Proceedings of the Madras Government, Financial Department,
23rd June 1873.

No. 163. Read the following letter from J. B. PENNINGTON, Esq., President of the Municipal Commission, Trichinopoly, to the Hon. W. HUDLESTON, Chief Secretary to Government, Fort St. George, dated Trichinopoly, 23rd May 1873, No. 34 :—

Referring to the enclosed copy of a resolution of the Municipal Commissioners for the town of Trichinopoly at a meeting held on the 10th current to the effect that the Municipal limits should be enlarged so as to include the new burning-ground road, I have the honour to request that Government will be pleased to alter the eastern boundary defined in G. O., No. 1118, dated 30th October 1866, in the Public Department, as follows: " East by the Cantonment Stones Nos. 47 to 43 and a direct line to the Wyacondan from the latter, following this channel till it meets the point where the Davadanam Channel commences, and following this channel till it meets the point where the new burning-ground road takes off, and thence along the said road north to the Cauvery bank."

2. The proposed extension will include an extent of land (chiefly paddy land) measuring about one-fourth of a mile north and south by 100 yards east and west.

3. The extension has become necessary because the progress of levelling the Eastern Boulevard has opened a shorter and much more convenient road into and through the town from Combaconum, and the traffic will mostly come that way when the burning-ground road (now under repair) is put in thorough order.
