Proceedings of the Madras Government, Financial Department,
29th May 1873.

No. 279. To the Inspector-General, Indian Medical Department, Calcutta, dated Ootacamund, 29th May 1873, No. 750.

The question of establishing Provincial Medical Schools and training Native Medical Practitioners for private practice in the districts being now under the consideration of this Government, I have the honour to request that you will be good enough to favour this Government with information on the points noted in the enclosed List of Queries, as it is understood that the Medical College at Calcutta has done much already in this direction and with satisfactory results.

(Signed) W. HUDLESTON,
Chief Secretary.

List of Queries.

1*st.*—The *number* of Graduates passed annually from the Medical College, Calcutta, as independent medical men, *not* as Government employés.

2*nd.*—Whether they receive payment while studying at the Medical College, and to what amount.

3*rd.*—The curriculum of study to obtain diploma.

4*th.*—The number of Pupils annually under instruction; whether the instruction is entirely in English; and the strength and cost of the professional Staff of the Medical College.

5*th.*—Whether there is any difference made between Students—those destined to Government employment as Hospital Assistants, and those destined to an independent medical career, or whether the choice of Government employés is made after they have obtained their diplomas.

6*th.*—Whether there is any information of the success or otherwise of the independent Medical Practitioners.

7*th.*—Whether the Medical College is able to train annually a sufficient number of Graduates to hold out a prospect of supplying the wants of Bengal in such places where there are not Government Dispensaries.

8*th.*—Whether there are in the provinces Medical Schools; whether these depend on the Civil Surgeons for instruction or have an independent teaching Staff, and whether the instruction given in these is in English or Vernacular; whether the curriculum is the same as in the Medical College, Calcutta, and what has been the success of these Provincial Schools if in existence.

No 750

To,

The Inspector General, Indian Med. Dept.

Calcutta

Sir,

The question of es-
-tablishing Provincial Med-
-ical schools, and training
Native Medical practitioners
for private practice in
the districts being now
under the consideration of
this Government, I have
the honor to request that
you will be good enough
to favor this Government
with the

with information on the points noted in the enclosed list of queries, as it is understood that the Medical College at Calcutta have done much already in this direction and with satisfactory results.

Ordered
29th May 1873.

List of Queries.

1st — The number of graduates passed annually from the Medical College, Calcutta, as independent medical men — not as Government employés.

2nd — Whether they receive payment while studying at the Medical College, and to what amount?

3rd — The curriculum of study to obtain diploma.

4th The number of pupils annually under instruction

instruction - whether the instruction is entirely in English - and the strength and cost of the professional staff of the Medical College.

5th Whether there is any difference made between students - those destined to government employment as hospital Assistants, and those destined to an independent Medical career - or whether the choice of post employés is made after they have obtained their Diplomas.

6th Whether there is

in any information of the success or otherwise of the independent practitioners.

7th Whether the Medical College is able to train annually a sufficient number of graduates to hold out a prospect of supply of the wants of Bengal in such places where there are not government dispensaries.

8th Whether there are in the provinces Medical schools - whether these depend on the Civil Surgeons for instruction

instruction or have an
independent teaching
staff, and to be then
instruction given in
these to the English
or Vernacular Can — schools
the Curriculum in the
Arts as in the Medical
College, Calcutta, and
what has been the
result of these provi-
sions below. If in
