Not to be folded or roughly handled

No. 199. Read the following letter from A. MACGREGOR, Esq., President of the Municipal Commissions, Calicut, to the Hon. W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated Calicut, 29th October 1873, No. 22:—

I have the honour to forward the annual report received from the Vice-President of the Cannanore Municipality, together with its enclosures, on the working of the Towns' Improvement Act in Cannanore during the year 1872-73.

2. The statistical return called for in G.O., dated 12th June 1873, No. 822, is also enclosed.

3. Funds were raised during the year from all sources prescribed by the Act.

4. The total amount collected during the year was Rupees 10,452-4-1, including the unexpended balance on the 31st March 1872.

5. It will be seen from the Demand, Collection and Balance Statement that a sum of Rupees 1,998-13-11 remained to be collected at the close of the year under "House and Profession taxes" for 1872-73. This the Commissioners attribute to the late date at which they received the Government Order sanctioning the budget. There were no arrears of previous year outstanding on the 31st March 1873.

6. The only item under "Receipts" that calls for remark is tolls. These were leased out on contract for Rupees 4,068, yielding an increase of Rupees 2,568 over the estimated amount, Rupees 1,500.

7. Expenditure.—*Grant* I.—Rupees 412-15-2 were expended under this head, of which Rupees 46-0-10 were for the completion of a road commenced last year; and Rupees 366-14-4 were for repairing four roads, a culvert, a parapet and the pavement of a well, and whitewashing latrines. The Conservancy Establishment was also employed in repairing various other roads and drains situated within the Municipality without detriment to its regular duties.

The small expenditure on Public Works and the large unexpended balance at the close of the year are entirely due to the late date at which their budget received the sanction of Government.

8. *Grant* II.—Under this head the Commissioners have incurred an expenditure of Rupees 538-9-4 for the following purposes:—Contribution to the Cannanore Normal School for 1871-72, now transferred to Calicut, Rupees 229-11-7; Inspection Charges for 1871-72 paid to Local Fund Board Rupees 66-13-9; and Result Grant Rupees 242.

The contribution due for the year under review towards the Normal School will be adjusted soon. The inspection charges for the above period have been paid during the current year.

9. *Grant* III.—The Commissioners were not in charge of any hospital during the year. They have, however, spent Rupees 20 for dieting a patient in the Garrison Hospital.

Vaccination.—Rupees 152-6-2 were spent on the salary of a vaccinator entertained by the Municipality. The number of cases vaccinated during the year was 751, of which 692 proved successful.

Registration.—Rupees 120 were spent on the pay of Registrar of Births and Deaths... ... ... No. 174 Deaths. The casualties registered are ... ... ,, 144 given in the margin.

Conservancy.—A sum of Rupees 2,666-9-8 were spent for the conservancy establishment maintained by the Municipality. Roads, streets, and lanes were kept thoroughly clean.

10. *Grant* IV.—Rupees 764-15-10 were spent under this head for various purposes, of which the principal item was for lighting.

11. *Grant* V.—Rupees 1,389-12-1 were expended under this head, including miscellaneous charges.

From H. COOKE, Esq., Vice-President of the Municipal Commission, Cannanore, to the President of the Municipal Commissions, Calicut, dated Cannanore, 3rd June 1873, No. 415.

I have the honour to forward, for submission to Government, the report on the working of the Towns' Improvement Act III. of 1871 in this Municipality, during the official year ending 31st March 1873, accompanied by the usual statements detailing the financial condition thereof.

2. As you are well-aware the Budget Estimate of this Municipality for the year under reference received the sanction of Government only in the latter part of December last; the delay thus occasioned precluded the possibility of effecting the collection of the taxes prior to the expiration of the year.

3. The entire receipts from all sources, during the year under report, have been Rupees 7,511-3-0, which with the opening balance, viz., Rupees 2,941-1-1, placed at the disposal of the Commissioners the aggregate amount of Rupees 10,452-4-1, and the disbursements Rupees 6,239-10-4, leaving an unexpended balance of Rupees 4,212-9-9 on the 31st March 1873, exclusive of deposits.

4. The outstanding under the head "*3a* and *b*" on account of house and professional taxes as shown in Statement IV. is accounted for by the delay in the receipt of the sanctioned budget above adverted to, and the time absorbed by hearing and disposing of appeals against assessment prior to the issue of the bills, which had to be delayed till the end of the year. It is, however, presumed that the same will be recovered during the current year.

5. The figure shown against tolls as collection within the year demands a passing remark here exhibiting as it does an excess of Rupees 2,568 over the budgeted amount. This excess is incidental, as it accrued from the tolls having been leased out or put up for public competition at the beginning of the official year. Other items of revenue do not call for particular notice, as the statement annexed hereto sets forth the heads in detail.

6. *New Works.*—The sum of Rupees 46-0-10 shown under this head is for the completion of a road commenced during the previous year. No new work was undertaken as contemplated, owing to the delay in receiving the sanction of Government to the Budget Estimate.

7. *Repairs.*—The expense involved under this head has been for the repair of four roads, a culvert, a parapet and the pavement of a well at Thekia, and for whitewashing latrines. Besides these, the necessary repairs for the various roads and drains thereto attached have been executed by the permanent coolies of the conservancy establishment without entailing extra expense. Hence the small expenditure.

8. The outlay incurred in respect of education, viz., Rupees 538-9-4, is towards meeting the charges in connexion with the Cannanore Normal School now transferred to Calicut; payment of grants for two elementary schools under the result system; and contribution to Local Funds in aid of Educational Inspectorate.

