Proceedings of the Madras Government, Financial Department,

9th December 1873.

No. 73. Read the following letter from A. WEDDERBURN, Esq., President of the Local Fund Board, Coimbatore, to the Hon. W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated Coimbatore, 29th November 1873, No. 10:—

I have the honour to submit, for the information of Government, a plan of a Taluq Dispensary, which will supply the immediate urgent requirements of many small towns or villages where medical subordinates are placed in charge.

2. It does not differ much from, except in being smaller than, the Coimbatore Municipal Dispensary and Hospital; it provides a male and female ward, consulting and dispensary rooms and laboratory, and will serve as the nucleus of an extended system of hospital accommodation when requisite, which would be met by building separate additional wards, say for caste or other patients, within the same compound.

3. The plan has been approved by the District Surgeon and Local and Revenue Boards.

4. Objections have been raised by the highest medical authorities to large wards, where the presence of many patients has been found to have had a depressing influence on the patients, and the cottage-system has consequently been recommended, and in this case would be followed.

5. As it is an object to multiply and spread over the country a cheap style of hospital, for which, rather than for more pretentious buildings, funds are likely to be available, it occurred to me that Government might be interested in the plan adopted in Coimbatore. The estimated cost of this hospital is about Rupees 3,000.
