2. The Local-Fund Board of the Cocanada Circle have, at a meeting held on the 10th instant, agreed to these transfers.

3. The works, Nos. 5 to 7, now appertain to the Rajahmundry Circle, but they will come under the Cocanada Circle when the proposed circles are sanctioned, and I, therefore, think that these transfers will not occasion any serious inconvenience to adjust the accounts.

4. The District Engineer has informed me that he has authorized, in anticipation of the Board's sanction, the Range Officer to incur outlay on the works according to the proposed changes, as the working season has already set in, and as the grants will remain unexpended at the close of the year if immediate measures are not adopted to utilize them.

In the foregoing letter, the President applies for certain transfer of funds as detailed below:—

2. The Board approve the proposed transfer of funds in the Cocanada Circle, except as regards the two items noted in the margin. The balance of the estimate for the first work was provided in the past year's revised budget, and it is not apparent why a further allotment of Rupees 790 is proposed. The President will explain.

2. Maintaining avenue trees	600

3. The actual cost of maintaining avenues should be charged to the savings in the allotments for works executed out of the General Fund.

4. In the Ellore Circle the President gives up Rupees 5,350 from the assignments for three new works, and proposes to transfer Rupees 4,950 of it to one new work and three repair works. Deducting the transfers already made there is only a sum of Rupees 4,200 available, which has been distributed amongst the works requiring funds in the proportion shown opposite to each in the above statement. The Board authorize the transfers subject to the confirmation of Government.
