, dated Madras, 4th February 1873, No. 1108:—

I have the honour to bring to the notice of Government that the waste produce from the Government Arrack Distillery situate on the north of the old town wall has, for some months past, been allowed to drain into a hollow in the compound of the distillery, where it now covers nearly an acre of ground, and is a most unbearable nuisance to the neighbourhood.

One estimate.
" plan.

2. The attention of the Collector of Madras and of the Presidency Engineer Officer was called to this subject so far as 1868, when it was decided, after considerable correspondence, that all the waste water should be collected in a cistern and then raised and distributed over the ground for irrigation. Since Mr. Pritchard became the Contractor the work of the distillery has more than doubled, and it is, therefore, found impossible to absorb the waste from the stills by irrigation.

3. The Hon. R. S. Ellis did me the favour of inspecting this place on the evening of the 31st January 1873, and, at his request, I now beg to submit an estimate for draining the distillery into one of the municipal main drains by a stoneware pipe drain.

No. 36. ORDER THEREON, 7th February 1873, No. 176.

The President of the Municipal Commission will be requested to have the work executed on account of Government at the estimated cost of Rupees 1,650-10-1.

At the invitation of Mr Dennison. I met him
Mun: Com:
Dr Jonnick - & some members of the Com: on
Saturday Evening.
at the Govt distillery - There are premises the
property of Govt, rented to the contractor Mr.
Pitchard.
It is impossible to describe the filthy
condition of the premises - the back of them
is a huge cesspool, which stagnates & evaporates
percolates into the walls - close on
to the Regimental Lines.
The smell was horrible and the nuisance
is extravagant - If it was a private
manufactory the owner would long since

of the distillery & eventually into the Main Drain. The Municipality have in hand an abundant supply of earthenware pipes for the drainage operation - & I am promised an estimate of the cost at which the Municipality will undertake the work, the first upraising the money.

I trust that I shall have this estimate by next Council day - but I have no desire in bringing to notice the existing state of the Govt distillery premises.

I feel certain that my colleagues will agree that the work required should be treated as emergent, and that whether thro' the Municipality or thro' the D.P.W. it should at once be carried out.

No. 1108

Munpl. Comrs. Office
Madras 4th February 1873

From
Col: C. A. Denison
President Munpl. Comrs.
Madras

To
The Honble W. Huddleston
Chief Secretary to Government
Madras.

Sir,

1 Estimate
1 Plan -
2 Enclosures

I have the honor to bring to the notice of Government that the waste produce from the Government Arrack Distillery, situate on the north of the old Town-wall has for some months past been allowed to drain into a hollow in the compound of the Distillery, where it now covers nearly an acre of ground, and is a most intolerable nuisance to the neighbourhood.

The attention of the Collector of Madras, and of the Presidency Engineer Officer, was called to this subject so far as 1868, when it was decided after considerable correspondence that all the waste-water should be collected in a Cistern and then

passed

raised and distributed over the ground for irrigation - Since Mr. Pitchard became the Contractor the work of the Distillery has more than doubled, and it is therefore found impossible to absorb the waste from the stills by irrigation

The Honble R. S. Ellis did me the favor of inspecting this place on the evening of the 31st January 1879, and at his request, I now beg to submit an Estimate for draining the Distillery, into one of the Municipal Main-drains by a stone-ware pipe drain -
