Not to be folded or roughly handled

No. 3. Read the following letter from the President of the Municipal Commissions, Kistna District, to the Chief Secretary to Government, Fort St. George, dated Chandavole, 3rd March 1873, No. 285 :—

I have the honour to submit, for the approval and confirmation of the Governor in Council, a set of bye-laws framed by the Municipal Commissioners of the Masulipatam Town for the regulation of the water-supply of the place.

No. 4. ORDER THEREON, 1st April 1873, No. 431.

With the exception of No. 2, which seems unnecessary, the proposed bye-laws are sanctioned with a slight modification of the penalty clause.

Bye-laws for the Regulation of Good-water Supply in the Town of Masulipatam.

1. No person shall use the public reservoirs for any purpose other than drawing water from them for drinking on the spot or carrying away for domestic and gardening purposes.

2. Private individuals wishing to take water into their own houses shall pay the cost of the construction of the necessary works and of a shaft in the main conduit for the regulation of the water supply. (They will be permitted to supply materials and labour if they choose to do so.)

3. All shafts and subsidiary works outside private residences shall be the property of the Municipal Commissioners.

4. These rules do not prohibit the use of the water by hand-watering for small flower gardens, except in the hot weather, when the supply from the canals is cut off. Irrigation of fields is prohibited.

5. No tanks connected with the conduits shall be used for bathing and washing purposes, except with the special permission of the Commissioners, and then only when arrangement has been made for ensuring that the tank water will not flow back into the municipal works.

6. No branch or main pipe and apparatus from the street to any premises, yard, or garden shall be attached, removed, disconnected, or in any way altered, except by workmen sent by the Commissioners. When any alteration is required, application must be made at the Municipal Office.

7. All parties having pipes to their houses shall keep them in good repair, so that no waste may take place.

8. The Commissioners shall be at liberty to discontinue the supply of water to any house where these rules are not observed or when the supply from the canals fails.

9. The Commissioners shall have power to authorize the entry of such of their officers as may be necessary into any premises, after giving six hours notice, to inspect any work, or cause any alteration to be made that may be necessary.

10. PENALTY.—Any breach of any of the above bye-laws shall subject the offender to a fine of not more than Rupees 20, and, in the case of a continuing offence, to a further penalty not exceeding Rupees 10 for every day such offence is continued.

Bye-laws for the regulation of Good-water Supply in the Town of Masulipatam

1. No person shall use the public reservoirs for any purpose other than drawing water from them for drinking on the spot or carrying away for domestic and gardening purposes.

2. No person shall remain loitering about, at, or near any reservoir or a tank without any reasonable excuse.

3. Private individuals wishing to take water into their own houses, shall pay the cost of the construction of the necessary works in & of a shaft in the [illegible] Conduit for the regulation of the water supply. (They will be permitted to supply materials and labor if they choose to do so.)

4. All shafts and subsidiary works outside private residences shall be the property of the Municipal Commissioners.

5. These rules do not prohibit the use of the water by hand watering for small flower gardens; except in the hot weather when the supply from the canals is cut off. Irrigation of fields is prohibited.

6. No taps connected with the Conduit shall be used for bathing and washing purposes, except with the special permission of the Commissioners and then only when arrangement has been made for ensuring that the tank water will not flow back into the Municipal works.

7. No branch or main pipe and apparatus from the street to any premises, yard or garden, shall be attached, removed disconnected or in any way altered except by workmen sent by the Commissioners. When any alteration is required, application must be made at the Municipal Office.

8. All

8. All parties having pipes to their houses shall keep them in good repair so that no waste may take place.

9. The Commissioners shall be at liberty to discontinue the supply of water to any house, where these rules are not observed or when the supply from the Canals fails.

10. The Commissioners shall have power to authorize the entry of such of their officers as may be necessary into any premises after giving six hours notice to inspect any work or cause any alteration to be made that may be necessary.

Penalty

11. Any breach of any of the above bye-laws shall subject the offender to a fine of not more than Rs. 20, and in the case of a