9. It will be observed that Rupees 20 have been disbursed as "Diet of Patients" under Grant III.-1. This was incurred in respect of nourishment required for a poor patient admitted into the Garrison Hospital, and who had undergone a severe surgical operation.

10. The establishment maintained under the head "Conservancy" has been found absolutely necessary for the various requirements; but they have been utilized otherwise, when occasion permitted, without impairing the sanitary measures.

11. *Lighting.*—Although no provision was made in the budget towards the expenses for road lighting, the Commissioners nevertheless thought it desirable to carry out the measure for the convenience of the public. Nine lamp-posts were accordingly constructed of strong and durable wood, topped with iron works, whereon large lanterns of an improved kind and adapted to burn kerosine oil are fixed. These lamps are put up by the side of the main road running through the present municipal limits.

12. Rupees 229-4-11 will be found shown under Grant IV.-3, which item was not included in the budget for the year under report. The public bungalow having been transferred to the Municipality during the year, it became imperative for the Commissioners to attend to its requirements.

13. The sum of Rupees 74-6-1 shown as refunds on account of House and Profession taxes for 1871-72 was owing to the limited time left at the disposal of the Commissioners for the collection of taxes of that year, and their having been unable to decide upon the appeals until the beginning of the year under report.

14. In concluding this report, I, on behalf of the Commissioners, regret that, owing to the continued exclusion of the Karar limits from the operations of the Act, the funds of this Municipality do not exhibit better results, and, further, that the discontent of those living within the existing municipal limits, and consequently having to pay taxes, continues very forcibly, for, they feel and very naturally that they are contributing very largely towards improvements, &c., in the town, which are equally shared, and in many instances far more so, by the non-taxpayers living just outside of the municipal limits, and who, of course, are excluded from any of the operations of the Act.

15. The Auditor's statement and report are also submitted.

From A. JOHNSON, Esq., Auditor of the Municipal Accounts, Cannanore, to the Vice-President of the Municipal Commission, Cannanore, dated Cannanore, 19th May 1873.

Having now audited the Municipal accounts for the year 1872-73, I beg to forward a statement of receipts and disbursements for that period.

2. The accounts have been carefully audited by me and found to be correct.

3. The entries of each month in the cash-book, from which the monthly returns have been prepared, have been compared with those in the Treasury Pass-book and found to correspond, and are duly supported by vouchers.

4. In fact all the books and accounts laid before me have ben kept clean and correct, and in regular office style.

2. The collections under "Rates on Houses, &c.," and "Tax on Arts, &c.," fell short of the estimate by Rupees 1,568, and this, as well as a considerable increase in the expenditure, the Commissioners attribute to the late date on which they received the Government sanction to the Budget, which was delayed in the hope of an early settlement of the question of including the "Karar limits" within the Municipality. In connection with this and the extract from the Proceedings of the Commissioners forwarded with the President's letter of the 4th December 1872, No. 35, the Government resolve to point out that though the Act renders the submission of estimates obligatory and empowers Government to pass binding orders upon them, it nowhere compels the Commissioners to await the orders of Government before commencing the current operations of the year. As the recognized practice is to pass review orders on all Budgets, the Commissioners are expected to refrain from commencing any important work, or change in the administration of the funds, but all the ordinary current work such as the collection of previously sanctioned taxes, road repairs, conservancy, &c., should be

proceeded with whether the orders of Government on the Budget have been received or not.

3. The collections from Tolls amounted to Rupees 4,149, against an estimate of Rupees 1,500, the Commissioners having had no satisfactory data to go on at the time the Budget was prepared.

4. The very large decrease in the expenditure and consequent increase in the closing balance has been above alluded to. The expenditure on lighting is approved, notwithstanding the absence of any allotment in the Budget for the purpose. The ordinary objects of Municipal expenditure, such as conservancy, vaccination, registration of births and deaths, &c., appear to have been fairly attended to. The inclusion of deposits in Statements I. and II. is unnecessary. Statement II-A, has not been received. The President should expedite its

The Collections under "Rates on Houses &c" and "Tax on Arts &c" fell

fell short of the Estimate by Rs 1568 and this, as well as a considerable decrease in the expenditure, the Commissioners attribute to the late date on which they received the Governments sanction to the Budget which was delayed in the hope of an early settlement of the question of including the "Kasar limits" within the Municipality. In connection with this & the extract from the proceedings of the Commissioners forwarded with the President's letter of the 4th December 1872 No 35, the Government resolve to point out that though the Act renders the submission of Estimates obligatory & empowers Government to pass binding orders upon them, it nowhere compels the Commissioners to await the

orders of Government before commencing the current operations of the year. As the recognized practice is to pass review orders on all budgets, the Commissioners are expected to refrain from commencing any important work, or change in the administration of the funds, but all the ordinary current work such as the collection of previously sanctioned taxes, road repairs, Conservancy &c. should be proceeded with whether the orders of Government on the Budget have been received or not.

The Collections from tolls amounted to Rs 4149 against an estimate of Rs 1500, the Commissioners having had no satisfactory data to go on at the time the budget was prepared.

The very large decrease in the expenditure and consequent increase in the ~~closing~~ balance has been above alluded to. The expenditure on lighting is approved notwithstanding the absence of any allotment in the budget for the purpose. The ordinary objects of municipal expenditure such as Conservancy, vaccination registration of births & deaths &c appear to have been fairly attended to. The inclusion of deposits in statement III is unnecessary. Statement II A has not been ~~submitted~~ received. The President should expedite its submission.
